

News/2018 10 10

Right here, we have countless ebook news/2018 10 10 and collections to check out. We additionally give variant types and furthermore type of the books to browse. The suitable book, fiction, history, novel, scientific research, as without difficulty as various additional sorts of books are readily approachable here.

As this news/2018 10 10, it ends in the works subconscious one of the favored ebook news/2018 10 10 collections that we have. This is why you remain in the best website to look the unbelievable books to have.

Proud Boys and the White Ethnostate Alexandra Minna Stern 2019-07-16 What is the alt-right? What do they believe, and how did they take center stage in the American social and political consciousness? Historian Alexandra Minna Stern excavates the alt-right memes that have erupted online and digs to the root of the far right's motivations: their deep-seated fear of an oncoming "white genocide" that can only be remedied through aggressive action to reclaim white power. The alt-right has expanded significantly throughout America's cultural, political, and digital landscapes: racist, sexist, and homophobic beliefs that were previously unspeakable have become commonplace, normalized, and accepted—endangering American democracy and society as a whole. When asked to address the Proud Boys and growing far right violence, President Trump directed the group to "stand back and stand by;" and just two weeks before President Joe Biden's inauguration, a white supremacist mob breached the US Capitol—earning praise from the Proud Boys leader amongst threats of future violence. In order to dismantle the destructive movement that has invaded our public consciousness and threatens American democracy, we must first understand the core beliefs that drive the alt-right. Through careful analysis, Stern brings awareness to the underlying concepts that guide the alt-right and its overlapping forms of racism, xenophobia, and transphobia. She explains the key ideas of "red-pilling," strategic trolling, gender essentialism, and the alt-right's ultimate fantasy: a future where minorities have been "cleansed" from the body politic and a white ethnostate is established in the United States. By unearthing the hidden mechanisms that power white nationalism, Stern reveals just how pervasive the far right truly is.

Censored 2020 Andy Lee Roth 2019-10-08 In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as "the enemy of the people," *Censored 2020* looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting that presents a fuller picture of truth. With a discerning eye, *Censored 2020* focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corporate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in "junk food news" and "news abuse"--further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion "Media Democracy in Action." Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues in the Trump era, "fake news" as a Trojan horse for censorship, and online memes as a form of political communication.

Political Perversion Joshua Gunn 2020 "When Trump became president, much of the country was repelled by what they saw as the vulgar spectacle of his ascent, the perversion of the highest office in the land. In his bold, groundbreaking book *Political Perversion*, rhetorician Joshua Gunn argues that this "mean-spirited turn" in American politics (of which Trump is the paragon) is best understood as a structural perversion enhanced primarily by the speed of communication technologies. Drawing on insights from critical theory, media ecology, and psychoanalysis, Gunn argues that perverse rhetorics dominate not only the political sphere but also our daily interactions with others, in person and online. From sexting to campaign rhetoric, Gunn shows how technology has changed our ways of relating (and not relating) to others and has engendered infantile and sadistic forms of provocation and enjoyment. In this book, Trump is only the tip of a sinister, rapidly growing iceberg, one to which we ourselves unwittingly contribute on a daily basis"--

Polish Cinema Today Helena Goscilo 2021-08-19 This book examines recent innovations in Polish film. The authors analyzes the ways in which Polish directors challenge revered images of national and gender identity, the country's historical martyrdom, the benevolent family, and the status of the influential Catholic Church.

Occupying Schools, Occupying Land Rebecca Tarlau 2019 In *Occupying Schools, Occupying Land*, Rebecca Tarlau looks at the Brazilian Landless Workers' Movement over the past thirty-five years to illustrate how social movements can use state services, such as schools, to support their social change goals. Through a detailed ethnographic and long-term examination of the MST's educational struggle, Tarlau shows how educational institutions can in turn help movements build capacity and social influence. This book provides an analysis of how activists convinced government officials to implement these educational practices and how these initiatives strengthened the movement.

A President's Daily Brief: Year 2 Micah Fisher-Kirshner

What was daily life under the Trump presidency really like?

An accessible ebook with short, thematic entries showing the corruption of the Trump presidency, *A President's Daily Brief, Year 2: The Day-by-Day Lurch of Trump's Norm-Breaking Presidency* is the second in Micah Fisher-Kirshner's series, representing the second year of Trump's time in power and the subversion that occurred. More than a compiled list of significant events that portray Trump as the most corrupt American president, this digestible and scannable read of in-the-moment posts pulled from news outlets and credible sources provides an intimate look at how the administration went about breaking the presidential norms on a daily basis. Readers also will have access to citations to fact-check claims.

