

News/2018 10 09

Getting the books news/2018 10 09 now is not type of challenging means. You could not lonely going in the same way as book gathering or library or borrowing from your connections to entrance them. This is an utterly simple means to specifically get guide by on-line. This online revelation news/2018 10 09 can be one of the options to accompany you subsequent to having new time.

It will not waste your time. put up with me, the e-book will extremely tell you supplementary thing to read. Just invest little grow old to log on this on-line broadcast news/2018 10 09 as without difficulty as review them wherever you are now.

Stand on Guard Stephanie Carvin 2021-05 Stand on Guard provides a nuanced explanation of Canadian national security threats such as violent extremism, espionage, and clandestine foreign influence, emphasizing trust and empathy in developing national security policies to counter them.

MKTG Charles W. Lamb 2020-04-20 MKTG from 4LTR Press connects students to the principles of marketing—bringing them to life through timely examples showing how they're applied at the world's top companies every day. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Bouvier Affair Alexandra Bregman 2019-04-11 When Russian oligarch Dmitry Rybolovlev realized he was being cheated by his art advisor Yves Bouvier, he was immediately on the warpath for fraud. From Switzerland to Monaco, 37 masterpiece artworks were caught in the middle of complicated money laundering and bribery accusations, where no one was quite who they seemed.

China's Maritime Silk Road Initiative and Southeast Asia Jean-Marc F. Blanchard 2019-11-29 This book delves into the political-economy of China's Maritime Silk Road Initiative (MSRI), part of the larger Belt and Road Initiative (BRI), with a focus on Southeast Asia (SEA). It represents the second in a three-part book series on China's MSRI. It discusses the state of the MSRI in various SEA countries such as Indonesia and Myanmar, highlights the international and domestic economic and political factors that shape individual SEA country's embrace of China's scheme, and examines the effects of China's MSRI in individual SEA countries such as Cambodia and Malaysia. It also contemplates the role of third parties such as India and the United States on the behaviors of SEA countries and the implementation of the MSRI. It shows the MSRI is neither a boon nor bust and that

the MSRI's progress and effects are contingent on many factors requiring attention by those wanting to understand China's mega initiative.

The Nexus Between Organized Crime and Terrorism Paoli, Letizia 2022-02-18 In the post-9/11 era, the nexus between organized crime and terrorism has raised much concern and has been widely discussed in both academic and policy circles, but is still largely misunderstood. This critical book contributes innovatively to the debate by distinguishing three types of nexus—interaction, transformation/imitation and similarities—and identifying the promoting factors of each type.

Adventures in the Chinese Economy: 16 Years from the Inside Sven Agten 2021-05-04 This book provides an insightful overview of the social-economical trends in modern China, their global influence, and the disrupting consequences for businesses and countries all over the world. It is a fresh look at the business conditions that Western firms face in China, poised to become the world's largest and most dynamic economy. Using a vast array facts and data, combined with personal stories and experiences, Mr. Agten provides an accessible and entertaining glimpse at Chinese megatrends, such as the development of the middle class, innovation and upskilling, digitalization of Chinese society, rising labor costs and more. This book is a must-read for entrepreneurs, executives and economists seeking to understand the Chinese market.

The Origins of Inequality Per Molander 2022 This book presents a unified approach to the problem of inequality, combining results from a variety of research fields the human life cycle, group dynamics, networks, markets, and economic geography. Its main message is that inequality emerges as the natural result of mechanisms operating both in individual human development and in social interaction. It posits that inequality is not an anomalous deviation from a naturally egalitarian social structure; quite to the contrary, inequality is to be expected as part of the human condition. The author states that the growth of inequality, on the other hand, is not a natural law the level and character of inequality can be affected by collective decisions. This perspective on human inequality has potentially far-reaching consequences both for the political philosophy of inequality and for public policy-making. This book is of interest to a wide interdisciplinary social science readership, including public policy, decision sciences, economic geography, and life course studies. .

Academic Integrity in Canada Sarah Elaine Eaton 2022-03-03 This open access book presents original contributions and thought leadership on academic integrity from a variety of Canadian scholars. It showcases how our understanding and support for academic integrity have progressed, while pointing out areas urgently requiring more attention. Firmly grounded in the scholarly literature globally, it engages with the experience of local practitioners. It presents aspects of academic integrity that is specific to Canada, such as the existence of an "honour culture", rather than relying on an "honour code". It also includes Indigenous voices and perspectives that challenge traditional understandings of intellectual property, as well as new understandings that have arisen as a consequence of Covid-19 and the significant shift to online and remote learning. This book will be of interest to senior university and college administrators who are interested in ensuring the integrity of their institutions. It will also be of

interest to those implementing university and college policy, as well as those who support students in their scholarly work.

