Pacific Passages Patrick Moser 2008-05-08 A thousand years after Hawaiians first paddled long wooden boards into the ocean, modern surfers have continued this practice, which has recently been transformed into a global industry. Pacific Passages brings together four centuries of writing about surfing, the most comprehensive collection of Polynesian and Western perspectives on the history and culture of a sport currently enjoyed by millions of people around the world. The stories begin with Hawaiian legends and chants and are followed by the journals of explorers; the travel narratives of missionaries and luminaries such as Herman Melville, Mark Twain, and Jack London; and the contemporary observations of Tom Wolfe, William Finnegan, Susan Orlean, and Bob Shacochis. Readers follow the historical transformation of surfing's image through the centuries: from Polynesian myths of love to Western accounts of horror and exoticism in the eighteenth and nineteenth centuries, to modern representations of surfing as a character-building activity in pre-World-War II California and the quintessential expression of disaffected youth. They explore the sport's most recent trends by writers and cultural critics, whose insights into technology, competition, gender, heritage, and globalism reveal how surfing impacts some of today's most pressing social concerns. Aided by informative introductions, the writings in Pacific Passages provide insight into the values and ideals of Polynesian and Western cultures, revealing how each has altered and been altered by surfing—and how the sport itself has shown an amazing ability throughout the centuries to survive, adapt, and prosper.

The Plots Against Hitler Danny Orbach 2016 A new and definitive account of the anti-Nazi underground in Germany and its numerous efforts to assassinate Adolf Hitler In 1933, Adolf Hitler became Chancellor of Germany. A year later, all parties but the Nazis had been outlawed, freedom of the press was but a memory, and Hitler's dominance seemed complete. Yet over the next few years, an unlikely clutch of conspirators emerged - soldiers, schoolteachers, politicians, diplomats, theologians, even a carpenter - who would try repeatedly to end the Fuhrer's genocidal reign. This dramatic and deeply researched book tells the full story of those noble, ingenious, and doomed efforts. This is history at its most suspenseful, as we witness secret midnight meetings, crises of conscience, fierce debates among old friends about whether and how to dismantle Nazism, and the various plots themselves being devised and executed.

Orbach's fresh research takes advantage of his singular skills as linguist and historian to offer profound insight into the conspirators' methods, motivations, fears, and hopes. Though we know how this story ends, we've had no idea until now how close it came - several times - to ending very differently. The Plots Against Hitler fundamentally alters our view of World War II and sheds bright - even redemptive - light on its darkest days.

Charm Joseph Epstein 2018-10-01 Joseph Epstein takes on that most enchanting (and, alas, increasingly rare) of human gifts, charm. "Almost everyone will recognize when he or she is in the presence of charm," he writes. "Charm is magic of a kind; it

casts a spell. In the presence of charm the world seems lighter and lovelier. A charming person can cause you to forget your problems, at least temporarily, to hold the world's dreariness at bay. Charm is a reminder that the world is filled with jolly prospects and delightful possibilities. Watching Fred Astaire dance, or listening to Blossom Dearie sing, or reading the poems of C.P. Cavafy, or merely looking at Rita Hayworth or Ava Gardner, one recalls that the world can be a pretty damn fine place."

Seafaring in the Arabian Gulf and Oman Dionisius A. Agius 2012-12-06 This book is a study of the seafaring communities of the Arabian Gulf and Oman in the past 150 years. It analyses the significance of the dhow and how coastal communities interacted throughout their long tradition of seafaring. In addition to archival material, the work is based on extensive field research in which the voices of seamen were recorded in over 200 interviews. The book provides an integrated study of dhow activity in the area concerned and examines the consciousness of belonging to the wider culture of the Indian ocean as it is expressed in boat-building traditions, navigational techniques, crew organisation and port towns. People of the Dhow brings together the different measures of time past, the sea, its people and their material culture. The Arabian Gulf and Oman have traditionally shared a common destiny within the Western Indian Ocean. The seasonal monsoonal winds were fundamental to the physical and human unities of the seafaring communities, producing a way of life in harmony with the natural world, a world which was abruptly changed with the discovery of oil. What remains is memories of a seafaring past, a history of traditions and customs recorded here in the recollections of a dying generation and in the rich artistic heritage of the region.