This quick read on a Trump presidency that started off with outrage and graduated to righteous indignation is a must-have for those who enjoy history, politics, and government or simply want to read about the most notorious presidency in history.

The Manipulators Peter J. Hasson 2020-02-04 The dawn of the digital age was supposed to be a new era, when everybody would have a voice and battle it out in the marketplace of ideas—intellectual democracy at the touch of a keyboard. Social media offered a way for conservatives to outflank the leftist groupthink that dominated academia, the media, and the political establishment. But, as investigative reporter Peter J. Hasson shows in his explosive new book, *The Manipulators*, that's no longer the case. Instead, Big Tech companies have become enforcers of intellectual conformity: promoting leftist ideas, punishing dissent, and dictating politically correct opinions. Big Tech's grip on the levers of information seems unbreakable. Hasson, working with sources deep inside the tech giants, presents a chilling account of companies that relish their coercive power—and aren't shy about using it. In *The Manipulators*, you'll learn: - How tech companies skew search results and "fact-checks" in favor of left-wing ideas and liberal news sources - How Google employees organize anti-Trump "Resistance" on company time and

with company resources - How Facebook gives special privileges to liberal publications - How Big Tech employees collude with liberal journalists and left-wing activists to dictate who can—and can't—have a voice online - How Twitter, which once touted itself as "the free speech wing of the free speech party," reinvented itself as a liberal news company - How pro-abortion extremists work with Big Tech to shut down pro-life speech online Big Tech has become the greatest threat to free speech and free thought in America. But Big Tech is not invincible. It is still vulnerable to conservative and consumer pressure—though not for long, if Democrats have their way. Peter Hasson provides a frightening look at the concentrated power of Big Tech, its extraordinary intellectual intolerance, and its determination to silence competing voices and even dictate our thoughts. *The Manipulators* is a warning about rampant political censorship that will only get worse unless Big Tech meets big opposition.

Creating Healthy Organizations Graham Lowe 2020-04-02 How can you future-proof your organization by making it humanly sustainable? *Creating Healthy Organizations* answers this question, showing how to forge stronger links between employee well-being and the future success of any organization. The book makes a compelling case for resilient and humanly sustainable businesses by focusing on improving employees' well-being. Employee stress, burnout, work-life conflict, and disengagement remain significant workplace problems. Yet, there are important signs of progress. The healthy organization concept has begun moving into the mainstream of corporate wellness. Scholarly research has advanced beyond making a business case for workplace health promotion to showing how successful interventions are based on a culture of health and closer ties with occupational health and safety. More companies are addressing mental health issues, striving to make workplaces psychologically healthy and safe. Expanded environmental sustainability frameworks provide an opening for the more sustainable use of human resources. As well, extensive tools are now available in many countries to guide actions aimed at developing healthy, safe, and thriving workplaces. These recent workplace trends and resources highlight the need for an updated, concise, integrated, and practical analysis of the challenges of creating a healthier organization, the hurdles that must be overcome along the way, and the key success factors that can guide the improvement process. *Creating Healthy Organizations, Revised and Expanded Edition* fills this gap in knowledge and practice, guiding those committed to making their organizations healthier.

The Blue Wave Larry Sabato 2019-06-07 In this timely book, Larry Sabato and Kyle Kondik bring together respected journalists and academics from across the political spectrum to examine every facet of the 2018 election, and what its outcome portends for our national politics and the coming 2020 presidential election.

The Blessings of Disaster Michel Bruneau 2022-09-13 Are we doomed? As individuals, certainly, eventually, inevitably. But as a species? As a civilization? Leading catastrophe engineer Michel Bruneau thinks perhaps not. *The Blessings of Disaster* draws on knowledge from multiple disciplines to illustrate how our civilization's future successes and failures in dealing with societal threats—be they pandemics, climate change, overpopulation, monetary collapse, and nuclear holocaust—can be predicted by observing how we currently cope with and react to natural and technological disasters. Maybe most importantly, this entertaining and often counter-intuitive book shows how we can think in better ways about disasters, to strengthen and extend our existence as both individuals and as a species. When it comes to rare extreme events, such as earthquakes, hurricanes, floods, tornados, volcanic eruptions, technological accidents, terrorist attacks, pandemics, and even existential threats, it is in our nature to set ourselves up for disasters because the gamble may be worth it. But only maybe. *The Blessing of Disaster* is the very real story of the relationship between humans and disasters – and it's not a simple one. Bringing together his decades-long career spanning the globe as an earthquake and disaster engineer, detailed catastrophe case studies from extreme events like Japan's Kobe earthquake and category 5 hurricanes in the American South, along with thoughtful and practical solutions, Bruneau provides a thorough examination of the structural challenges that face today's (and tomorrow's) world. How we cope with today's threats is indicative of what the future holds. Contrary to popular forecasts, it is not all gloom and doom – but some of it definitely is.