100% Renewable Energy Transition Claudia Kemfert 2020-01-23 Energy markets are already undergoing considerable transitions to accommodate new (renewable) energy forms, new (decentral) energy players, and new system requirements, e.g. flexibility and resilience. Traditional energy markets for fossil fuels are therefore under pressure, while not-yet-mature (renewable) energy markets are emerging. As a consequence, investments in large-scale and capital intensive (traditional) energy production projects are surrounded by high uncertainty, and are difficult to hedge by private entities. Traditional energy production companies are transforming into energy service suppliers and companies aggregating numerous potential market players are emerging, while regulation and system management are playing an increasing role. To address these increasing uncertainties and complexities, economic analysis, forecasting, modeling and investment assessment require fresh approaches and views. Novel research is thus required to simulate multiple actor interplays and idiosyncratic behavior. The required approaches cannot deal only with energy supply, but need to include active demand and cover systemic aspects. Energy market transitions challenge policy-making. Market coordination failure, the removal of barriers hindering restructuring and the combination of market signals with command-and-control policy measures are some of the new aims of policies. The aim of this Special Issue is to collect research papers that address the above issues using novel methods from any adequate perspective, including economic analysis, modeling of systems, behavioral forecasting, and policy assessment. The issue will include, but is not be limited to:

- Local control schemes and algorithms for distributed generation systems
- Centralized and decentralized sustainable energy management strategies
- Communication architectures, protocols and properties of practical applications
- Topologies of distributed generation systems improving flexibility, efficiency and power quality
- Practical issues in the control design and implementation of distributed generation systems
- Energy transition studies for optimized pathway options aiming for high levels of sustainability

Wrecked Barrett J. Taylor 2022-08-12 Higher education is a central institution in U.S. democracy. In the 2010s, however, many states that spent previous decades building up their higher education systems began to tear them down. Growing hostility toward higher education reflected changing social forces that remade the politics of U.S. higher education. The political Right became increasingly reliant on angry white voters as higher education became more racially diverse. The Republican party became more closely connected to extremely wealthy donors as higher education became more costly. In *Wrecked*, Barrett J. Taylor shows how these social changes set a collision course for the Right and higher education. These attacks fed a policy agenda of deinstitutionalization, which encompassed stark divestment from higher education but was primarily characterized by an attack on the institution's social foundation of public trust. In response to these attacks, higher education officials have offered a series of partial defenses that helped higher education to cope in the short-term but did nothing to defend the institution itself against the long-term threat of declining public trust. The failure to address underlying issues of mistrust allowed conflict to escalate to the point at which many states are now wrecking their public higher education systems. *Wrecked* offers a unique and compelling

perspective linking higher education policymaking to broader social and political forces acting in the twenty-first century.

Youth Participatory Arts, Learning and Social Transformation Peter Wright 2021-03-29 This book provides a unique insiders account of Big hART, one of Australia's leading participatory arts organisations. Drawing on the experiences of young people, elders, artists and community activists it maps a series of cultural learnings, transformation and social change

China's Achilles' Heel Srikanth Thaliyakkattil 2019-06-24 This book analyses Chinese discourse on Indian attitudes towards the Belt & Road Initiative (BRI), and argues that the Indian discourse is becoming one of the biggest hurdles to China creating its own narrative about China's rise in Asia and beyond. In doing so, it spans across the themes of the power struggle between China and US, China and India, the Chinese perception of India, China-South Asia relations, the China-US- India strategic triangle and the success and failures of BRI. The first part of the book focuses on the Chinese thinking behind the launch of the BRI and addresses questions related to the purpose of this initiative and ways in which it will facilitate China's rise as a superpower. Subsequently the book addresses how effective or ineffective India's challenge is and how it is negatively affecting China's BRI.

Dilemmas of Human Rights and Security in Asia Christoph Bluth 2022-07-20 Liberal democratic states have been dealing with major refugee flows. The migration of large numbers of people to Europe and North America has multiple causes which include regional conflicts, the consequences of global warming, political opposition to autocratic regimes and societal inequalities which involve the exploitation of people, trafficking and human slavery This study provides background information on the factors that drive refugees flows from Asia, including the general security situation, political repression and transnational criminal activity. It is a resource for volunteers and professionals involved in supporting refugees and victims of human slavery.

Indian Business Case Studies Volume VI S. B. Mathur 2022-09-15 It has been decades since many business schools outside India adopted the case study methodology for teaching almost all branches of management studies. This trend has been seen in India, too, where top management institutes have implemented the case study-based methodology as an important pedagogical tool in business education. The major issue in India, however, is a severe shortage of Indian case studies through which business schools can provide industry insights to students. This volume fills that gap. It has twenty Indian cases related to different aspects of business management. The cases cover some of the prominent disciplines of management like marketing, finance, human resource management, strategy management, operations management, accounting, and mergers and acquisitions. These cases best serve the purpose of adoption of 'case methodology' in classroom teaching or online lecture sessions for the faculty and students of business management.

Addressing Modern Slavery Justine Nolan 2019-09-01 An estimated 40 million people are modern-day slaves, more than ever before in human history. Long after slavery was officially abolished, the practice not only continues but thrives. Whether they are women in electronics or apparel sweatshops, children in brick kilns or on cocoa farms, or men trapped in bonded labour working on construction sites, millions of people globally are forced to perform labour through coercion, intimidation or deceit. In a world

