Ivanka Trump Matt Doeden 2017-08 Presents the life and career of the first daughter and advisor to the forty-fifth president of the United States.

Rage Abigail R. Esman 2020-10-01 2022 IPPY Gold Medal in Current Events In the days after 9/11, Abigail R. Esman walked the streets of New York haunted by a feeling that was eerily familiar: the trauma of violence that hovered in the air. Friends, family, and strangers moved, walked, even stood as she herself had done earlier as a victim of domestic battery and abuse. Since then, Esman, a journalist who specializes in writing on terrorism and radicalization, has studied the connections between domestic abuse and terrorism and the forces that inspire both forms of violence. In *Rage: Narcissism, Patriarchy, and the Culture of Terrorism* Esman brings into focus the complex web that ties them together, illuminating the terrorist psyche and the cultures that create it. With this new approach to understanding terrorism and violence, Esman presents clear explanations of pathological narcissism and its roots in shame-honor cultures—both familial and sociopolitical—through portraits of terrorists and batterers, including O. J. Simpson, Osama bin Laden, Anders Breivik, and Dylann Roof. The insights of psychiatrists, former white supremacists, Islamist terrorists, national security experts, and others elaborate her thesis, while Esman's own experiences with abuse and the aftermath of 9/11 on the streets of New York City further enrich the narrative. At a time when so many lives are threatened by public violence and terrorism, understanding the forces that incite them has become crucial, and finding solutions, urgent. Esman proposes social and policy initiatives aimed at reducing violence while engendering social equality and enriching women's rights. Such proposals, she argues, are essential to overcoming the cultural and political forces that hinder progress toward security and peace. This groundbreaking book sheds new light on the roots of violence and terrorism while advancing proactive measures to protect our values and traditions of justice, equality, and freedom.

God and Donald Trump Stephen E. Strang 2017 An award-winning journalist who campaigned for President Trump during his election offers a powerful first-person account of one of the most contentious races in American history, with exclusive interviews and insightful commentary from the men and women who were there.

2016: the Campaign Chronicles JD Foster 2019-10-08 The 2016 campaign ended with Donald J. Trump as president-elect of the United States, astounding just about everyone. More than two dozen candidates had vied for the two parties' nominations, leaving Trump and former Secretary of State Hillary Clinton. Her flaws standing in rough proportion to her strengths, Clinton had been the presumed Democratic nominee, though Bernie Sanders had nearly upended her run. In contrast, Trump's capturing the Republican nomination seemed preposterous before and after the fact. The campaign overall was far more than the result. It was a long, tumultuous, outrageous frolic of American politics. The *Campaign Chronicles* was written contemporaneously with events as they happened so as to capture the sense of each amazing if horrific moment. Even weeks after the election, the country remained stunned by the outcome, which as we learned foretold of a presidency unlike any before it. But, before the presidency, there was a campaign, about which many histories will be written. But before the histories must come the chronicling, history stripped of faded memories and coherent perspective. Herewith, such a chronicling written from a determinedly neutral posture, presenting the good with the bad for all concerned.

Health Informatics: Practical Guide Seventh Edition William R. Hersh 2018-05-23 *Health Informatics: Practical Guide* focuses on the application of information technology in healthcare to improve individual and population health, education and research. The goal of the seventh edition is to stimulate and educate healthcare and IT professionals and students about the key topics in this rapidly changing field. Dr. William Hersh from Oregon Health & Science University is the co-editor and author of multiple chapters. Topics include Health Informatics (HI) overview, electronic health records, healthcare data analytics, health information exchange, architecture of information systems, evidence-based medicine, consumer health informatics, HI ethics, quality improvement strategies and more. The 22 chapters feature learning objectives, case studies, recommended reading, future trends, key points, conclusions and over 1800 references. It is available as a paperback and an eBook. Visit the textbook companion website at <http://informaticseducation.org/> for more information.

Global Jihadist Terrorism Paul Burke 2021-04-30 This insightful book provides a unified repository of information on jihadist terrorism. Offering an integrated treatment of terrorist groups, zones of armed conflict and counter-terrorism responses from liberal democratic states, it presents fresh empirical perspectives on the origins and progression of conflict, and contemporary global measures to combat terrorist activity.

