Youth Identity, Politics and Change in Contemporary Kurdistan Shivan Fazil 2021-09-01 Today's youth are challenging the older political class around the world and are forming new political generations. Examples from South Africa and elsewhere where peace processes were deemed to be successful show signs of youth disapproval of the current post-conflict conditions. Moreover, the Arab Spring witnessed numerous youth movements emerge in authoritarian and illiberal contexts. This book was prepared in light of these discussions and aims to contribute to these ongoing debates on youth politics by presenting the situation of youth in the Kurdistan Region of Iraq (KRI) as a case study. It will be the first book that specifically focuses on the Iraqi Kurdish youth and their political, social, and economic participation in Kurdistan. The contemporary history of the KRI is marked by conflict, war, and ethnic cleansing under Saddam Hussein and the tyranny of the Ba'ath regime, significantly affecting

the political situation of the Kurds in the Middle East. Most of the recent academic literature has focused on the broader picture or, in other words, the macro politics of the Kurdish conundrum within Iraq and beyond. There is little scholarship about the Kurdish population and their socio-economic conditions after 2003, and almost none about the younger generation of Kurds who came of age during autonomous Kurdish rule. This is a generation that, unlike their forebears, has no direct memory of the decades-long campaigns of repression. Studying and examining the rise of this generation of Kurdish young millennials—"Generation 2000"—who came of age in the aftermath of the United States invasion of Iraq offers a unique approach to understand the dynamics in a region that underwent a substantial socio-political transformation after 2003 as well as the impact of these developments on the youth population. Pursuing different themes and lines of inquiry the contributors of the book analyze the challenges and opportunities for young men and women to fulfil their needs and desires, and contribute to the ongoing quest for nationhood and nation-building. "In this book, our aim is to bring together a variety of perspectives from local and foreign academics who have been working on pressing issues in Kurdistan and beyond. The chapters focus on an array of themes, particularly including political participation, political situation and change, religiosity, and extremism. ... Taken together, the chapters provide us with an introduction to youth politics in Kurdistan. This book is just the first attempt to open academic and nonacademic debate on this subject at a time when protests around youth-related issues are becoming a more prevalent method of political engagement in the region. Our hope is that more research follows and supplements what has not been addressed in this book, especially through the introduction of first-hand youth perspectives to the core of this analysis and giving them a voice in nonviolent platforms."

Advancing Equality Jody Heymann 2020-01-14 In a world where basic human rights are under attack and discrimination is widespread, Advancing Equality reminds us of the critical role of constitutions in creating and protecting equal rights. Combining

a comparative analysis of equal rights in the constitutions of all 193 United Nations member countries with inspiring stories of activism and powerful court cases from around the globe, the book traces the trends in constitution drafting over the past half century and examines how stronger protections against discrimination have transformed lives. Looking at equal rights across gender, race and ethnicity, religion, sexual orientation and gender identity, disability, social class, and migration status, the authors uncover which groups are increasingly guaranteed equal rights in constitutions, whether or not these rights on paper have been translated into practice, and which nations lag behind. Serving as a comprehensive call to action for anyone who cares about their country's future, *Advancing Equality* challenges us to remember how far we all still must go for equal rights for all.

Media, Myth, and Millennials Loren Saxton Coleman 2019-09-13 This book debunks the post-racial myth among millennial media consumers and producers. Contributors examine the complex ways in which millennial media representations provide audiences with inauthentic understandings of race and how millennials are using social media to combat such misrepresentations.

Social Responsibility Ingrid Muenstermann 2018-07-11 With globalisation on the rise and capitalism expanding, social responsibility, corporate as well as individual social responsibility, plays an important part to save the natural environment and improve the lives of citizens. But how responsibly do corporations and ordinary citizens act in order to meet the demands of our fast-changing world? Authors from different universities contribute their knowledge on this open-access platform to be shared at a global level. This book starts off by contemplating whether the concept of world society could be an ice-breaker for a global shift in sociology (Wittmann); it critically assesses social responsibility of Spanish university students (Ramos), discusses professional social responsibility in engineering (Bielefeldt), looks at conflicts in Kenya's mining industry (Abuya) and evaluates the public healthcare system in Italy (Comite) and the corporate and consumer social responsibility in the Italian food industry (Boccia

A President's Daily Brief: Years 1-4 Micah Fisher-Kirshner

What was daily life under the Trump presidency really like?

