

About us

We are a dynamic, innovative and ambitious housing, health and social care organisation providing services across the country and employing nearly 4,000 colleagues.

Accord Housing Association has merged with GreenSquare to create GreenSquareAccord. Together, we are building better lives.

Our focus at GreenSquareAccord is on building better lives. We have created GreenSquareAccord so that we can improve services to customers; invest more in local communities; extend our care and support services; and build more affordable homes. Everything we do is about people – whether that’s providing a good quality, safe home or helping someone to live an independent life. Accord and GreenSquare have chosen to merge because we share the same values and ambitions for expanding and enhancing locally-focused services to customers. This merger of equals has created a stronger and more resilient organisation that’s more “future-proof” and ready to deal with future challenges. In time, we will use the extra resources resulting from the merger to expand and improve local delivery of services, across our larger operating area. So that, together, bigger really will mean better.

From 6 April 2021 we are starting to use our new name and logo on letters, badges and uniforms and our email addresses have changed. But you will still see the GreenSquare and Accord names and logos in some places over the months ahead as we start to bring services together.

Details about our registered companies can be found [here](#).