Carceral Logics Lori Gruen 2022-04-14 We incarcerate humans as a form of punishment and we cage animals for food, entertainment, and research. Are there lessons one site of carcerality can teach us about the other?

The Augmented Reality of Pokémon Go Neriko Musha Doerr 2019-02-08 This volume examines the complexities created by Pokémon GO—the smartphone augmented reality game—from an anthropological perspective. Through detailed text analyses, links to wider issues, and the phenomenology of playing, this collection provides nuanced studies of how Pokémon GO created a new way to inhabit the world.

Planes, Steak & Water Autry J. Pruitt 2016-09-16 "Racist, sexist, fascist, unqualified" are just some of the hate-speech epithets your friends may have used to describe Donald Trump. But in the privacy of the ballot box you're going to vote for The Donald anyway. Isn't it about time you learned how to defend the choice you know in your heart is the right one? This book arms Trump supporters with anecdotes and information they can use to refute the disinformation spread by Anti-Trump forces on the Left and Right. *Planes, Steak &*

Water shatters the elite's lies about the fall of the GOP, Trump's past with women, his attitude toward African-Americans, his business dealings, and his supposed racism. Trump supporters will gain confidence and build a solid foundation for persuading friends, families, and foes alike to climb aboard the Trump Train.

The EU Migration System of Governance Michela Ceccorulli 2020-10-01 This book explores the norms, practices, and main actors in the EU Migration System of Governance (EUMSG). Bringing a fresh perspective to the analysis of asylum and migration in Europe, the volume unpacks the European Union's approach to migration and points to the principles and actions of EU member states. Moreover, it explores the EUMSG's performance through the lenses of three alternative yet coexistent understandings of justice (non-domination, impartiality, and mutual recognition), thereby overcoming a unilateral ethical viewpoint and moving away from the 'open-closed borders' debate.

The Making of the President 2016 Roger Stone 2017-01-31 In the tradition of Theodore White's landmark books, the definitive look at how Donald J. Trump shocked the world to become president. From Roger Stone, a New York Times bestselling author, longtime political adviser and friend to Donald Trump, and consummate Republican strategist, comes the first in-depth examination of how Trump's campaign tapped into the national mood to deliver a stunning victory that almost no one saw coming. In the early hours of November 9, 2016, one of the most contentious, polarizing, and vicious presidential races came to an abrupt and unexpected end when heavily favored presidential hopeful Hillary Clinton called Donald J. Trump to concede, shocking a nation that had, only hours before, given little credence to his chances. Donald Trump pulled the greatest upset in American political history despite a torrent of invective and dismissal of the mainstream media. Stone, a long time Trump retainer and confidant, gives us the inside story of how Donald Trump almost single-handedly harnessed discontent among "Forgotten Americans" despite running a guerrilla-style grass roots campaign to compete with the smooth running and free-spending Clinton political machine. From the start, Trump's campaign was unlike any seen on the national stage—combative, maverick, and fearless. Trump's nomination was the hostile takeover of the Republican party and a resounding repudiation of the failed leadership of both parties whose policies have brought America to the brink of financial collapse as well as endangering our national security. Here Stone outlines how Donald Trump skillfully ran as the anti-Open Borders candidate as well as a supporter of American sovereignty, and how he used the Globalist trade deals like NAFTA to win over three of ten Bernie Sanders supporters. The veteran adviser to Nixon, Reagan, and Trump charts the rise of the alt-conservative media and the end of the mainstream media monopoly on voter impacting information dissemination. This is an insider's view that includes studying opposition research into Bill, Hillary, and Chelsea Clinton's crimes, and the struggle by the Republican establishment to stop Trump and how they underestimated him. Stone chronicles Trump's triumph in three debates where he skillfully lowered expectation levels but skewered Mrs. Clinton for the corruption of the Clinton Foundation, her mishandling of government email, and her incompetence as Secretary of State. Stone gives us the inside word on Julian Assange, Wikileaks, Clinton campaign chief John Podesta, Huma Abedin, Anthony Weiner, Carlos Danger, Doug Band, Jeffery Epstein, and the efforts to hide the former first lady's infirmities and health problems. Stone dissects the phony narrative that Trump was in cahoots with Russian strongman Vladimir Putin or that the e-mails released by Wikileaks came from the Russians. The Making of the President 2016 reveals how Trump brilliantly picked at Hillary Clinton's weaknesses, particularly her reputation as a crooked insider, and ignited the passions of out-of-work white men and women from the rust belt and beyond, at a time when millions of Americans desperately wanted change. Stone also reveals how and why the mainstream media got it wrong, including how the polls were loaded and completely misunderstood who would vote. Stone's analysis is akin to Theodore H. White's seminal book The Making of the President 1960. It is both a sweeping analysis of the trends that elected Trump as well as the war stories of a hard-bitten political survivor who Donald Trump called "one tough cookie."