An accessible ebook with short, thematic entries showing the corruption of the entire Trump presidency, *A President's Daily Brief, Year 1-4: The Day-by-Day Lurch of Trump's Norm-Breaking Presidency* is the full volume of Micah Fisher-Kirshner's series, representing the four years of Trump's time in power and the subversion that occurred. More than a compiled list of significant events that portray Trump as the most corrupt American president, this digestible and scannable read of in-the-moment posts pulled from news outlets and credible sources provides an intimate look at how the administration went about breaking the presidential norms on a daily basis. Readers also will have access to citations to fact-check claims.

This quick read on a Trump presidency that started off with outrage and graduated to righteous indignation is a must-have for those who enjoy history, politics, and government or simply want to read about the most notorious presidency in history.

Clarence Thomas Ann Byers 2019-07-15 How does a man born into rural poverty overcome prejudice, anger, and a brutal confirmation battle to become the second African American to serve on the highest court in the United States? This book uses sidebars, full-color photographs, and primary sources to explore the life and accomplishments of Justice Clarence Thomas. It highlights his reputation for verbal silence and written dissent, and dives into his judicial philosophy. It illustrates how his unique brand of originalism has impacted Supreme Court decisions involving key constitutional provisions and major issues, such as the possibility of overturning settled law. It delves into the perspectives of his colleagues on the court and his relationships with them. Several sidebars detail some of the inner workings of the Supreme Court. Readers will learn of its procedures and traditions, the role of law clerks, and the contrast between judicial activism and judicial restraint. This essential biography provides a comprehensive view of a man involved in one of the most influential branches of government today.

Beyond the Valley Ramesh Srinivasan 2019-10-29 How to repair the disconnect between designers and users, producers and consumers, and tech elites and the rest of us: toward a more democratic internet. In this provocative book, Ramesh Srinivasan describes the internet as both an enabler of frictionless efficiency and a dirty tangle of politics, economics, and other inefficient, inharmonious human activities. We may love the immediacy of Google search results, the convenience of buying from Amazon, and the elegance and power of our Apple devices, but it's a one-way, top-down process. We're not asked for our input, or our opinions—only for our data. The internet is brought to us by wealthy technologists in Silicon Valley and China. It's time, Srinivasan argues, that we think in terms beyond the Valley. Srinivasan focuses on the disconnection he sees between designers and users, producers and consumers, and tech elites and the rest of us. The recent Cambridge Analytica and Russian misinformation scandals exemplify the imbalance of a digital world that puts profits before inclusivity and democracy. In search of a more democratic internet, Srinivasan takes us to the mountains of Oaxaca, East and West Africa, China, Scandinavia, North America, and elsewhere, visiting the “design labs” of rural, low-income, and indigenous people around the world. He talks to a range of high-profile public figures—including Elizabeth Warren, David Axelrod, Eric Holder, Noam Chomsky, Lawrence Lessig, and the founders of Reddit, as well as community organizers, labor leaders, and human rights activists.. To make a better internet, Srinivasan says, we need a new ethic of diversity, openness, and inclusivity, empowering those now excluded from decisions about how technologies are designed, who profits from them, and who are surveilled and exploited by them.

Foreign Direct Investment in Latin America and the Caribbean 2019 United Nations 2019-10-01 This ECLAC annual report sets out and analyses the main foreign direct investment (FDI) trends in the countries of Latin America and the Caribbean. In the

region, FDI inflows were up (by 13.2%) year on year for the first time in five years, at US\$ 184.287 billion. This performance is explained by higher flows into just a few countries, however, mainly Brazil and Mexico. Moreover, it does not reflect equity investment, but higher inflows in the form of intercompany loans and, to a lesser extent, reinvestment of earnings. Manufactures and services were the sectors receiving most equity, although there was a slight rise in investment in natural resource sectors compared with 2018.

Securing Mega-Events Chad Whelan 2018-11-11 Mega-events such as the Olympic Games, World Cup finals and international political summits are occasions of almost unparalleled economic, political and social significance for host nations and cities. The scale and scope of mega-event security has continued to grow enormously since 11 September 2001, consistently involving the largest policing and security operations for event hosts outside of wartime. This book is the first to focus exclusively on the organisational dynamics underpinning the design and delivery of mega-event security. Using the G20 Summit in Brisbane, Australia in November 2014 as a case study, in conjunction with comparisons with events such as the Toronto 2010 G20, the authors engage in a comprehensive assessment of the networks, strategies and tensions involved in mega-event security. By drawing on the insightful experiences of those responsible for securing the Brisbane 2014 G20, the authors look behind-the-scenes to capture the complexity of mega-event security. The authors argue that such an approach is essential to better appreciate how different conceptions of security, ways of thinking and acting, impact a range of security ideals and outcomes.