of growing inequality and trade-offs between the haves and the have-nots, consumers, business and government are all part of the problem and the solution. While we have all become accustomed to fast fashion and cheap consumer goods, the affordability of these commodities often comes at the price of human exploitation. Addressing Modern Slavery examines slavery in the modern world and outlines ways it can be stopped. 'Addressing Modern Slavery is essential reading for anyone committed to understanding and tackling the scourge of modern slavery in contemporary businesses and supply chains.' — Fiona McGaughey, University of Western Australia 'Justine Nolan and Martijn Boersma have expertly confronted the tragic reality of modern slavery and show us how exploited men, women and children are harmed in global supply chains. A slave may be far away or in our immediate neighbourhood. The book is based on years of careful research and outlines steps we can all take to respond to modern slavery.' — Jennifer Burn, Professor, NSW Interim Anti-Slavery Commissioner 'This is a hugely impressive book which builds a compelling argument as to why all organisations must work towards the elimination of modern slavery' — David Cooke, Managing Director, Konica Minolta 'The book should be a valuable resource for policymakers, business executives and civil society organisations alike, for it not only assesses the efficacy of existing regulatory initiatives and business practices, but also outlines what needs to change to eliminate modern slavery.' — Surya Deva, City University of Hong Kong 'This book exposes both the need and the opportunities to drive reform on modern slavery, particularly on forced labor. From case studies around business practices to examples grounded in the lived experiences of workers, Addressing Modern Slavery presents a comprehensive overview of the issue and empowers us all with the information we need to act.' — Amol Mehra, Managing Director, Freedom Fund 'Addressing Modern Slavery shines a light on the terrible human cost of our insatiable consumption. Pervasive labour exploitation is all too often forgotten in our emphasis on growth and GDP. This book is both a wake-up call and a powerful demonstration of how connectivity and collaboration can help us eradicate a systemic and urgent challenge.' — Kumi Naidoo, Secretary General, Amnesty International

Academic Leadership and Governance of Higher Education James T. Harris 2022-03-29 Winner of the 2012 ASHE/CAHEP Barbara Townsend Lecture Award To prosper and thrive in an increasingly unpredictable national and global environment, U.S. higher education will need to adapt, innovate, and evolve once again, as it has during every major societal change over the past four centuries. The purpose of this new edition, published a turbulent decade after the first, is to provide institutional leaders -- from department chairs to trustees -- with a broad understanding of the academic enterprise, strategic guidance, and key principles, to assist them in navigating the future and drive the success of their institutions as they confront the unimagined. Recognizing that the hallmark of higher education in the U.S. is the diversity of institution types, each of which is affected differently by external and internal influences, the authors provide examples and ideas drawn from the spectrum of colleges and universities in the not-for-profit sector. This book covers the major functions and constituent departments and units within institutions; the stakeholders from students and faculty through the echelons of administration; the external environment of elected officials, foundations, philanthropists, and the new changing media; and innovations in teaching, technology, data

analytics, legal frameworks, as well as economic, demographic, and political pressures. The book is informed by the proposition that adhering to four principles--which the authors identify as having enabled institutions of higher education to successfully navigate ever-changing and volatile pasts--will enable them to flourish in the coming decades: The four principles are: 1. Be mission centric by making all key decisions based on a core mission and set of values. 2. Be able to adapt to environmental change in alignment with the mission and core values. 3. Be committed to democratic ideals by seeking to promote them and modeling democratic practices on and off campus. 4. Be models for inclusion, equity, and positive social change.

Super Mad at Everything All the Time Alison Dagnes 2019-03-11 Super Mad at Everything All the Time explores the polarization of American politics through the collapse of the space between politics and culture, as bolstered by omnipresent media. It seeks to explain this perfect storm of money, technology, and partisanship that has created two entirely separate news spheres: a small, enclosed circle for the right wing and a sprawling expanse for everyone else. This leads to two sets of facts, two narratives, and two loudly divergent political sides with extraordinary anger all around. Based on extensive interviews with leading media figures and politicians, this book traces the development of the media machine, giving suggestions on how to restore our national dialogue while defending our right to disagree agreeably.

The New Female Antihero Sarah Hagelin 2022 "The last ten years have presented television viewers with a host of female characters the likes of which we've never seen before. Selfish, vengeful, and often deeply unlikeable, they fly in the face of our expectations for women. In The New Female Antihero, Sarah Hagelin and Gillian Silverman probe the stories of female protagonists who eschew aspirations for a career, marriage, and children, swerving instead toward utter apathy, at one end of the spectrum, or unadulterated power at the other. From the bloodthirsty queens of Game of Thrones, The Americans, Scandal, and Homeland to the shrugging failures of Girls, Broad City, Insecure, and SMILF, female antiheroes register a deep ambivalence about the promises of liberal feminism in contemporary America. As Hagelin and Silverman show, their narratives of ruthlessness, insanity, hedonism, and precarity call into question both the possibility and the desirability of the "good life" their forebears achieved through entitlement, pluck, and leaning in"--

Overtourism Martha Honey 2021-05-27 COVID-19 put a temporary stop to the crisis of overtourism. Yet there is no question that travel will resume; the only question is, when it does, what will it look like? Overtourism: Lessons for a Better Future charts a path toward tourism that is truly sustainable, focusing on the triple bottom line of people, planet, and prosperity. This practical book examines the causes and effects of overtourism before turning to emerging management strategies. Visitor education, traffic planning, and redirection to lesser known sites are among the measures that can protect the economic benefit of tourism without overwhelming local communities. As tourism revives around the world, these innovations will guide government agencies, parks officials, site managers, civic groups, environmental NGOs, tourism operators, and others with a stake in protecting our most iconic places.