The True Military Power of North Korea Andrew Scobell 2020-12-17 North Korea is a country of paradoxes and contradictions. Although it remains an economic basket case that cannot feed and clothe its own people, it nevertheless possesses one of the world's largest armed forces. This book provides the facts regarding the true force of North Korean Army and gives an assessment of its capability to harm the United States. North Korea's Military Threat Conventional Forces Unconventional Forces Overall Conclusions The North Korean Ballistic Missile Program DPRK National Strategy and Motivations Historical Background of DPRK Missile Development Institutional Setting Conclusion U.S. Government Policy Toward North Korea Countering the North Korean Threat (New Steps in U.S. Policy) Pressuring North Korea (Evaluating Options) President Donald Trump on Current Crisis on the Korean Peninsula A Message to the Congress of the United States on the Continuation of the National Emergency with Respect to North Korea Continuation of the National Emergency with Respect to North Korea Statement from the President on North Korea's Second ICBM Launch Statement by President Donald J. Trump on North Korea About the Authors

Identity Crisis John Sides 2019-08-13 In this gripping in-depth account of the 2016 presidential election, authors Sides, Michael Tesler, and Lynn Vavreck reveal how Trump's victory was foreshadowed by changes in the Democratic and Republican coalitions that were driven by people's racial and ethnic identities.

Digital Privacy, Terrorism and Law Enforcement Simon Hale-Ross 2018-07-06 This book examines the UK's response to terrorist communication. Its principle question asks, has individual privacy and collective security been successfully managed and balanced? The author begins by assessing several technologically-based problems facing British law enforcement agencies, including use of the Internet; the existence of 'darknet'; untraceable Internet telephone calls and messages; smart encrypted device direct messaging applications; and commercially available encryption software. These problems are then related to the traceability and typecasting of potential terrorists, showing that law enforcement agencies are searching for needles in the ever-expanding haystacks. To this end, the book examines the bulk powers of digital surveillance introduced by the Investigatory Powers Act 2016. The book then moves on to assess whether these new powers and the new legislative safeguards introduced are compatible with international human rights standards. The author creates a 'digital rights criterion' from which to challenge the bulk surveillance powers against human rights norms. Lord Carlile of Berriew CBE QC in recommending this book notes this particular legal advancement, commenting that rightly so the author concludes the UK has fairly balanced individual privacy with collective security. The book further analyses the potential impact on intelligence exchange between the EU and the UK, following Brexit. Using the US as a case study, the book shows that UK laws must remain within the ambit of EU law and the Court of Justice of the European Union's (CJEU's) jurisprudence, to maintain the effectiveness of the exchange. It addresses the topics with regard to terrorism and counterterrorism methods and will be of interest to researchers, academics, professionals, and students researching counterterrorism and digital electronic communications, international human rights, data protection, and international intelligence exchange.