Leading Millennial Faculty Michael G. Strawser 2019-05-09 This book explores how to effectively lead millennial faculty as they navigate the new professoriate. Contributors address some stereotypical millennial characteristics—being achievement oriented, connected to the world, relatively sheltered, and unaware of hierarchy—and how they create advantages and challenges in the higher education workplace.

World Class Teru Clavel 2020-10-06 “An upbeat chronicle of [Clavel’s] children’s school experiences in Hong Kong, Shanghai, and Tokyo...[offering] advice about vetting schools and enriching children’s education.” —Kirkus Reviews “An intriguing volume on the differences in global education.” —Library Journal A must-read firsthand exploration of why Asian students are outpacing their American counterparts and how to help our children excel in today’s competitive world. When Teru Clavel had young children, she watched her friends and fellow parents vie for spots in elite New York City schools. Instead of losing herself in the intensive applications and interview process, Teru and her family moved to Asia, embarking on a decade-long journey through the public schools of Hong Kong, Shanghai, and Tokyo. These schools were low-tech and bare-bones, with teachers who demanded obedience and order. In Hong Kong, her children’s school was nicknamed The Prison for its foreboding facilities, yet her three-year-old loved his teachers and his nightly homework. In Tokyo, the students were responsible for school chores, like preparing and serving school lunches. Yet Teru was amazed to discover that her children thrived in these academically competitive cultures; they learned to be independent, self-confident, resilient, and, above all, they developed a deep love of learning. When the family returned to the States, the true culture shock came when the top schools could no longer keep up with

her children. Written with warmth and humor, *World Class* is a compelling story about how to inspire children to thrive academically. “Studded with lists of useful tips about choosing schools and hiring tutors, for parents who must advocate for their children and supplement gaps in their educations” (Publishers Weekly) and an insightful guide to set your children on a path towards lifelong success.

Sharing News Online Fiona Martin 2019-07-16 This book explores the political economics and cultural politics of social media news sharing, investigating how it is changing journalism and the news media internationally. News sharing plays important economic and cultural roles in an attention economy, recommending the stories audiences find valuable, making them more visible, and promoting the digital platforms that are reshaping our media ecologies. But is news sharing a force for democracy, or a sign of journalism’s declining power to set news agendas? In *Sharing News Online*, Tim Dwyer and Fiona Martin analyse the growth of commentary culture and the business of social news, critique the rise of news analytics and dissect virality online. They reveal that surprisingly, we share political stories more highly than celebrity news, and they probe how deeply affect drives our sharing behaviour. In mapping the contours of a critical digital media phenomenon, this book makes essential reading for scholars, journalists and media executives.

Handbook of Research on Software for Gifted and Talented School Activities in K-12 Classrooms Ikuta, Shigeru 2019-12-27 As technology continues to play a pivotal role in society, education is a field that has become heavily influenced by these advancements. New learning methods are rapidly emerging and being implemented into classrooms across the world using software that is low cost and easy to handle. These tools are crucial in creating skillful learning techniques in classrooms, yet there is a lack of information and research on the subject. The *Handbook of Research on Software for Gifted and Talented School Activities in K-12 Classrooms* is an essential reference source that discusses newly developed but easy-to-handle and less costly software and tools and their implementation in real 21st-century classrooms worldwide. The book also helps and supports teachers to conduct gifted and talented school activities in K-12 classrooms. Featuring research on topics such as educational philosophy and skillful learning techniques, this book is ideally designed for software developers, educators, researchers, psychologists, instructional designers, curriculum developers, principals, academicians, and students seeking coverage on the emerging role that newly developed software plays in early education.