The Liberal Invasion of Red State America Kristin B. Tate 2020-01-21 Refugees from high-tax Massachusetts turned New

Hampshire blue. Democratic voters from Yankee states are swamping Tennessee and Georgia. Government employees and refugees from Maryland have turned Virginia from a conservative Southern state into left-leaning Democrat territory. Escapees from California have transformed Colorado, and they're aiming for Texas next. One state after another is turning from red to purple to blue. America is being radically changed by people leaving blue states for better living conditions and opportunities in red states—only to import to their new homes the very policies that created the misery they fled from in the first place. The direction of the change is undeniable: • A 2019 poll found that 53 percent of residents are considering leaving California on account of the exorbitant cost of living • From 2008-2018, Houston's population surged more than 15 percent, and the top metro areas of origin for those new Texas residents were Los Angeles, New York, and Chicago • Migration from blue states is changing the Texas electorate: between 2010 and 2018, votes for Democrats went up 50 percent, while Republican votes increased by just 10 percent • Boom is turning to bust in cities like Denver, as hip blue state refugees to red states raise the cost of living by voting in liberal policies The liberal invasion of the conservative states is having major impacts on our elections, our economy, and our standard of living. And yet few Americans are even aware of the trend, and fewer still have any idea of the significant implications for the future of the United States. Now, in *The Liberal Invasion of Red State America*, indefatigable reporter Kristin Tate delves into the data, lays out the astonishing statistics, and explores the likely consequences of this under-the-radar trend. If you want to understand the movement that is reshaping our country, read this groundbreaking book.

Alexandria Ocasio-Cortez: Her Mysterious Rise from Bartender to Congresswoman Peter D'Abrosca 2019-06-12 Alexandria Ocasio-Cortez, or "AOC" as she has dubbed herself, has taken the political scene by storm. More celebrity than advocate for serious policies, Ocasio-Cortez nonetheless wields outsized influence over the news cycle due to her adept use of media, her brash attitude, and of course, her attractive appearance. But what lies underneath the shiny exterior? "AOC" is mostly a mystery, as Peter D'Abrosca found while chronicling her life and rise—from growing up in the suburbs of New York City, to her peculiar postgrad life as an entrepreneur, through her election to Congress and thereafter. This book offers never-before-published content and exclusive interviews, revealing new information on the life and times of America's newest political phenomenon: a millennial socialist bent on imposing a radical and dangerous agenda.

1989 James Mark 2019-08-31 Placing Eastern Europe in a global context, this provides new perspectives on the political, economic, and cultural transformations of the late twentieth century.

Keep Reforming: China's Strategic Economic Transformation Zhong Xu 2020-10-21 This book is about China's economy transformation. Currently, China's macro-leverage ratio has been effectively controlled, the central market interest rate (one year fixed interest rate) has gone down, and liquidity is now relatively abundant. However, financial institutions are generally reluctant to lend, the local governments are unwilling to act, and the fact that liquidity released by the central bank cannot be effectively transmitted to the real economy is leading to a contraction of credit and higher financing costs for private enterprises. Meanwhile, the downturn in the internal economic cycle has been exacerbated by the external shocks caused by frictions in Sino-US trade,

and this set of circumstances has contributed to the polarization of expectations regarding China's real economic prospects and policy trends, as seen, for example, in the questions and discussions about policy trends relevant to the private economy. Indeed, one might claim that the current confusion of expectations even exceeds that of 2008, when the international financial crisis breaks out. From a dialectical perspective, the more pessimistic expectation of economic trend, the easier it is to build consensus on reform, and the more remarkable actual effects of reform, which must be based on a comprehensive understanding of the phased characteristics of China's economic development. In this book, based on the experience working in central bank of China, the author argues that China's policy should focus on internal demand. In the coming period, China needs to persevere in the market orientation, step up reform and opening up, and create a favorable business environment. This book represents the following opinions: First, to reach a common understanding of the medium and high economic growth, and avoid the dream of high growth. Second, to stick to supply-side structural reform, accelerate economic transformation and structural adjustment, and further unleash the reform dividends and growth potential. The long-term and structural problems cannot be attributed to short-term and cyclical problems. Third, the challenges of external shocks could be also regarded as opportunities, which include but not limited to accelerate reform to improve property rights protection, state-owned capital management, corporate governance, income distribution, and social security. Fourth, whenever the trade friction happens, a multilateral framework is always helpful.

Jewish Studies and Israel Studies in the Twenty-First Century Carsten Schapkow 2019-08-21 This book discusses the multiple intersections between Jewish studies and Israel studies in the twenty-first century. With contributions from an international array of scholars, the volume offers a stimulating and thought-provoking discussion of the current state of scholarship with an outlook toward future areas of research and cross-pollination.