American Nightmare Douglas Kellner 2016-11-25 "Explaining the Donald Trump phenomenon is a challenge that will occupy critical theorists of U.S. politics for years to come. Firstly, Donald Trump won the Republican primary contest and is now a contender in the U.S. Presidential Election because he is the master of media spectacle, which he has deployed to create resonant images of himself in his business career, in his effort to become a celebrity and reality-TV superstar, and now his political campaign. More disturbingly, Trump embodies Authoritarian Populism and has used racism, nationalism, xenophobia, Islamophobia, and the disturbing underside of

American politics to mobilize his supporters in his successful Republican primary campaign and in the hotly contested 2016 general election. The Trump phenomenon is a teachable moment that helps us understand the changes and contour of U.S. politics in the contemporary moment and the role of broadcast media, new media and social networking, and the politics of the spectacle. Trump reveals the threat of authoritarian populism, a phenomenon that is now global in scope, and the dangers of the rise to power of an individual who is highly destructive, who represents the worst of the 1 percent billionaire business class who masquerades as a “voice of the forgotten man” as he advances a political agenda that largely benefits the rich and the military, and who is a clear and present danger to U.S. democracy and global peace. The book documents how Trump’s rise to global celebrity and now political power is bound up with his use of media spectacle and how his use of authoritarian populism has created a mass movement beyond his presidency and a danger to the traditions of U.S. democracy as well as economic security and world peace.”

Extremism J. M. Berger 2018-08-28 What extremism is, how extremist ideologies are constructed, and why extremism can escalate into violence. A rising tide of extremist movements threaten to destabilize civil societies around the globe. It has never been more important to understand extremism, yet the dictionary definition—a logical starting point in a search for understanding—tells us only that extremism is “the quality or state of being extreme.” In this volume in the MIT Press Essential Knowledge series, J. M. Berger offers a nuanced introduction to extremist movements, explaining what extremism is, how extremist ideologies are constructed, and why extremism can escalate into violence. Berger shows that although the ideological content of extremist movements varies widely, there are common structural elements. Berger, an expert on extremist movements and terrorism, explains that extremism arises from a perception of “us versus them,” intensified by the conviction that the success of “us” is inseparable from hostile acts against “them.” Extremism differs from ordinary unpleasantness—run-of-the-mill hatred and racism—by its sweeping rationalization of an insistence on violence. Berger illustrates his argument with case studies and examples from around the world and throughout history, from the destruction of Carthage by the Romans—often called “the first genocide”—to the apocalyptic jihadism of Al Qaeda, America's new “alt-right,” and the anti-Semitic conspiracy tract *The Protocols of the Elders of Zion*. He describes the evolution of identity movements, individual and group radicalization, and more. If we understand the causes of extremism, and the common elements of extremist movements, Berger says, we will be more effective in countering it.

European Democracies Markus M.L. Crepaz 2017-05-18 *European Democracies* is an introduction to the politics and governments of Western, Central, and Eastern Europe. Organized thematically rather than country-by-country, this fully revised edition examines topics such as electoral systems, the European Union, refugees and the welfare state, and asks how to explain variations in policy outcomes, and how globalization is affecting European Democracies, among others. Throughout, the author treats Europe as a single but diverse entity and asks readers to compare what they learn about European politics with the politics of their own country. Key features in this new edition include: An updated thematic introduction to the politics and governments of Europe; Fully revised to include comprehensive coverage of recent electoral politics and political events in Europe, such as Brexit, the refugee crisis, and terrorist attacks; New chapters on immigration and the nature of European political culture and welfare state. New comparative sections covering topics such as political parties, and financial and political differences in governments between Europe and the USA. This key, in-depth text will be essential reading to anyone interested in European politics and comparative politics.

The Abe Doctrine Daisuke Akimoto 2018-02-06 This book focuses on Prime Minister Abe’s policy toward international peace and security proposed in 2013 under the basic principle of ‘proactive contribution to peace’. To this end, this book investigates Prime Minister Abe’s policy-making process of the Peace and Security Legislation, which transformed Japan’s security policy and enabled Japan to exercise the right of ‘collective self-defense’, which used to be ‘unconstitutional’. This book evaluates the implications of the Peace and Security Legislation on three fronts, domestic, bilateral, and international, by analyzing Japan’s Ballistic Missile Defense (BMD) program, the Japan-US alliance system, and Japan’s policy on international peacekeeping operations in South Sudan. This book is one of the first contributions to the research on Japan’s foreign and security policy under the Shinzo Abe administration and will be of interest to scholars, policymakers, and students of Japan, Japanese politics and international relations of the Asia-Pacific region.