Strategic Social Media Management Karen E. Sutherland 2020-12-21 This textbook provides a lively introduction to the fast-paced and multi-faceted discipline of social media management with international examples and perspectives. Aside from focusing on practical application of marketing strategy, the textbook also takes students through the process of strategy development, ethical and accurate content curation, and strategy implementation, through detailed explanations of content creation. Combining theory and practice, *Strategic Social Media Management* teaches students how to take a strategic approach to social media from an organisational and business perspective, and how to measure results. Richly supported by robust and

engaging pedagogy and cases in each chapter, it integrates perspectives from public relations, marketing and advertising, and examines key topics such as risk, ethics, privacy, consent, copyright issues, and crises management. It also provides dedicated coverage of content strategy and campaign planning and execution. Reflecting the demands of contemporary practice, advice on self-care for social media management is also offered, helping to protect people in this emerging profession from the negativity that they can experience online when managing an organisation's social media presence. After reading this textbook, students will be able to develop a social media strategy, curate accurate and relevant content, and create engaging social media content that tells compelling stories, connects with target audiences and supports strategic goals and objectives. This is an ideal textbook for students studying social media strategy, marketing and management at undergraduate level. It will also be essential reading for marketing, public relations, advertising and communications professionals looking to hone their social media skills and strategies.

Leadership and the Rise of Great Powers Yan Xuetong 2020-12-22 A leading foreign policy thinker uses Chinese political theory to explain why some powers rise as others decline and what this means for the international order Why has China grown increasingly important in the world arena while lagging behind the United States and its allies across certain sectors? Using the lens of classical Chinese political theory, Leadership and the Rise of Great Powers explains China's expanding influence by presenting a moral-realist theory that attributes the rise and fall of great powers to political leadership. Yan Xuetong shows that the stronger a rising state's political leadership, the more likely it is to displace a prevailing state in the international system. Yan shows how rising states like China transform the international order by reshaping power distribution and norms, and he considers America's relative decline in international stature even as its economy, education system, military, political institutions, and technology hold steady. Leadership and the Rise of Great Powers offers a provocative, alternative perspective on the changing dominance of states.

Incarceration Erin L. McCoy 2019-07-15 For as long as prisons have existed, people have asked what role they should play in our society. Should they be solely dedicated to punishing those who have broken the law, or do they also have a role to play in the rehabilitation of criminals, so they can contribute more productively when they return to society? This book looks at prison conditions and the American criminal justice system to help readers gain a deeper understanding of how prisoners are treated, while weighing what some argue are necessary changes to today's prisons. Sidebars, a glossary, and full-color photographs aid students in more fully comprehending the many sides of this ongoing debate.

Censored 2019 Mickey Huff 2018-10-02 "For more than forty years, Project Censored has been our watchdog on the establishment media, casting its eye on how the information that we receive—and don't receive—shapes our democracy. We need it more than ever today!" —Christopher Finan, Executive Director, National Coalition Against Censorship (NCAC) THESE ARE JUST A FEW OF THE STORIES PRESENTED IN CENSORED 2019: --"Open-Source" Intelligence Secrets Sold to Highest Bidders --ICE Intends to Destroy Records of Inhumane Treatment of Immigrants --Indigenous Communities around World

Helping to Win Legal Rights of Nature --FBI Racially Profiling “Black Identity Extremists” --The Limits of Negative News and Importance of Constructive Media DID YOU KNOW THAT SINCE 1998 THE US GOVERNMENT SPENT \$21 TRILLION IT CAN'T ACCOUNT FOR? Or that Internet co-ops are mobilizing poor communities to resist net neutrality rollbacks? How about the health risks of wireless tech that cell phone companies have covered up, or the opiate crisis that Big Pharma knowingly unleashed? Haven't heard the news? Neither did the rest of the world. That's because these and countless other news items are suppressed or ignored by our nation's “free press” every day. For the past forty-three years, Project Censored has been unearthing the buried stories that corporate media deem unfit to print—and debunking the “fake news” governments and corporations use to consolidate their power—to promote well-informed citizen action and critical media literacy. This year's Project Censored yearbook features: -- “Vetting Free Speech” by Sally Gimson, Layli Feroz, and Sean Gallagher -- “#TimesUp: Breaking the Barriers of Sexual Harassment in Corporate Media for You and #MeToo” by Julie Frechette -- “Data Activism through Community Mapping and Data Visualization” by Dorothy Kidd -- “How Mainstream Media Evolved into Corporate Media” by Peter Phillips -- “Campus–Newsroom Collaborations” by Patricia W. Elliott -- “The Public and Its Problems” by Susan Maret Plus Junk Food News, News Abuse, and Media Democracy in Action. In a time of decline in the rule of law and democratic safeguards, Project Censored offers a constructive alternative to the “fake news” blues, holding the corporate media to account for its negative bias, propaganda for wealth and power, and outright censorship.