The Making of the Presidential Candidates 2020 Jonathan Bernstein 2019-10-15 A political junkie's guide to the 2020 presidential race Based on original analysis from leading experts on presidential elections, *Making of the Presidential Candidates 2020* describes all of the systematic aspects of the nomination campaign today: party rules, fundraising, media attention, voter coalitions, prospects for female candidates, and more. The contributors carefully consider the nature of modern political parties and the ways that expanded parties affect the dynamics of the campaign. The analysis is current up to the 2016 election, including a thorough examination of the most fascinating candidate of recent times: Donald Trump. The only authoritative book on the all-important nominating process, *Making of the Presidential Candidates 2020* will be valuable for college courses at all levels as well as practitioners and political junkies who want to understand the fundamental forces that shape nomination campaigns in the modern era.

From Bureaucracy to Bullets Bree Akesson 2022-02-11 *From Bureaucracy to Bullets* uses eight compelling case studies--from five continents and spanning the 20th and 21st centuries--to explore the concept of extreme domicile, or the intentional destruction of home as a result of political violence. Moving beyond mere description, *From Bureaucracy to Bullets* identifies common factors that contribute to extreme domicile, thereby providing human rights actors with a framework to hold perpetrators accountable for their actions.

Monster of Their Own Making Jack Buckby 2020-04-28 As a teenager in a working-class English town, Jack Buckby found himself at the center of the biggest nationalist movement in modern British history. Looking for a political group that championed working people concerned about mass immigration, he stumbled into a world of anti-Semitism, racist paranoia, and extreme-right violence and terrorism. Through those experiences, Jack explains how both the left and the right fundamentally misunderstand what it means to be "far right" and why young men are becoming radicalized across the Western world. Through a three-pronged attack carried out by the media, negligent politicians, and far-left ideologues, the white working class is being backed into a corner and forced to either be quiet, or get radical.

The Rohingya Crisis Nasir Uddin 2021-11 This book is based on fieldwork conducted in refugee camps in India, Bangladesh and other countries, presenting new data on the Rohingya refugees and discussing policy issues.

Wrecked Barrett J. Taylor 2022-08-12 Higher education is a central institution in U.S. democracy. In the 2010s, however, many states that spent previous decades building up their higher education systems began to tear them down. Growing hostility toward higher education reflected changing social forces that remade the politics of U.S. higher education. The political Right became increasingly reliant on angry white voters as higher education became more racially diverse. The Republican party became more closely connected to extremely wealthy donors as higher education became more costly. In *Wrecked*, Barrett J. Taylor shows how these social changes set a collision course for the Right and higher education. These attacks fed a policy agenda of deinstitutionalization, which encompassed stark divestment from higher education but was primarily characterized by an attack on the institution's social foundation of public trust. In response to these attacks, higher education officials have offered a series of partial defenses that helped higher education to cope in the short-term but did nothing to defend the institution itself against the long-term threat of declining public trust. The failure to address underlying issues of mistrust allowed conflict to escalate to the point at which many states are now wrecking their public higher education systems. *Wrecked* offers a unique and compelling perspective linking higher education policymaking to broader social and political forces acting in the twenty-first century.

ICSGS 2019 Muhammad Syaroni Rofii 2020-11-13 The International Conference on Strategic and Global Studies is organized by the School of Strategic and Global Studies (SSGS), Universitas Indonesia. The ICSGS conference is an annual meeting event involving lecturers, students and researchers who are concerned with contemporary national and international issues that are directly related to the problems faced by the government and the private sector using a multidisciplinary approach. Participants of this conference came from the ASEAN region and the global network of the Universitas Indonesia.