Censored 2020 Andy Lee Roth 2019-10-08 In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as “the enemy of the people,” *Censored 2020* looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting that presents a fuller picture of truth. With a discerning eye, *Censored 2020* focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corporate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in “junk food news” and “news abuse”-- further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion “Media Democracy in Action.” Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues in the Trump era, “fake news” as a Trojan horse for censorship, and online memes as a form of political communication.

The Economics of Obesity Tahereh Alavi Hojjat 2017-02-22 Providing a fascinating insight into the factors that influence individual choices regarding eating habits, diet and other behavioral patterns relevant to obesity, this book offers a new perspective about the relationship of obesity to poverty and inequality. The authors explore a unique socioeconomic model that helps build the framework to understand the causes of obesity and its relation to health, science, and economics. An essential read for policy makers who are seeking a framework to address this problem.

ECGBL 2019 13th European Conference on Game-Based Learning Lars Elbæk 2019-10-03

The Trumping of America Pamela Hines 2018-08 Trump alone is not to blame... How does it reflect on North American societal values when wealth trumps humanity, selfish individualism trumps compassion, the need to be entertained and to win trumps the truth, and racism and misogyny are rewarded with the most powerful position in the world? The political rise of Donald Trump, from the cutthroat Republican primary process to his move to the White House, has ushered in a new age of politics in the United States. This is a comprehensive analysis of the events surrounding the 2016 presidential election and the unprecedented first year of Donald Trump’s presidency. Pamela Hines highlights the growing distortion of American democracy, which threatens political systems around the world. As a Canadian living just across the border, Hines provides a unique perspective on the international impact of the election; explores the roles of religion, racism, nationalism, and gender bias; and critiques the media and its reckless coverage of Trump’s ascension. The Trump presidency is a wake-up call to citizens of the free world. Democracy is at risk, yet power remains in the hands of the people. This assault on democracy can be curtailed only if voters make informed decisions and understand the consequences of their choices—while they still have the right to choose.

The New Welfare Consensus Darren Barany 2018-08-01 Discusses the conservative ideological and political attack on welfare in the

United States. Families on welfare in the United States are the target of much public indignation from not only the general public but also political figures and the very workers whose job it is to help the poor. The question is, What explains this animus and, more specifically, the failure of the United States to prioritize a sufficient social wage for poor families outside of labor markets? The New Welfare Consensus offers a comprehensive look at welfare in the United States and how it has evolved in the last few decades. Darren Barany examines the origins of American antiwelfarism and traces how, over time, fundamentally conservative ideas became the dominant way of thinking about the welfare state, work, family, and personal responsibility, resulting in a paternalistic and stingy system of welfare programs. "This book provides a skilled analysis of the conservative ideology about the welfare state. By analyzing the different strands of conservative thought, Barany shows how this ideology developed and converged into its contemporary form." — Joel Blau, author of *The Dynamics of Social Welfare Policy*, Fourth Edition

Today's Foreign Policy Issues: Democrats and Republicans Trevor Rubenzer 2017-06-15 Examines the perspectives of Democrats and Republicans on dozens of major foreign policy issues of the 21st century, illuminating both areas of consensus and issues where partisan divisions are wide. • Presents both historical and contemporary examples of partisan divisions on key foreign policy issues that clarify the impact of partisanship on politics and foreign policy • Examines a wide variety of partisan actors and sources—including the party platform, unelected party elites and advisors, members of Congress, U.S. presidents, and presidential candidates—for their unique perspectives on foreign policy issues • Supplies cross-referenced coverage of related foreign policy topics, such as ISIS, Syria, Iraq, and terrorism