Babylost Monica J. Casper 2022-03-18 The U.S. infant mortality rate is among the highest in the industrialized world, and Black babies are far more likely than white babies to die in their first year of life. Maternal mortality rates are also very high. Though the infant mortality rate overall has improved over the past century with public health interventions, racial disparities have not. Racism, poverty, lack of access to health care, and other causes of death have been identified, but not yet adequately addressed. The tragedy is twofold: it is undoubtedly tragic that babies die in their first year of life, and it is both tragic and unacceptable that most of these deaths are preventable. Despite the urgency of the problem, there has been little public discussion of infant loss. The question this book takes up is not why babies die; we already have many answers to this question. It is, rather, who cares that babies, mostly but not only Black and Native American babies, are dying before their first birthdays? More importantly, what are we willing to do about it? This book tracks social and cultural dimensions of infant death through 58 alphabetical entries, from Absence to ZIP Code. It centers women's loss and grief, while also drawing attention to dimensions of infant death not often examined. It is simultaneously a sociological study of infant death, an archive of loss and grief, and a clarion call for social change.

Industrial Control Systems Security and Resiliency Craig Rieger 2019-08-29 This book provides a comprehensive overview of the key concerns as well as research challenges in designing secure and resilient Industrial Control Systems (ICS). It will discuss today's state of the art security architectures and couple it with near and long term research needs that compare to the baseline.

It will also establish all discussions to generic reference architecture for ICS that reflects and protects high consequence scenarios. Significant strides have been made in making industrial control systems secure. However, increasing connectivity of ICS systems with commodity IT devices and significant human interaction of ICS systems during its operation regularly introduces newer threats to these systems resulting in ICS security defenses always playing catch-up. There is an emerging consensus that it is very important for ICS missions to survive cyber-attacks as well as failures and continue to maintain a certain level and quality of service. Such resilient ICS design requires one to be proactive in understanding and reasoning about evolving threats to ICS components, their potential effects on the ICS mission's survivability goals, and identify ways to design secure resilient ICS systems. This book targets primarily educators and researchers working in the area of ICS and Supervisory Control And Data Acquisition (SCADA) systems security and resiliency. Practitioners responsible for security deployment, management and governance in ICS and SCADA systems would also find this book useful. Graduate students will find this book to be a good starting point for research in this area and a reference source.

Law Enforcement and Public Health Isabelle Bartkowiak-Théron 2022 The expanding remit of policing as a fundamental part of the public health continuum is increasingly acknowledged on the international scene. Similarly the growing role of health professionals as brokers of public safety means that the need for scholarly resources for developing knowledge and broadening theoretical positioning and questioning is becoming urgent and crucial. The fields of law enforcement and public health are beginning to understand the inextricable links between public safety and public health and the need to shift policies and practices towards more integrated practices. This book comes as a first, an utterly timely scholarly collection that brings together the views of multidisciplinary commentators on a wide range of issues and disciplines within the law enforcement and public health (LEPH) arena. The book addresses the more conceptual aspects of the relationship as well as more applied fields of collaboration, and the authors describe and analyze a range of service delivery examples taken from real-life instances of partnerships in action. Among the topics covered: Defund, Dismantle or Define Law Enforcement, Public Health, and Vulnerability Law Enforcement and Mental Health: The Missing Middle The Challenges of Sustaining Partnerships and the Diversification of Cultures Using Public Health Concepts and Metrics to Guide Policing Strategy and Practice Policing Pandemics Law Enforcement and Public Health: Partners for Community Safety and Wellbeing is essential reading for a wide array of professions and areas of expertise in the intersectoral field of LEPH. It is an indispensable resource for public health and law enforcement specialists (practitioners, educators, scholars, and researchers) and training programs across the world, as well as individuals interested in developing their knowledge and capacity to respond to complex LEPH issues in the field, including public prosecutors, coroners, and the judiciary. The text also can be used for undergraduate and postgraduate university policing, criminology, sociology, psychology, social work, public health, and medicine programs.