Privileged Victims Eddie Scarry 2020-02-25 America's worst ideas and people are rising to the top, thanks to a rancid culture that has turned every part of our lives into a fight between so-called "privilege" and entitled brats claiming "victim" status. The country is under siege and America's most ferocious enemy is already here: our privileged victims. On university campuses, in the news media, and in Hollywood, race, gender, and sexuality determine who should advance and who should be taken down a peg. Driven by "social justice" and governed by "intersectionality," out-of-control college students, school administrators, journalists, and titans of the entertainment industry divide and rank us on an infinite scale of grievance—the more of them, the better. And God have mercy on any individual deemed to benefit from "privilege." Privileged Victims zealously exposes the lies and myths behind: • The #MeToo movement that redefined sexual assault and rape to include simple regret, ruining the lives and careers of countless men • Hoax hate crimes, a key feature of the privileged victim class • The debate over our jungle-like immigration system, dumbed down by a scheming national news media to ugly charges of racism and xenophobia • Hollywood, which no longer aims to produce high-quality entertainment, but to virtue signal and promote "social justice" And so much more. In gripping detail, Eddie Scarry uncovers the perversion behind social justice and its identity-first dogma that's replacing America's

meritocracy, tracing its origins in academia and shining a light on the havoc it has wrought over the course of three decades. Bewildered citizens mistakenly believe that it's a matter of political correctness gone too far or the ailing symptoms of a country that has grown too sensitive. The truth is much worse: it's a deliberate, malignant reorganization of American life and the replacement of merit with mediocrity is the ultimate destination. "How did everyone in America get so unhappy all of a sudden? In part, because it pays. Eddie Scarry lays out the scam in this infuriating and fascinating book. It'll make you never want to complain again, just for the sake of being countercultural." —Tucker Carlson, Host of "Tucker Carlson Tonight" on Fox News and Author of Ship of Fools "What I love about Eddie is his courage. He knows the outrage mob is constantly coming and he doesn't care. Some of us call that being a First Amendment advocate. Count me as a fan and a reader."—Megyn Kelly

Higher Education's Road to Relevance Susan A. Ambrose 2020-01-02 Explores the current context, role, and challenges of post-secondary education and presents options for promising pathways forward. The post-secondary educational system has undergone dramatic changes and experienced immense stress in the past two decades. Once regarded as the logical next step toward career opportunities and financial security, higher education is a subject of growing uncertainty for millions of people across the United States. It is more common than ever to question the return on investment, skyrocketing cost, and student debt burden of going to college. Prospective students, and many employers, increasingly view attending institutions of higher learning as inadequate preparation for entering the 21st century workforce. High-profile scandals—financial impropriety, sexual abuse, restrictions of free speech, among others—have further eroded public trust. In response to these and other challenges, leading voices are demanding strengthened accountability and measurable change. Higher Education's Road to Relevance illustrates why change is needed in post-secondary education and offers practical solutions to pressing concerns. The authors, internationally recognized experts in college-level teaching and learning innovation, draw heavily from contemporary research to provide an integrative approach for post-secondary faculty, staff, and administrators of all levels. This timely book helps readers identify the need for leadership in developing new networks and ecosystems of learning and workforce development. This valuable book will help readers: Understand the forces driving change in higher education Develop multiple pathways to create and credential self-directed learners Promote access to flexible, cost-effective, and relevant learning Adapt structures and pedagogies to address issues and overcome challenges Use an inclusive approach that extends to employers, K-12 educators, post-secondary educators, and policy-makers, among others Higher Education's Road to Relevance is a much-needed resource for college and university administrators, academic researchers, instructors and other faculty, and staff who support and interact with students.

Donald Trump's New World Order T Hamid Al-Bayati 2020-10-15 Donald Trump's New World Order addresses U.S. foreign policy initiatives under Mr. Trump's Presidency. In the book, Ambassador T. Hamid Al-Bayati warns and explains how President Trump's foreign policy and trade war could lead to regional conflict and global wars.

Criminology of Poisoning Contexts Michael Farrell 2020-03-16 This accessible book examines poisoning in various contexts of

international conflict. It explores the modern-day use of poison in warfare, terrorism, assassination, mass suicide, serial poisoning within healthcare, and as capital punishment. It examines a broad range of international cases from the Americas, Europe, Japan, India and more in relation to Situational Crime Prevention and its theoretical precursors, in order to explore potential prevention strategies and the ways in which perpetrators circumvent them. Case studies include analysis of attempts on the lives of Sergei and Yulia Skripal, the Tokyo subway attacks, the crimes of Dr. Harold Shipman and the Heaven's Gate and Jonestown cults. For each, the means, motive, opportunity, location, and perpetrator-victim relationship is examined. This accessible book speaks to students of criminology and those interested in penology, careers in criminal justice, homicide detectives, anti-terrorism personnel, forensic pathologists and toxicologists.

European-Russian Energy Relations: from Dependence to Interdependence Karina Galytska 2021-11-11 Due to the exploitation of international reservoirs, natural energy sources have become rare, disputed among States and therefore strategic. The reliance on these resources is linked to energy security and dependence in both terms of energy imports or exports.

Furthermore, the access and reallocation of energy flows entail an alteration of the balance of power among States as well as the raise of national energy security strategies and debates. The aim of this volume is to analyze the evolution of energy relations between the European Union and the Russian Federation from a state of pure Dependence to the establishment of a balanced Interdependence, underling also the challenges facing the EU in terms of dependence and diversifications in the framework or the EU-Russian energy cooperation.