The Reimagined PhD Leanne M Horinko 2021-08-13 Long seen as proving grounds for professors, PhD programs have begun to shed this singular sense of mission. Prompted by poor placement numbers and guided by the efforts of academic organizations, administrators and faculty are beginning to feel called to equip students for a range of careers. Yet, graduate students, faculty, and administrators often feel ill-prepared for this pivot. *The Reimagined PhD* assembles an array of professionals to address this difficult issue. The contributors show that students, faculty,

and administrators must collaborate in order to prepare the 21st century PhD for a wide range of careers. The volume also undercuts the insidious notion that career preparation is a zero sum game in which time spent preparing for alternate careers detracts from professorial training. In doing so, *The Reimagined PhD* normalizes the multiple career paths open to PhD students, while providing practical advice geared to help students, faculty, and administrators incorporate professional skills into graduate training, build career networks, and prepare PhDs for a variety of careers.

The Dark Side of Dharma Anna Lutkajtis 2021-03-24 *The Dark Side of Dharma* explores some of the possible undesirable side effects - also known as 'adverse effects' - of meditation and mindfulness. Researcher Anna Lutkajtis investigates why these effects, which are well-known in spiritual and religious traditions, have been ignored in contemporary secular contexts, such as Western psychology. Lutkajtis' research reveals that while meditation is commonly portrayed as a practice that is overwhelmingly positive, a growing number of research studies and anecdotal reports suggest that meditation can also have negative effects. Some meditators believe that these adverse effects are a normal part of the contemplative path and a welcome sign of progress. For others, such effects are completely unexpected and can be psychologically harmful. In religious traditions like Buddhism, difficulties associated with meditation are acknowledged and are usually viewed as milestones on the path to enlightenment or the result of an unbalanced practice. In such traditional contexts, meditation teachers are equipped to deal with adverse effects if and when they arise. However, in the modern West, meditation adverse effects have been overlooked, under-researched, and generally misunderstood. Given the current popularity of meditation, Lutkajtis argues that it is important to understand why meditation adverse effects have been ignored in contemporary secular settings.

Hate in the Homeland Cynthia Miller-Idriss 2022-01-11 A startling look at the unexpected places where violent hate groups recruit young people. Hate crimes. Misinformation and conspiracy theories. Foiled white-supremacist plots. The signs of growing far-right extremism are all around us, and communities across America and around the globe are struggling to understand how so many people are being radicalized and why they are increasingly attracted to violent movements. *Hate in the Homeland* shows how tomorrow's far-right nationalists are being recruited in surprising places, from college campuses and mixed martial arts gyms to clothing stores, online gaming chat rooms, and YouTube cooking channels. Instead of focusing on the how and why of far-right radicalization, Cynthia Miller-Idriss seeks answers in the physical and virtual spaces where hate is cultivated. Where does the far right do its recruiting? When do young people encounter extremist messaging in their everyday lives? Miller-Idriss shows how far-right groups are swelling their ranks and developing their cultural, intellectual, and financial capacities in a variety of mainstream settings. She demonstrates how young people on the margins of our communities are targeted in these settings, and how the path to radicalization is a nuanced process of moving in and out of far-right scenes throughout adolescence and adulthood. *Hate in the Homeland* is essential for understanding the tactics and underlying ideas of modern far-right extremism. This eye-opening book takes readers into the mainstream places and spaces where today's far right is engaging and ensnaring young people, and reveals innovative strategies we can use to combat extremist radicalization.

Sexual Harassment in the UK Parliament Christina Julios 2022 This book examines the phenomenon of sexual harassment in the UK Parliament and efforts to tackle it. The volume's in-depth research unveils a political culture where sexual transgressions thrive. Its intersectional feminist perspective furthermore highlights multiple systems of gendered oppression perpetuating inequality. Britain's experience is viewed against the global #MeToo movement and Hollywood's Weinstein sex scandal. The book identifies ways to redress the status quo and challenges ahead, including a gender power gap, misuse of non-disclosure agreements to silence victims, and misogynistic organisational cultures. Dr Christina Julios is an academic author, Honorary Associate at The Open University (UK) and Fellow of the Higher Education Academy (UK). She has authored the books *Female Genital Mutilation and Social Media* (2019), *Forced Marriage and Honour Killings in Britain* (2015), and *Contemporary British Identity* (2008).