Reconceptualising Unaccompanied Child Asylum Seekers and the Law Jennifer L. Whelan 2022-09-30 Unaccompanied child asylum seekers are amongst the world's most vulnerable populations, and their numbers are increasing. The intersection of their age, their seeking asylum, and separation from their parents creates a specific and acute triple burden of vulnerability. Their precariousness has long been recognised in international human rights law. Yet, human rights-based responses have been subordinated to progressive global securitisation of irregular migration through interception, interdiction, extraterritorial processing and immigration detention. Such an approach necessitates an urgent paradigm shift in how we comprehend their needs as children, the impact of punitive border control laws on them, and the responsibility of States to these children when they arrive at their borders seeking asylum. This book reconceptualises the relationship between unaccompanied child asylum seekers and States. It proposes a new conceptual framework by applying international human rights law, childhood studies and vulnerability theory scholarship in analysing State obligations to respond to these children. This framework incorporates a robust analysis of the operation and impact of laws on vulnerable populations, a taxonomy for articulating the gravity of any consequent harms and a method to prioritise recommendations for reform. The book then illustrates the framework's utility using Australia's treatment of unaccompanied children as a case study. This book illuminates key learnings from human rights law, childhood studies and vulnerability theory and transforms them into a new roadmap for law reform. As such, it will be a valuable practice-based resource for practitioners, non-government organisations, advocates, policymakers and the general public interested in advocating for the rights of vulnerable populations as well as for academics, researchers and students of human rights law, refugee law, childhood studies and vulnerability studies.

Presidential Swing States David A Schultz 2018-06-20 In this new and updated volume, the contributors examine the phenomena of presidential swing states in the 2016 presidential election. They explore the reasons why some states and, now counties are the focus of candidate attention, are capable of voting for either of the major candidates, and are decisive in determining who wins the presidency.

Understanding Violence and Abuse Heather Fraser 2020-07-10T00:00:00Z In *Understanding Violence and Abuse*, Heather Fraser and Kate Seymour examine violence and abuse from an anti-oppressive practice perspective and make connections between interpersonal violence and structural, institutional and cultural violence. Using case studies from Canada, the U.K., the U.S., Australia, Bangladesh, India and elsewhere, the authors discuss topics ranging from class oppression, street violence, white privilege, war, shame, Islamophobia and abuse in intimate relationships, as well as introduce the core tenets of anti-oppressive social work practice. They encourage readers to reflect upon hierarchies of identity and difference in relation to the ways in which violence and abuse are defined, understood and addressed. Further, they discuss several responses to violence using an anti-oppressive framework.

Unpresided Martha Brockenbrough 2018-12-04 A riveting, meticulously researched, and provocative biography of Donald J. Trump from the author of *Alexander Hamilton, Revolutionary*. Born into a family of privilege and wealth, he was sent to military school at the age of 13. After an unremarkable academic career, he joined the family business in real estate and built his fortune. His personal brand: sex, money and power. From no-holds-barred reality TV star to unlikely candidate, Donald J. Trump rose to the highest political office:

President of the United States of America. Learn fascinating details about his personal history, including: -Why Trump's grandfather left Germany and immigrated to America -Why Woodie Guthrie wrote a song criticizing Trump's father -How Trump's romance with Ivana began—and ended -When Trump first declared his interest in running for President Discover the incredible true story of America's 45th President: his questionable political and personal conduct, and his unprecedented rise to power. Richly informed by original research and illustrated throughout with photographs and documents, *Unpresided* is a gripping and important read.

Tales of Brexits Past and Present Nigel Culkin 2018-12-11 Three previous Brexits, each of which had a different cause and a different outcome, are analysed and contrasted to the current Brexit, begging the question "what happens next?"

Crimes of States and Powerful Elites Claudia Radiven 2021-07-06 This book explores fourteen case studies of state crime, crimes/immoralities of the powerful, including disasters caused by neglect, pharmaceutical fraud, state sponsored or instigated crime, corporate crime, organisational crime and state terrorism. The book offers a valuable contribution to critical social science perspectives on criminality, providing analysis which explores issues of accountability and social harm and linking these to wider structural contexts, particularly the role of neoliberal ideologies. At the same time, the book will provide a critical perspective on historical case studies which continue to have legacies in the present, and which help to shed light on histories of domination and inequalities and to illustrate continuities and changes in crimes of the powerful over time.