The Blessings of Disaster Michel Bruneau 2022-09-13 Are we doomed? As individuals, certainly, eventually, inevitably. But as a species? As a civilization? Leading catastrophe engineer Michel Bruneau thinks perhaps not. The Blessings of Disaster draws on knowledge from multiple disciplines to illustrate how our civilization's future successes and failures in dealing with societal threats—be they pandemics, climate change, overpopulation, monetary collapse, and nuclear holocaust—can be predicted by observing how we currently cope with and react to natural and technological disasters. Maybe most importantly, this entertaining and often counter-intuitive book shows how we can think in better ways about disasters, to strengthen and extend our existence as both individuals and as a species. When it comes to rare extreme events, such as earthquakes, hurricanes, floods, tornados, volcanic eruptions, technological accidents, terrorist attacks, pandemics, and even existential threats, it is in our nature to set ourselves up for disasters because the gamble may be worth it. But only maybe. The Blessing of Disaster is the very real story of the relationship between humans and disasters – and it's not a simple one. Bringing together his decades-long career spanning the globe as an earthquake and disaster engineer, detailed catastrophe case studies from extreme events like Japan's Kobe earthquake and category 5 hurricanes in the American South, along with thoughtful and practical solutions, Bruneau provides a thorough examination of the structural challenges that face today's (and tomorrow's) world. How we cope with today's threats is indicative of what the future holds. Contrary to popular forecasts, it is not all gloom and doom – but some of it definitely is.

Financial Compliance Maria Krambia-Kapardis 2019-04-25 This book explores the fundamental elements and risks that impact

the compliance officer's work. Following a comprehensive understanding of the role of a compliance officer, by engaging with themes of compliance officers' liability, expectations, risks and effectiveness, it provides practical answers by leading academics and practitioners in the field. This work also draws on how other areas, such as GDPR, financial regulation and whistleblowing, challenges on compliance officers and provides a way forward to convert these challenges into opportunities. The discussion of compliance challenges and practices in Australia, Europe and the United States provides critical insights into the development of compliance in today's financial environment. Financial Compliance: Issues, Concerns and Future Directions provides an invaluable working resource for academics, practitioners and a general audience interested in understanding and developing an effective compliance culture.

Bellingcat: ujawniamy prawdę w czasach postprawdy Eliot Higgins 2021-02-11 Bellingcat: ujawniamy prawdę w czasach postprawdy opowiada o tym, jak jeden człowiek pobudzi do działania dziennikarzy obywatelskich, którzy rozwiążą najwiksze zagadki naszych czasów, korzystając jedynie z komputerów. Bellingcat to niezależny internetowy serwis śledczy, który rzuca nowe światło na nasz sposób myślenia o mediach, polityce i przyszłości cyfrowego świata. Autor opisuje narzędzia używane do analizy danych od lat 90. XX wieku, od oprogramowania geolokacyjnego po aplikacje pozwalające określić z dokładnością do pół godziny czas wykonania zdjęcia. Książka opowiada również o dotychczasowych najgroźniejszych śledztwach Bellingcat, przybliży m.in. historię zestrzelenia malezyjskiego samolotu pasażerskiego nad Ukrainą, ukazuje też prawdę o pochodzeniu broni używanej w syryjskiej wojnie domowej i podsłuchach w telefonach dziennikarzy. Krótko przed premierą książki świat znów usłyszało o Bellingcat. Dziennikarze opublikowali materiał, w którym podali nazwiska ośmiu funkcjonariuszy Federalnej Służby Bezpieczeństwa (FSB) zamieszanych – według autorów publikacji – w sprawie otrucia Aleksieja Nawalnego. „Bellingcat walczy z Władimirem Putinem i jemu podobnymi za pomocą komputerów i smartfonów, atakując Kreml zza biurka”. Foreign Policy

University Corporate Social Responsibility and University Governance Deborah C. Poff

African Human Rights Yearbook / Annuaire africain des droits de l'homme 3 (2019) 2019-01-01 About the publication The African Charter on the Rights and Welfare of the Child (African Children's Rights Charter) is the continental instrument for protecting and promoting the rights and welfare of the Child. The Children's Charter, adopted in 1990, forms part of the salient features of the African human rights system, complementing the parent human rights instrument, the African Charter on Human and Peoples Rights (African Charter). To give meaning and effect to its provisions, the African Children's Rights Charter in article 34 establishes an organ namely the African Committee of Experts on the Rights and Welfare of the Child (African Children's Rights Committee or Committee) to monitor implementation by member states, to advocate for children's rights and to hold state parties accountable to their obligations as state parties. Working collaboratively on the continent's human rights system, the organs comprising the African human rights, namely, the African Commission on Human and Peoples' Rights (Commission), the African Court on Human and Peoples' Rights (Court) and the African Children's Rights Committee, have undertaken to publish