Identity Capitalists Nancy Leong 2021-02-09 Nancy Leong reveals how powerful people and institutions use diversity to their own advantage and how the rest of us can respond—and do better. Why do people accused of racism defend themselves by pointing to their black friends? Why do men accused of sexism inevitably talk about how they love their wife and daughters? Why do colleges and corporations alike photoshop people of color into their websites and promotional materials? And why do companies selling everything from cereal to sneakers go out of their way to include a token woman or person of color in their advertisements? In this groundbreaking book, Nancy Leong coins the term "identity capitalist" to label the powerful insiders who eke out social and economic value from people of color, women, LGBTQ people, the poor, and other outgroups. Leong deftly uncovers the rules that govern a system in which all Americans must survive: the identity marketplace. She contends that the national preoccupation with diversity has, counterintuitively, allowed identity capitalists to infiltrate the legal system, educational institutions, the workplace, and the media. Using examples from law to literature, from politics to pop culture, Leong takes readers on a journey through the hidden agendas and surprising incentives of various ingroup actors. She also uncovers a dire dilemma for outgroup members: do they play along and let their identity be used by others, or do they protest and risk the wrath of the powerful? Arming readers with the tools to recognize and mitigate the harms of exploitation, *Identity Capitalists* reveals what happens when we prioritize diversity over equality.

Overtourism Rachel Dodds 2019-05-06 Overtourism has become a major concern for an increasing number of destinations as tourism numbers continue to grow, stimulated by general economic and technological growth and the expansion of the global middle class. This, coupled with relentless promotion of tourism by many organisations and destinations, has increased tourism, despite growing opposition to excessive development. This book is the first academic volume to deal with this topic and contains chapters by experienced researchers in the tourism field, taking a multidisciplinary approach to review and explain the subject. The introductory section begins with an overview of the current situation and the forces enabling the appearance of overtourism. This is followed by a number of case studies from a range of destinations around the world, both urban and rural, which share the same problems. The concluding section includes a discussion of potential mitigation methods and approaches and a final assessment of future developments. The focus and relevance of this book are not just for academics, as it offers insights into destinations, enablers and solutions for how to address the issue of overtourism on a wide variety of scales. This book offers globally relevant perspectives on destinations as varied as Venice and Barcelona, that have gained global media attention, as well as less publicised rural areas and developing destinations.

Alexandria Ocasio-Cortez: Her Mysterious Rise from Bartender to Congresswoman Peter D'Abrosca 2019-06-12 Alexandria Ocasio-Cortez, or "AOC" as she has dubbed herself, has taken the political scene by storm. More celebrity than advocate for serious policies, Ocasio-Cortez nonetheless wields outsized influence over the news cycle due to her adept use of media, her brash attitude, and of course, her attractive appearance. But what lies underneath the shiny exterior? "AOC" is mostly a mystery, as Peter D'Abrosca found while chronicling her life and rise—from growing up in the suburbs of New York City, to her peculiar postgrad life as an entrepreneur, through her election to Congress and thereafter. This book offers never-before-published content and exclusive interviews, revealing new information on the life and times of America's newest political phenomenon: a millennial socialist bent on imposing a radical and dangerous agenda.

Cyber Operations and International Law François Delerue 2020-02-29 A comprehensive analysis of the international law applicable to cyber operations, including a systematic study of attribution, lawfulness and remedies.

Academic Misconduct and Plagiarism Bernard Montoneri 2020-11-15 This book discusses the issue of academic misconduct and publication ethics in general and plagiarism in particular, with a focus on case studies in various universities around the world (notably in Japan, Singapore, Australia, USA, and Canada). We are especially interested in students' and teachers' perception of academic misconduct and their definition and understanding of plagiarism. Most chapters discuss undergraduates' understanding of academic dishonesty and students' experiences using plagiarism softwares. The book also analyzes teachers' perception of cheating and how they respond to it. Writing is perceived by all of the teachers to be the most important form of assessment that required preventative measures in order to reduce the occurrence of academic dishonesty among students. Each chapter recommends strategies to fight plagiarism, such as establishing guidelines and regulations concerning

academic integrity, awareness of the scale of the issue (scandals at all levels in most countries, even including famous scholars, administrators, and elected officials), assessing the damage done to academic reputation and credibility, developing trust and credibility on social media (especially with the recent disturbing growth of fake news and data), minimizing the proliferation of dishonest accreditation, of identity theft, of fake peer-reviews, and fighting the growing number of fake papers, with or without the use of computer-generated academic works.