Cyberwar Kathleen Hall Jamieson 2020 "Imagine a strategy memo forecasting cyberattacks by Russian hackers, trolls, and bots designed to roil social discontent and damage the electoral prospects of a major party US presidential nominee, or, if she winds up winning, to sabotage her ability to govern by seeding allegations of Democratic voter fraud. Guaranteed payoff. No fingerprints. No keystroke record. No contrails in the cloud. To ensure that Americans would believe that disparaging messages about her were made in the US, use bitcoin to buy space and set up virtual private networks (VPNs) on American servers. Distribute hacked content stolen from the accounts of her staff and associates through an intermediary, WikiLeaks. Use identity theft, stolen Social Security numbers, and appropriated IDs to circumvent Facebook and PayPal's demand for actual names, birth dates, and addresses. On platforms such as Instagram and Twitter, register under assumed names. Diffuse and amplify your attack and advocacy through posts on Facebook, tweets and retweets on Twitter, videos on YouTube, reporting and commentary on RT, blogging on Tumblr, news sharing on Reddit, and viral memes and jokes on 9GAG. Add to the mix a video game called Hilltendo in which a missile-straddling Clinton figure vaporizes classified emails sought by the FBI. Employ "online agitators" and bots to upvote posts from imposter websites such as

BlackMattersUS.com to the top of such subreddits as r/The_Donald and r/HillaryForPrison. Drive content to trend. To maximize the impact of your handiwork, use data analytics and search-engine maximization tools built into the social media platforms. To test and fuel doubts about the security of US voter information, hack the election systems of states. And, throughout the primary and general election season, insinuate the notion that if Hillary Clinton were to win, she would have done so by rigging the election, an outcome that would repay her assaults on the legitimacy of their leader's presidency with doubts about her own. Were she instead to lose, she would no longer be a thistle in the toned torso of the hackers and trolls' boss's likely boss. Every result but one produces desirable results for the Kremlin. Outcome one: Clinton is off the international stage. Outcome two: she wins but can't govern effectively. Outcome three: the former Secretary of State is elected and the country simply moves on, but the sabotage nonetheless has magnified cultural tensions and functioned as a pilot from which to birth later success - perhaps when she runs for a second term. The only eventuality that damages the Russian cybersoldiers and their commander-in-chief is the fourth in which, in real time, the cyberattackers are unmasked by a vigilant intelligence community, condemned by those in both major political parties and around the world, characterized by the media as spies and saboteurs, the Russian messaging is blocked or labeled as Russian propaganda, and, when included in media accounts, the stolen content is relentlessly tied to its Russian origins and sources. None of that happened. Instead, to the surprise of the Russian masterminds as well as both Hillary Clinton and Donald Trump, he won the Electoral College and with it a four-year claim on 1600 Pennsylvania Avenue. Although countrywide she bested him by almost 2.9 million votes, he unexpectedly captured an Electoral College majority by running the table. By the end of the evening of November 8, Florida as well as Wisconsin, Michigan, and Pennsylvania were in his column. The ways in which Russian hacking and social media messaging altered the content of the electoral dialogue and contributed to Donald Trump's victory are the subjects of this book. To begin my exploration, this overview chapter will highlight key findings of the US intelligence community; preview my focus on the hackers and trolls and the synergies between them; justify casting the Russian machinations as acts of cyberwar; outline ways in which susceptibilities in our system of government and media structures magnified their effects; and note five presuppositions that will shape my analysis of the Russian trolls' work and one that will guide my study of the effects of the hackers."--

Japan's Green Monsters Sean Rhoads 2018-01-26 ? In 1954, a massive irradiated dinosaur emerged from Tokyo Bay and rained death and destruction on the Japanese capital. Since then Godzilla and other monsters, such as Mothra and Gamera, have gained cult status around the world. This book provides a new interpretation of these monsters, or kaiju-?, and their respective movies. Analyzing Japanese history, society and film, the authors show the ways in which this monster cinema take on environmental and ecological issues—from nuclear power and industrial pollution to biodiversity and climate change.