the African Human Rights Yearbook. This is an instrumental platform to highlight the mandate of the organs, to foster collaboration and to illustrate Africa's commitment to uphold human rights. It is an important initiative that highlights various aspects of the norms and institutions relevant for human rights on the continent. This is the third volume of the Yearbook. It includes a focus on the 2019 theme of the African Union Refugees, Returnees and Internally Displaced Persons: Towards Durable Solutions to Forced Displacement in Africa. The African Children's Committee has at the same time undertaken and published a study on Children on the Move (2019), focusing not only on refugees, detainees and internally displaced persons, but also drawing inspiration from the protective mandate of the African Children's Rights Charter to draw the continent's attention to the protection and promotion of the rights and welfare of children who are on the move. The focus on themes of the African Union enables a critical analysis of the extent of their implementation and relevance to the human rights discourse in the continent. Furthermore, the special focus of the Yearbook on various groups of people in vulnerable situation, such as children and women, signals the need to enhance their protection and prioritise their plight. The role of academic writing in advancement of human rights deserves due notice and appreciation by human rights implementing bodies. Peer reviewed academic research provides credible and independent knowledge about human rights in a specific country or region, as well as in various contexts and thematic areas. Academia plays a major role in the development of a human rights resource base that enables sustainable enhancement of human rights protection and promotion. The African Human Rights Yearbook is an excellent example of the important role played by academia in strengthening human rights protection and promotion in Africa. The breadth of knowledge enveloped in the Yearbook is evidenced by the long list of highly established scholars that informed it. By questioning and analysing the institutional architecture and the work of the three human rights bodies, the Yearbook has an invaluable role of ameliorating their functioning as a collective system. For this reason, it is critical that the Committee, Commission and Court take note of the various recommendations stemming from the research and apply them when relevant, for better protection and promotion of human rights in Africa. Mrs. Goitseone Nanikie Nkwe Chairperson of the African Committee of Experts on the Rights and Welfare of the Child. La Charte africaine des droits et du bien-être de l'enfant (Charte des droits de l'enfant) est l'instrument central en matière de protection et de promotion des droits et du bien-être de l'enfant en Afrique. Adoptée en 1990, elle fait partie intégrante des instruments clés du système africain des droits de l'homme et complète, à cet effet, la Charte africaine des droits de l'homme et des peuples, le traité fondateur du système africain des droits de l'homme. Pour mieux protéger les droits des enfants, le Comité africain d'experts sur les droits et le bien-être de l'enfant (Comité) fut créé à travers l'article 34 de la Charte des droits de l'enfant. Cet organe a pour mission de surveiller et de contrôler l'application et la mise en oeuvre de la Charte. Il veille que les Etats respectent et rendent compte de la mise en oeuvre des obligations qui leur incombent en vertu de la Charte. Travaillant en étroite collaboration dans le cadre de la protection des droits de l'homme en Afrique, la Commission africaine des droits de l'homme et des peuples, la Cour africaine des droits de l'homme et des peuples et le Comité africain d'experts sur les droits et le bien-être de l'enfant ont mis en place l'Annuaire africain des droits de l'homme. Cette

initiative sert d'opportunité pour promouvoir les missions dévolues auxdits organes, raffermir les liens de collaboration entre eux et rappeler l'engagement pris par l'Afrique afin de protéger les droits humains. L'Annuaire est une initiative importante car elle met en exergue les différents aspects normatifs et institutionnels des droits de l'homme en Afrique. Ce troisième volume de l'Annuaire est dédié au thème que l'Union africaine a retenu pour l'année 2019; Année des réfugiés, des rapatriés et des personnes déplacées: Vers des solutions durables aux déplacements forcés en Afrique. En parallèle, le Comité a entrepris et publié une cartographie des enfants en mouvement en Afrique (2019) axée sur les réfugiés, les détenus et les déplacés internes. Tirant ses fondements du mandat de protection que confère la Charte des droits de l'enfant, la cartographie attire l'attention du continent sur la protection et la promotion des droits et du bien-être des enfants en mouvement. L'emphase sur les thèmes de l'Union africaine dans l'Annuaire permet d'examiner le degré de leur mise en oeuvre et leur importance au débat sur la question des droits de l'homme en Afrique. Par ailleurs, l'accent mis sur les catégories et groupes en situations de vulnérabilité dont les enfants et les femmes, sert à réitérer la nécessité de renforcer leur protection et de prioriser leur infortune. Les organes de protection des droits de l'homme devraient reconnaître, à sa juste valeur, le rôle que jouent les travaux scientifiques dans la promotion des droits de l'homme. Les travaux de recherche scientifique relus et examinés par les pairs fournissent des connaissances crédibles et indépendantes sur les droits de l'homme dans un pays ou une région spécifique, ainsi que dans divers contextes et domaines thématiques. Les universités jouent un rôle prépondérant dans la mise en place des ressources adéquates en matière des droits de l'homme en vue de renforcer durablement leur protection et promotion. L'Annuaire africain des droits de l'homme est un parfait exemple de l'important rôle joué par les universités dans le renforcement de la protection et de la promotion des droits de l'homme en Afrique. La profondeur des connaissances que regorge l'Annuaire peut être illustrée de par la longue liste d'universitaires et des chercheurs qui le constituent. En interrogeant et en analysant l'architecture institutionnelle et le travail des trois organes de défense des droits de l'homme, l'Annuaire joue un rôle inestimable dans l'amélioration de leur fonctionnement en tant que système collectif. Pour cette raison, il est essentiel que le Comité, la Commission et la Cour prennent note des diverses recommandations découlant des recherches entreprises et les appliquent le cas échéant pour une meilleure protection et promotion des droits de l'homme en Afrique.

