Compromised Seamus Bruner 2018-08-16 If you ask most Americans what they think about the FBI, they would tell you it's far and away the government agency they trust the most. The Bureau has, for decades, sold an image of itself as efficient, professional, unbiased, and untouchable by

corruption. That portrait is a sham. Seamus Bruner and the Government Accountability Institute have spent years cataloging the widespread conflict-of-interests of the D.C. political class. They have found massive self-enrichment and political bias at the highest levels of government—including the Justice Department and the FBI. Indeed, the nation's most important law enforcement agency has become so compromised that every major investigation should face intense scrutiny from the public, the media, and from Congress. James Comey, Robert Mueller, Andrew McCabe, and the rest of the recent FBI leadership should be forced to answer for the way the Bureau has abused the public trust under their watch.

LGBTI Asylum Seekers and Refugees from a Legal and Political Perspective Arzu Güler 2018-12-06 This book addresses the 'three moments' in lesbian, gay, bisexual, transgender and intersex (LGBTI) asylum seekers' and refugees' efforts to secure protection: The reasons for their flight, the Refugee Status Determination process, and their integration into the host community once they are recognized refugee status. The first part discusses one of the most under-researched areas within the literature devoted to asylum claims based on sexual orientation and gender identity, namely the reasons behind LGBTI persons' flight. It investigates the motives that drive LGBTI

persons to leave their countries of origin and seek sanctuary elsewhere, the actors of persecution, and the status quo of LGBTI rights. Accordingly, an intersectional approach is employed so as to offer a comprehensive picture of how a host of factors beyond sexual orientation/gender identity impact this crucial first stage of LGBTI asylum seekers' journey. In turn, the second part explores the challenges that LGBTI asylum seekers face during the RSD process in countries of asylum. It first examines these countries' interpretations and applications of the process in relation to the relevant UNHCR guidelines and questions the challenges including the dominance of Western conceptions and narratives of sexual identity in the asylum procedure, heterogeneous treatment concerning the definition of a particular social group, and the difficulties related to assessing one's sexual orientation within the asylum procedure. It subsequently addresses the reasons for and potential solutions to these challenges. The last part of the book focuses on the integration of LGBTI refugees into the countries of asylum. It first seeks to identify and describe the protection gaps that LGBTI refugees are currently experiencing, before turning to the reasons and potential remedies for them.

“????”????? The Handbook of the Belt and Road??? ?? 2019-04-01 The countries of the world are at different stages of development and have their own different histories and cultures?but the people of all countries share a common desire for peace and development.It is also the goal and constant commitment of the ruler of every country to raise the country's economic and social development level with a view to bringing people out of poverty and improving people's quality of life.Meanwhile?people tend to agree that a country should also accommodate the legitimate concerns of others when seeking its own development and the common development of all countries is the only way for a country to achieve its sustainable development.Since Comrade Xi Jinping was elected the president of China in 2013?he has consistently advocated and made

profound interpretations of the idea of building a community of shared future for mankind?which has quickly gained widespread recognition from the international community.

The Trumping of America Pamela Hines 2018-08 Trump alone is not to blame... How does it reflect on North American societal values when wealth trumps humanity, selfish individualism trumps compassion, the need to be entertained and to win trumps the truth, and racism and misogyny are rewarded with the most powerful position in the world? The political rise of Donald Trump, from the cutthroat Republican primary process to his move to the White House, has ushered in a new age of politics in the United States. This is a comprehensive analysis of the events surrounding the 2016 presidential election and the unprecedented first year of Donald Trump's presidency. Pamela Hines highlights the growing distortion of American democracy, which threatens political systems around the world. As a Canadian living just across the border, Hines provides a unique perspective on the international impact of the election; explores the roles of religion, racism, nationalism, and gender bias; and critiques the media and its reckless coverage of Trump's ascension. The Trump presidency is a wake-up call to citizens of the free world. Democracy is at risk, yet power remains in the hands of the people. This assault on democracy can be curtailed only if voters make informed decisions and understand the consequences of their choices—while they still have the right to choose.