ISIS and the Pornography of Violence Simon Cottee 2019-05-30 'ISIS and the Pornography of Violence' is a collection of iconoclastic essays on ISIS, spanning the four-year period from its ascendancy in late 2014 to its demise in early 2018. From a trenchant critique of the infantilization of jihadists to a probing examination of the parallels between gonzo porn and ISIS beheading videos, the pieces collected in this volume challenge conventional ways of thinking about ISIS and the roots of its appeal. Simon Cottee's core argument is that Western ISIS recruits, far from being brainwashed or "vulnerable" dupes, actively responded to the group's promise of redemptive violence and self-sacrifice to a total cause.

Foreign Perceptions of the United States Under Donald Trump Gregory S. Mahler 2021-09-20 President Donald Trump's term in office significantly affected the way the United States is seen by other nations in the international setting. This book presents 18 case studies of the effect of Trump policies and behavior on the U.S. standing abroad, and examines the long-term consequences of these effects.

Handbook of Research on Social Marketing and Its Influence on Animal Origin Food Product Consumption Bogueva, Diana 2018-03-02 As marketing professionals look for more effective ways to promote their goods and services to customers, a thorough understanding of customer needs and the ability to predict a target audience's reaction to advertising campaigns is essential. The Handbook of Research on Social Marketing and Its Influence on Animal Origin Food Product Consumption is a critical scholarly resource that examines the role of social marketing in understanding and changing behavior regarding the negative impacts of consuming animal-based foods. Featuring coverage on a broad range of topics, such as the psychology of meat consumption, food waste, and meat substitutes, this publication is geared towards academicians, students, and professionals seeking current research on social marketing interventions and the demarketing of meat.

Conversations at the Well Jung Eun Sophia Park 2019-08-29 Are religious women in the United States disappearing and finally dying out? Or is there any new way of religious life emerging? Conversations at the Well tries to respond to this question. In the twenty-first century of the global world, newly emerging religious life would be rooted with the Jesus Movement and develop in the spirit of collaboration, networking, and intercultural living. As the liminal space, religious life is located at the margins, subverting the existing social order and creating a new vision for the world. This book explores an alternative meaning of religious life within the context of the apostolic mission. In this new religious life, the concept of community is not limited to living as a community in the convent, but extended into collaborating friendship. Primarily, the apostolic religious life is deeply related to social justice, delinking the global capitalism in which many people suffer from human trafficking, immigration, and exile. The new leader of religious women would require skill in handling uncertainty, amplifying resources, and opening to the new reality. In this new religious life, spirituality would be articulated as freedom and liberation to let go of the old frame, as well as letting the new life become reality. In this way, as radical disciples, religious women in the twenty-first century embody the Jesus Movement, building bridges between different cultures and people.

Strategies, Policies and Directions for Refugee Education 2018-10-08 This volume will provide educators at all levels with a research and evidence based understanding of the educational opportunities and challenges facing refugees. The chapters focus on strategies and policies for providing education to the world's refugee populations.

Information Governance for Healthcare Professionals Robert F. Smallwood 2018-09-21 Like other critical organizational assets, information is a strategic asset that requires high level of oversight in order to be able to effectively use it for organizational decision-making, performance improvement, cost management, and risk mitigation. Adopting an information governance program shows a healthcare organization's commitment to managing its information as a valued strategic asset. Information governance serves the dual purpose of optimizing the ability to extract clinical and business value from healthcare information while meeting compliance needs and mitigating risk. Healthcare organizations that have information governance programs will have a competitive edge over others and contributes to safety and quality of care, population health, operational efficiency and effectiveness, and cost reduction initiatives. This is a much-needed book in the healthcare market space. It will explain, in clear terms, how to develop, launch, and oversee an Information Governance program. It also provides advice and insights from leading IG, cybersecurity and information privacy professionals in healthcare.

Xi Jinping Alfred L. Chan 2022 This book is the first comprehensive exploration of Chinese leader Xi Jinping's life and political career. Synthesizing a large corpus of cutting-edge research, Chan provides a contextualized and balanced analysis of the leader and demonstrates how his life sheds light on the vicissitudes of the history of the People's Republic. The result is an original contribution to

scholarship which is essential reading for anyone interested in the turbulent rise of China and its implications for the world.