Malaysian Politics in the New Media Age Pauline Pooi Yin Leong 2019-08-21 This book provides a comprehensive overview of the impact of the Internet on Malaysian politics and how it has played a pivotal role in influencing the country's political climate. It

lays out the background of Malaysia's political history and media environment, and addresses the ramifications of media-isation for the political process, including political public relations, advertising and online campaigns. The book examines the Internet's transformative role and effect on Malaysian democracy, as well as its consequences for political actors and the citizenry, such as the development of cyber-warfare, and the rise of propaganda or "fake" news in the online domain. It also investigates the interplay between traditional and new media with regard to the evolution of politics in Malaysia, especially as a watchdog on accountability and transparency, and contributes to the current discourse on the climate of Malaysian politics following the rise of new media in the country. This book is particularly timely in the wake of the 2018 Malaysian general election, and will be of interest to students and researchers in communications, politics, new media and cultural studies.

Educational Justice Michael S. Merry 2019-12-20 This book examines the philosophical, motivational, and practical challenges of education theory, policy, and practice in the twenty-first century. There is a loud and persistent drum beat of support for schools, for citizenship, for diversity and inclusion, and increasingly for labor market readiness with very little critical attention to the assumptions underlying these agendas, let alone to their many internal contradictions. Merry does not neglect the historical, comparative international context so essential to better understanding where we are, as well as what is attainable in terms of educational justice. He argues that we must constructively critique some of our most cherished beliefs about education if we are to save the hope of real justice from the rhetoric of imagined justice.

John Beilein at Michigan Tim Rooney 2020-01-29 When John Beilein arrived at University of Michigan in 2007, the once-proud men's basketball program was adrift after failing to reach the NCAA Tournament for nine straight seasons. Over the next twelve years, he became the program's all-time winningest coach, reached two national championship games, won four Big Ten championships and produced eight NBA first-round draft picks. In an age of ethical lapses throughout college basketball, Beilein succeeded without a hint of impropriety. As much a teacher as a coach, he consistently identified undervalued recruits, taught them his innovative offensive system and carefully developed them into better players--an approach to the game that drove his unprecedented rise from high school junior varsity coach to head coach of the Cleveland Cavaliers. This book examines his tenure at Michigan in detail for the first time.

Football in the Middle East Abdullah Al-Arian 2022-09-01 Far and away the most popular sport in the world, football has a special place in Middle Eastern societies, and for Middle Eastern states. With Qatar hosting the 2022 FIFA World Cup, this region has been cast into the global footballing spotlight, raising issues of geopolitical competition, consumer culture and social justice. Taking an interdisciplinary approach, this book examines the complex questions raised by the phenomenon of football as a significant cultural force in the Middle East, as well as its linkages to broader political and socioeconomic processes. The establishment of football as a national sport offers significant insight into the region's historical experiences with colonialism and struggles for independence, as well as the sport's vital role in local and regional politics today-whether at the forefront of popular mobilizations, or as an instrument of authoritarian control. Football has also served as an arena of contestation in the formation

of national identity, the struggle for gender equality, and the development of the media landscape. The twelve contributions to this volume draw on extensive engagement with the existing body of literature, and introduce original research questions that promise to open new directions for the study of football in the Middle East.

Overtourism Rachel Dodds 2019-05-06 Overtourism has become a major concern for an increasing number of destinations as tourism numbers continue to grow, stimulated by general economic and technological growth and the expansion of the global middle class. This, coupled with relentless promotion of tourism by many organisations and destinations, has increased tourism, despite growing opposition to excessive development. This book is the first academic volume to deal with this topic and contains chapters by experienced researchers in the tourism field, taking a multidisciplinary approach to review and explain the subject. The introductory section begins with an overview of the current situation and the forces enabling the appearance of overtourism. This is followed by a number of case studies from a range of destinations around the world, both urban and rural, which share the same problems. The concluding section includes a discussion of potential mitigation methods and approaches and a final assessment of future developments. The focus and relevance of this book are not just for academics, as it offers insights into destinations, enablers and solutions for how to address the issue of overtourism on a wide variety of scales. This book offers globally relevant perspectives on destinations as varied as Venice and Barcelona, that have gained global media attention, as well as less publicised rural areas and developing destinations.