Critical Reflections on China's Belt & Road Initiative Alan Chong 2020-01-24 This book provides insights into China's Belt and Road Initiative (BRI) from Asia Pacific and the Middle East. It offers critical perspectives from various directions, not excluding historical investigations, human geography approaches and neo-Marxist inclinations. China's Belt and Road Initiative (BRI) represents one of the biggest geopolitical visions since the Cold War and offers the possibilities of an intercontinental vision of Aid politics, along with prospects for pan-Asianism. By and large, any

geopolitical vision that purports to foster inter-regional dialogue and materialist development of peoples and economies is bound to have its flaws. The Belt and Road Initiative bears hallmarks of the socio-political tradition of Chinese authoritarian infrastructure politics while also offering a possible alternative to the so-called 'Washington Consensus' of free markets, deregulation and a shift towards liberal democracy. Additionally, the Belt and Road Initiative opens up wide open intellectual spaces for dialogues between Asians, Arabs and Westerners on the meaning of inclusive inter-continental relationships in philosophy, geography and economics. The significance of this is often underplayed in Chinese official statements whereas this book introduces these possibilities within its assorted sections. "The book is about much more than the material aspects of China's Belt and Road Initiative. In fact, various chapter authors use the Belt and Road to look at perhaps the most fundamental issue of our times: how does one build a global world order and societies that are inclusive, cohesive and capable of managing interests of all stakeholders as well as political, cultural, ethnic and religious differences in ways that all are recognized without prejudice and/or discrimination?" —Prof. James Dorsey, S. Rajaratnam School of International Studies, Nanyang Technological University, Singapore

Diabolical Milo Yiannopoulos 2018-10-31 Who is the real Pope Francis? And can the Church survive him? Milo Yiannopoulos traces the origins of the Church's descent into sin and shame, pointing the finger at left-wing reformers, trendy progressive bishops, gay clergy, and ultimately, Francis himself. In *DIABOLICAL*, Milo Yiannopoulos levels his critical eye and legendarily caustic wit at the Catholic Church, an institution he reveres but which, under the leadership of a "Lavender Mafia" of left-wing gay bishops, has become shambolic and depraved. Yes, there really is a gay mafia. And yes, their outfits are fabulous. The Catholic Church hasn't had a crisis like this since the Reformation. It won't survive unless it learns how to talk to men again, sets aside transitory

political nostrums like environmentalism and identity politics, and gets back to worshipping Almighty God.

China and East Africa Chapurukha M. Kusimba 2019-12-02 China and East Africa: Ancient Ties and Contemporary Flows marks the culmination of a new round of archaeological and historical research on the relations between China and Africa, from the origins to the present. Africa and Asia have always been in constant contact, through land and seas. The contributors to this volume debate and present the results of their research on the very complex and intricate networks of connections that crisscrossed the Indian Ocean and surrounding lands linking Africa to East Asia. A growing number of speakers of Austronesian languages returned to Africa, reaching Madagascar in the early centuries of the Common Era. The diffusion of domesticated plants, like bananas, from New Guinea to South Asia and Africa where phytoliths are dated to the mid-fourth millennium in Uganda and mid-first millennium BCE in southern Cameroon, provide additional evidence on early interactions between Africa and Asia. Africa and Asia have always been in constant contact, through land and seas. Edited by Chapurukha Kusimba, Tiequan Zhu, and Purity Wakabari Kiura, this collection explores different facets of the interaction between China and Africa, from their earliest manifestations to the present and with an eye to the future.

Under Beijing's Shadow Murray Hiebert 2020-08-15 China's rise and stepped-up involvement in Southeast Asia have prompted a blend of anticipation and unease among its smaller neighbors. The stunning growth of China has yanked up the region's economies, but its militarization of the South China Sea and dam building on the Mekong River has nations wary about Beijing's outsized ambitions. Southeast Asians long felt relatively secure, relying on the United States as a security hedge, but that confidence began to slip after the Trump administration launched a trade war with China and questioned the usefulness of traditional alliances. This compelling book provides a

snapshot of ten countries in Southeast Asia by exploring their diverse experiences with China and how this impacts their perceptions of Beijing's actions and its long-term political, economic, military, and "soft power" goals in the region.

China, Russia and Central Asian Infrastructure Peter Krasnopolsky 2022-08-17 This book evaluates Central Asian regionalism by analyzing the impact of Russia and China on physical infrastructure in the region. The narrative builds a picture of the nature of the two powers' influence

on the development of regional connectivity in Central Asia. The study covers the 30-year period since the dissolution of the Soviet Union, with a focus on the last decade preceding the global pandemic. Qualitative research methods, i.e., documentary analysis, media analysis, and elite interviews, are implemented to explore how activities of Russia and China impact regional cooperation among Central Asian states. Multiple case studies of projects in the networked sectors of infrastructure, i.e., transportation, energy, and telecommunications, are used to build the argument and demonstrate the ways in which Russia's and China's engagement influence regional connectivity. The book is of interest to the scholars who study international relations in Eurasia, major power relations, Sino-Russian relations, China foreign policy, international institutions in Asia, multilateralism, and regionalism. The empirical depth of the book attracts attention of area studies scholars who focus on Central Asia, Central Eurasia, and any of the five Central Asian states. Additionally, the scholars who analyze the roles of hard infrastructure find the book particularly important. The in-depth cases on multilateral financial institutions and regional networks, particularly energy, transportation, and telecommunication, are of great value to those interested in these respective sectors.