Mme Goitseone Nanikie Nkwe
Président du Comité africain d'experts sur les droits et le bien-être de l'enfant

A Brief History of Stigma Ashley L. Peterson 2021-11-08 Stigma can have a huge impact on the lives of people living with mental
illness. That needs to change, but how can we make it happen? A Brief History of Stigma explores the past and present of

stigma to give a solid basis to examine strategies to reduce stigma and critically evaluate their effectiveness. It also incorporates the author's experiences as a former mental health nurse living with a chronic mental illness. The book is divided into three parts. Part I explores what exactly stigma is, including relevant sociological theory and common stereotypes. Part II looks at some of the contexts in which stigma can occur, including the media and health care. Part III explores different stigma reduction strategies and what the research has to say about their effectiveness. You'll likely be surprised to learn how ineffective certain commonly used strategies are when it comes to changing public attitudes. This book is for anyone who's interested in understanding stigma and making the world a better place for people with mental illness. Together, we can create positive change!

Politics Inc John Raidt 2021 The book examines the dynamics driving the country's deeply troubled political culture and highlights reforms needed in the post-Trump era to strengthen US democracy. The author paints a clear and sobering portrait of a mercenary election industry and its support structure tailored to perpetuate and exploit America's social and political division. He shows how corrosive partisan animosity, dysfunctional political institutions, and even Trumpism are symptoms of a broken system dominated by a self-serving party duopoly. Having hacked the democratic process for its own ends, the cartel's intrigues continue to undermine functional compromise and the virtues essential for self-governance. Without timely structural reform outlined in the narrative, *Politics Inc.*, abetted by technological, social, and cultural factors, will continue to undermine the country from the far right and far left. The stakes could not be higher. At risk is the nation's security and the future of democracy at home and around the globe.

Science Communication in South Africa Weingart, Peter 2020-01-18 Why do we need to communicate science? Is science, with its highly specialised language and its arcane methods, too distant to be understood by the public? Is it really possible for citizens to participate meaningfully in scientific research projects and debate? Should scientists be mandated to engage with the public to facilitate better understanding of science? How can they best communicate their special knowledge to be intelligible? These and a plethora of related questions are being raised by researchers and politicians alike as they have become convinced that science and society need to draw nearer to one another. Once the persuasion took hold that science should open up to the public and these questions were raised, it became clear that coming up with satisfactory answers would be a complex challenge. The inaccessibility of scientific language and methods, due to ever increasing specialisation, is at the base of its very success. Thus, translating specialised knowledge to become understandable, interesting and relevant to various publics creates particular perils. This is exacerbated by the ongoing disruption of the public discourse through the digitisation of communication platforms. For example, the availability of medical knowledge on the internet and the immense opportunities to inform oneself about health risks via social media are undermined by the manipulable nature of this technology that does not allow its users to distinguish between credible content and misinformation. In countries around the world, scientists, policy-makers and the public have high hopes for science communication: that it may elevate its populations educationally, that it may raise the level of sound decision-

making for people in their daily lives, and that it may contribute to innovation and economic well-being. This collection of current reflections gives an insight into the issues that have to be addressed by research to reach these noble goals, for South Africa and by South Africans in particular.

The Indo-Pacific: Trump, China, and the New Struggle for Global Mastery Richard Javad Heydarian 2019-09-25 This book places the presidency of Donald Trump as well as the brewing Sino-American Cold War within the broader historical context of American hegemony in Asia, which traces its roots to Alfred Thayer Mahan's call for a naval build up in the Pacific, the subsequent colonization of the Philippines and, ultimately, reaching its apotheosis after the defeat of Imperial Japan in the Second World War. The book, drawing on visits from Cairo to California and Perth to Pyongyang as well as interviews and exchanges with heads of state and senior officials from across the Indo-Pacific, provides an overview of the arc of American primacy in the region for scholars, journalists, and concerned citizens.

Defending Iran Gawdat Bahgat 2021-09-23 An authoritative analysis of Iran's defense doctrine and security policies set within the context of security and political relations in the Middle East.

We Are Bellingcat Eliot Higgins 2022-02-17 THE SUNDAY TIMES BESTSELLER 'John le Carre demystified the intelligence services; Higgins has demystified intelligence gathering itself' Financial Times 'Uplifting . . . Riveting . . . What will fire people through these pages, gripped, is the focused, and extraordinary, investigations that Bellingcat runs . . . Each runs as if the concluding chapter of a Holmesian whodunit' Telegraph 'We Are Bellingcat is Higgins's gripping account of how he reinvented reporting for the internet age . . . A manifesto for optimism in a dark age' Luke Harding, Observer How did a collective of self-taught internet sleuths end up solving some of the biggest crimes of our time? Bellingcat, the home-grown investigative unit, is redefining the way we think about news, politics and the digital future. Here, their founder - a high-school dropout on a kitchen laptop - tells the story of how they created a whole new category of information-gathering, galvanising citizen journalists across the globe to expose war crimes and pick apart disinformation, using just their computers. From the downing of Malaysia Flight 17 over the Ukraine to the sourcing of weapons in the Syrian Civil War and the identification of the Salisbury poisoners, We Are Bellingcat digs deep into some of Bellingcat's most successful investigations. It explores the most cutting-edge tools for analysing data, from virtual-reality software that can build photorealistic 3D models of a crime scene, to apps that can identify exactly what time of day a photograph was taken. In our age of uncertain truths, Bellingcat is what the world needs right now - an intelligence agency by the people, for the people.