The Digital Age and Its Discontents Matteo Stocchetti 2020-08-11 Three decades into the 'digital age', the promises of emancipation of the digital 'revolution' in education are still unfulfilled. Furthermore, digitalization seems to generate new and unexpected challenges – for example, the unwarranted influence of digital monopolies, the radicalization of political communication, and the facilitation of mass surveillance, to name a few. This volume is a study of the downsides of digitalization and the re-organization of the social world that seems to be associated with it. In a critical perspective, technological development is not a natural but a social process: not autonomous from but very much dependent upon the interplay of forces and institutions in society. While influential forces seek to establish the idea that the practices of formal education should conform to technological change, here we support the view that education can challenge the capitalist appropriation of digital technology and, therefore, the nature and direction of change associated with it. This volume offers its readers intellectual prerequisites for critical engagement. It addresses themes such as Facebook's response to its democratic discontents, the pedagogical implications of algorithmic knowledge and quantified self, as well as the impact of digitalization on academic profession. Finally, the book offers some elements to develop a vision of the role of education: what should be done in education to address the concerns that new communication technologies seem to pose more risks than opportunities for freedom and democracy.

Spygate Dan Bongino 2018-10-09 Everyone has an opinion about whether or not Donald Trump colluded with the Russians to defeat Hillary Clinton in 2016. The number of actors involved is staggering, the events are complicated, and it's hard to know who or what to believe. Spygate bypasses opinion and brings facts together to expose the greatest political scandal in American

history. Former Secret Service agent and NYPD police officer Dan Bongino joins forces with journalist D.C. McAllister to clear away fake news and show you how Trump's political opponents, both foreign and domestic, tried to sabotage his campaign and delegitimize his presidency. By following the names and connections of significant actors, the authors reveal:

- Why the Obama administration sent a spy connected to the Deep State into the Trump campaign
- How Russians were connected to the opposition research firm hired by the Clinton campaign to find dirt on Trump
- How the FBI failed to examine DNC computers after they were hacked, relying instead on the findings of a private company connected to the DNC and the Obama administration
- Why British intelligence played a role in building the collusion narrative
- What role Ukrainians played in legitimizing the perception that Trump was conspiring with the Russians
- How foreign players in the two events that kickstarted the Trump-Russia collusion investigation were connected to the Clinton Foundation, and
- What motivated the major actors who sought to frame the Trump campaign and secure a win for Hillary Clinton

Cold War in the Islamic World Dilip Hiro 2019-02-01 For four decades Saudi Arabia and Iran have vied for influence in the Muslim world. At the heart of this ongoing Cold War between Riyadh and Tehran lie the Sunni-Shia divide, and the two countries' intertwined histories. Saudis see this as a conflict between Sunni and Shia; Iran's ruling clerics view it as one between their own Islamic Republic and an illegitimate monarchy. This foundational schism has played out in a geopolitical competition for dominance in the region: Iran has expanded its influence in Syria, Iraq and Lebanon, while Saudi Arabia's hyperactive crown prince, Muhammad bin Salman, has intervened in Yemen, isolated Qatar and destabilized Lebanon. Dilip Hiro examines the toxic rivalry between the two countries, tracing its roots and asking whether this Islamic Cold War is likely to end any time soon.

Extracting Honduras James J. Phillips 2022 This book explores the deeper causes of recent massive emigrations from Honduras, tracing the roots to the neoliberal extractive development model that has created conditions of poverty, corruption, and violence for over a generation in the context of the colonial (or imperial) relationship of Honduras to the United States.

Water Security Under Climate Change Asit K. Biswas 2021-10-27 This book highlights the likely impacts of climate change in terms of global and national water securities, how different countries are attempting to address these complex problems and to what extent they are likely to succeed. A major global concern at present, especially after the social and economic havoc that has been caused by COVID-19 in only one year, is how we can return to earlier levels of economic development patterns and then further improve the process so that sustainable development goals are reached to the extent possible by 2030, in both developed and developing countries. Mankind is now facing two existential problems over the next several decades. These are climate change and whether the world will have access to enough water to meet all its food, energy, environment and health needs. Much of expected climate change impacts can be seen through the lens of extreme hydrological events, like droughts, floods and other extreme hydrometeorological events. New Developments in the Brewing Industry Erik Strøjer Madsen 2020-05-14 Institutions and ownership play a central role in the transformation and development of the beer market and brewing industry. Institutions set the external environment of the brewery through both formal requirements and informal acceptance of company operations by the public. On the other hand, owners and managers adapt to these external challenges while following their own strategic agenda. This book explores the implications of this dynamic for the breweries, discussing how changes in institutions have contributed to the restructuring of the industry and the ways in which breweries have responded, including a craft beer revolution with a surge in demand of special flowered hops, a globalization strategy from the macro breweries, outsourcing by contract brewing, and knowledge exchange for small sized breweries. Structured in two parts, with a focus on institutions (Part I) and ownership (Part II) respectively, this book examines the link between institutions and governance in one of the most dynamic and innovative industries.