Gambling Regulation and Vulnerability Malgorzata Anna Carran 2018-03-30 Since the UK Gambling Act of 2005 was introduced, gambling has stopped being seen, politically and legally as an inherent vice and is now viewed as a legitimate form of entertainment. Gambling Regulation and Vulnerability explores the laws around gambling that aim to protect society and individuals, examining the differences between regulatory rhetoric and the impact of legislative and regulatory measures. Malgorzata Carran finds that although the Gambling Act introduced many positive changes to gambling regulation, it has created an environment in which protection of vulnerable individuals becomes difficult. Carran challenges the existing legislative premise that regulation

alone is able to balance the effect of liberalisation for those who are vulnerable.

The Rise of Digital Repression Steven Feldstein 2021-04-27 The world is undergoing a profound set of digital disruptions that are changing the nature of how governments counter dissent and assert control over their countries. While increasing numbers of people rely primarily or exclusively on online platforms, authoritarian regimes have concurrently developed a formidable array of technological capabilities to constrain and repress their citizens. In The Rise of Digital Repression, Steven Feldstein documents how the emergence of advanced digital tools bring new dimensions to political repression. Presenting new field research from Thailand, the Philippines, and Ethiopia, he investigates the goals, motivations, and drivers of these digital tactics. Feldstein further highlights how governments pursue digital strategies based on a range of factors: ongoing levels of repression, political leadership, state capacity, and technological development. The international community, he argues, is already seeing glimpses of what the frontiers of repression look like. For instance, Chinese authorities have brought together mass surveillance, censorship, DNA collection, and artificial intelligence to enforce their directives in Xinjiang. As many of these trends go global, Feldstein shows how this has major implications for democracies and civil society activists around the world. A compelling synthesis of how anti-democratic leaders harness powerful technology to advance their political objectives, The Rise of Digital Repression concludes by laying out innovative ideas and strategies for civil society and opposition movements to respond

to the digital autocratic wave.

Co-Illusion David Levi Strauss 2020-03-31 Reports from America's political crisis, exposing a new “iconopolitics,” in which words and images lose their connection to reality. The political crisis that sneaked up on America—the rise of Trump and Trumpism—has revealed the rot at the core of American exceptionalism. Recent changes in the way words and images are produced and received have made the current surreality possible; communication through social media, by design, maximizes attention and minimizes scrutiny. In *Co-Illusion*, the noted writer on art, photography, and politics David Levi Strauss bears witness to the new “iconopolitics” in which words and images lose their connection to reality. The collusion that fueled Trump's rise was the secret agreement of voters and media consumers—their “co-illusion”—to set aside the social contract. Strauss offers dispatches from the epicenter of our constitutional earthquake, writing first from the 2016 Democratic and Republican conventions and then from the campaign. After the election, he switches gears, writing in the voices of the regime and of those complicit in its actions—from the thoughts of the President himself (“I am not a mistake. I am not a fluke, or a bug in the system. I am the System”) to the reflections of a nameless billionaire tech CEO whose initials may or may not be M. Z. Finally, Strauss shows us how we might repair the damage to the public imaginary after Trump exits the scene. Photographs by celebrated documentary photographers Susan Meiselas and Peter van Agtmael accompany the texts.

Crackup Samuel L. Popkin 2021 "In 2016, a businessman so discredited that he could no longer get a casino license or borrow money from an American bank was elected President of the United States of America. How did this happen? It is easy to mock and ridicule Donald Trump as if he is the problem. In fact, he is a symptom of a much larger issue that has been bedeviling the GOP for nearly two decades: an intraparty crackup of massive proportions. By "crackup," I mean a breakdown of the fragile alliances between coalitions within a party that prevents its leaders from developing goals they can deliver on when they control the White House and majorities in the House and Senate. This introductory chapter explains why party crackups are inevitable in a federal system with national money and local primaries. But this is the first time -- for either party - that no group within the party could create a synthesis of old orthodoxies and new realities that altered the party's direction enough to build a new consensus"--

Unlocking Creativity Michael A. Roberto 2019-01-07 Tear down the obstacles to creative innovation in your organization Unlocking Creativity is an exploration of the creative process and

how organizations can clear the way for innovation. In many organizations, creative individuals face stubborn resistance to new ideas. Managers and executives oftentimes reject innovation and unconventional approaches due to misplaced allegiance to the status quo. Questioning established practices or challenging prevailing sentiments is frequently met with stiff resistance. In this climate of stifled creativity and inflexible adherence to conventional wisdom, potentially game-changing ideas are dismissed outright. Senior leaders claim to value creativity, yet often lack the knowledge to provide a creative framework. *Unlocking Creativity* offers effective methods and real-world examples of how the most successful organizations create cultures of innovation and experimentation. Best-selling author and scholar Michael Roberto presents a thorough investigation of organizational obstacles to creative thought. Highly relevant to the growth crises many enterprises face in today's economic landscape, this book examines how to break barriers to spark creativity and foster new ideas. This insightful and informative work allows business executives, senior managers, and organization leaders to:

- Recognize the six organizational mindsets that impede creativity and innovation
- Learn how to tear down the barriers that obstruct the creative process
- Create an environment that allows talented people to thrive
- Encourage creative collaboration in teams throughout an organization

Leaders do not have to conceive innovative ideas, but rather open the path for curious and creative employees within their organization. *Unlocking Creativity: How to Solve Any Problem and Make the Best Decisions* aids organizations in removing obstacles to the creative process and helps to form an atmosphere of imagination and innovation.

Promoting Prosperity in Mississippi Brandon N. Cline 2018-02-13 In this book, we identify key areas for Mississippi economic policy reform. Twenty-one scholars, ten of which are from or work in Mississippi, have contributed original policy research. All twenty chapters were written

specifically for Mississippi with a shared goal to promote prosperity in the state. While some of the chapters contain complex policy reforms, we have made every effort to present the concepts and ideas in a way that is understandable to the average citizen, the person who can benefit the most from this information. The first three chapters of the text summarize the basic economic principles necessary to achieve economic prosperity. These three chapters present the principles behind the reforms proposed in the subsequent seventeen chapters. Each chapter was written independently and offers unique insight into different areas of state policy reform. While the topics covered range from tax reform, education reform, healthcare, corporate welfare, occupational licensing and business regulatory reform to criminal justice reform, and natural disaster recovery efforts, there is a clear unifying framework underlying the conclusions reached in each chapter. The theme throughout is that economic growth is best achieved through free market policies, policies which are based on limited government, lower regulations, lower taxes, minimal infringement on contracting and labor markets, secure private property rights, low subsidies, and privatization. Policy based on these principles allows Mississippians to have more rights and more choices in their lives.

The Battle for Syria Christopher Phillips 2020-09-22 An unprecedented analysis of the crucial but underexplored roles the United States and other nations have played in shaping Syria's ongoing civil war "One of the best informed and non-partisan accounts of the Syrian tragedy yet published."—Patrick Cockburn, Independent Syria's brutal, long-lasting civil war is widely viewed as a domestic contest that began in 2011 and only later drew foreign nations into the fray. But in this book Christopher Phillips shows the crucial roles that were played by the United States, Russia, Iran, Saudi Arabia, Turkey, and Qatar in Syria's war right from the start. Phillips untangles the international influences on the tragic conflict and illuminates the West's strategy against ISIS,

the decline of U.S. power in the region, and much more. Originally published in 2016, the book has been updated with two new chapters.

Children of the Waters of Meribah Allan Aubrey Boesak 2019-09-17 In the decades since Black liberation theology burst onto the scene, it has turned the world of church, society, and academia upside down. It has changed lives and ways of thinking as well. But now there is a question: What lessons has Black theology not learned as times have changed? In this expansion of the 2017 Yale Divinity School Beecher Lectures, Allan Boesak explores this question. If Black liberation theology had taken the issues discussed in these pages much more seriously--struggled with them much more intensely, thoroughly, and honestly--would it have been in a better position to help oppressed black people in Africa, the United States, and oppressed communities everywhere as they have faced the challenges of the last twenty-five years? In a critical, self-critical engagement with feminist and, especially, African feminist theologians in a trans-disciplinary conversation, Allan Boesak, as Black liberation theologian from the Global South, offers tentative but intriguing responses to the vital questions facing Black liberation theology today, particularly those questions raised by the women.

Race, Nation and Gender in Modern Italy Gaia Giuliani 2018-05-29 This book explores intersectional constructions of race and whiteness in modern and contemporary Italy. It contributes to transnational and interdisciplinary reflections on these issues through an analysis of political debates and social practices, focusing in particular on visual materials from the unification of Italy (1861) to the present day. Giuliani draws attention to rearticulations of the transnationally constructed Italian 'colonial archive' in Italian racialised identity-politics and cultural racisms across processes of nation building, emigration, colonial expansion, and the construction of the first post-fascist Italian society. The author considers the 'figures of race' peopling the Italian colonial archive as composing past and present ideas and representations of (white) Italianness and racialised/gendered Otherness. Students and scholars across a range of disciplines, including Italian studies, political philosophy, sociology, history, visual and cultural studies, race and

whiteness studies and gender studies, will find this book of interest.