A President's Daily Brief: Year 2 Micah Fisher-Kirshner

What was daily life under the Trump presidency really like?

An accessible ebook with short, thematic entries showing the corruption of the Trump presidency, *A President's Daily Brief, Year 2: The Day-by-Day Lurch of Trump's Norm-Breaking Presidency* is the second in Micah Fisher-Kirshner's series, representing the second year of Trump's time in power and the subversion that occurred. More than a compiled list of significant events that portray Trump as the most corrupt American president, this digestible and scannable read of in-the-moment posts pulled from news outlets and credible sources provides an intimate look at how the administration went about breaking the presidential norms on a daily basis. Readers also will have access to citations to fact-check claims.

This quick read on a Trump presidency that started off with outrage and graduated to righteous indignation is a must-have for those who enjoy history, politics, and government or simply want to read about the most notorious presidency in history.

Beyond History Elijah Nyaga Munyi 2020-08-27 Moving beyond a self-indulgent attitude about Africa's historical victimhood, the book seeks to capture how African states individually and Africa's collective institutions (the AU) are providing agency in Africa's international relations. While African states have been trailblazers in such ideas as 'The Responsibility to Protect', as conceived in the African Union Constitutive Act (2001) which preceded the United Nations (UN) Secretary General's report "In Larger Freedom" (2005) in which the UN adopted the concept, African agency in international relations has not always been captured proactively. This volume seeks to document Africa (and African states) in a state of proactivity as opposed to a reactionary mode of international relations which has long been the case due to the discipline's heavy concentration on the West. The main themes

explored are: African agency in international relations and commerce, agency in Africa's balancing of big and regional powers, reshaping Africa-EU relations beyond the Cotonou Agreements, Africa and international human rights institutions, African efforts in elections and conflicts in Africa and relationship building among African leaders.

Undesirable Immigrants Andrew S. Rosenberg 2022-08-09 How the racist legacy of colonialism shapes global migration The Immigration and Nationality Act of 1965 officially ended the explicit prejudice in American immigration policy that began with the 1790 restriction on naturalization to free White persons of "good character." By the 1980s, the rest of the Anglo-European world had followed suit, purging discriminatory language from their immigration laws and achieving what many believe to be a colorblind international system. *Undesirable Immigrants* challenges this notion, revealing how racial inequality persists in global migration despite the end of formally racist laws. In this eye-opening book, Andrew Rosenberg argues that while today's leaders claim that their policies are objective and seek only to restrict obviously dangerous migrants, these policies are still correlated with race. He traces how colonialism and White supremacy catalyzed violence and sabotaged institutions around the world, and how this historical legacy has produced migrants that the former imperial powers and their allies now deem unfit to enter. Rosenberg shows how postcolonial states remain embedded in a Western culture that requires them to continuously perform their statehood, and how the closing and policing of international borders has become an important symbol of sovereignty, one that imposes harsher restrictions on non-White migrants. Drawing on a wealth of original quantitative evidence, *Undesirable Immigrants* demonstrates that we cannot address the challenges of international migration without coming to terms with the brutal history of colonialism.

Understanding Urban Politics Timothy B. Krebs 2020 In *Understanding Urban Politics: Institutions, Representation, and Policies*, Timothy B. Krebs and Arnold Fleischmann introduce a framework that focuses on the role of institutions in establishing the political "rules of the game," the representativeness of city government, the influence of participation in local democracy, and how each of these features influences the adoption and implementation of public policies. Part 1 lays the groundwork for the rest of the book by exploring the many meanings of "urban," analyzing what local governments do, and providing a history of American urban development. Part 2 examines the organizations and procedures that are central to urban politics and policy making: intergovernmental relations, local legislatures, and the local executive branch. Part 3 looks at elections and voting, local campaigns, and non-voting forms of participation. The four chapters in Part 4 focus on the policy process and the delivery of local services, local government finances, "Building the City" (economic development, land use, and housing), and policies affecting the quality of life (public safety, the environment, "morality" issues, and urban amenities). Krebs and Fleischmann bolster students' learning and skills with guiding questions at the start of each chapter, which ends with key terms, a summary, discussion questions, and research exercises. The appendix and website aid these efforts, as does a website for instructors.