DNA Nation Sergio Pistoï 2019-10-20 Millions of people have done it: with a few clicks and some spit, and at less than the cost of a fancy dinner, you can buy a reading of your DNA online. With this in hand, you can find out where you came from, trace relatives around the world and find new friends on a genetic social network. You can learn about your predisposition to disease, get a genetically tailored diet, understand the sports to which you or your children might be more suited, and even find a date. It's the dawn of consumer genomics, where the progress of biology meets the power of the Internet and big data. But do these applications work? Can we really prevent diseases based on what we read in our DNA? What do scientists say? And do we really understand the implications? What happens if things go wrong and the data is misused or the trust abused? Sergio Pistoï, a journalist and a DNA scientist, investigated this brave new world first-hand by interrogating his own genes, and has provided a practical, informative and thought-provoking survival guide to home genetic testing. From medicine to food, from social networking to genealogy and advertising, this book will show you how the DNA revolution is beginning to have such a profound impact on our daily lives and privacy and why it will influence the choices we make. If you are interested in how social media meets cutting-edge science, and what it means for your life, or if you are considering buying a DNA test, then this is the book for you.

Understanding Sport Organizations Trevor Slack 2020 *Understanding Sport Organizations* provides a strong foundation in organizational theory and organizational behavior and addresses how that theory is applied in a real-world context. It engages readers by providing opportunities to discover the theory in practice.

China's Achilles' Heel Srikanth Thaliyakkattil 2019-06-24 This book analyses Chinese discourse on Indian attitudes towards the Belt & Road Initiative (BRI), and argues that the Indian discourse is becoming one of the biggest hurdles to China creating its own narrative about China's rise in Asia and beyond. In doing so, it spans across the themes of the power struggle between China and US, China and India, the Chinese perception of India, China-South Asia relations, the China-US- India strategic triangle and the success and failures of BRI. The first part of the book focuses on the Chinese thinking behind the launch of the BRI and addresses questions related to the purpose of this initiative and ways in which it will facilitate China's rise as a superpower. Subsequently the book addresses how effective or ineffective India's challenge is and how it is negatively affecting China's BRI.

Repurposing the Green Belt in the 21st Century Peter Bishop 2020-11-09 The green belt has been one of the UK's most consistent and successful planning policies. Over the past century, it has limited urban sprawl and preserved the countryside around our cities, but is it still fit for purpose in a world of unprecedented urban growth and potentially catastrophic climate change? *Repurposing the Green Belt in the 21st Century* examines the history of the green belt in the UK and how it has influenced planning regimes in other countries. Despite its undoubted achievements, it is time to review the green belt as an instrument of urban planning and landscape design. The problem of the ecological impact of cities and the mitigation measures of major climate changes are at the top of the urban agenda across the world. Urban agriculture, blue and green infrastructures, and forestation are the new ecological design imperatives driving urban policymaking.

The Next Pope Edward Pentin 2020-08-04 When Pope Francis' pontificate has passed, it's very likely that one of the nineteen cardinals featured in these pages will be elected to become the next Supreme Pontiff of the Catholic Church, the spiritual leader of over a billion Catholics and the most influential and widely respected moral and religious figure in the world. Yet outside the Vatican walls, despite the considerable roles that some of these men play in the Church and in the world, few of them are known by the public — or even by their brother cardinals. Hence this book, an engrossing and thoroughly documented instrument through which a future pope may be known in that sphere that matters most: his life and service, first as a priest, and then as a bishop. Written by the National Catholic Register's longtime Rome correspondent, Edward Pentin, in collaboration with an international team of qualified scholars, these encyclopaedic pages present you with the fruit of years of research. Each cardinal profile begins with a brief biography that sketches the major points of his ecclesiastical life. Then comes a detailed, richly footnoted report and assessment of his three fundamental roles as a successor to the apostles: his sanctifying role as a priest, his governing role as a bishop, and his prophetic role as a teacher. As an important bonus, these pages also carefully document many of the candidates' published views on moral and theological issues currently debated in the Church and in the public arena, as such views often reveal most efficiently the individual's true character and deepest held beliefs. Finally, each profile concludes with a summary, recapitulating the main points brought to light by the thorough research, giving readers and tomorrow's cardinal electors a fair and accurate picture of the man who may soon become The Next Pope.

Middle Power in the Middle East Thomas Juneau 2022-03-01 The Middle East has not, historically, been a first-order priority for Canadian foreign and defence policy. Most major Canadian decisions on the Middle East have come about through ad hoc decision-making rather than strategic necessity. Balancing international obligations with domestic goals, Canadian relations with this region try to find a balance between meeting alliance obligations and keeping domestic constituents content. *Middle Power in the Middle East* delves into some of Canada's key bilateral relations with the Middle East and explores the main themes in Canada's regional presence: arms sales, human rights, defence capacity-building, and mediation. Contributors analyse the key drivers of Canada's foreign and defence policies in the Middle East, including diplomatic relations with the United States, ideology, and domestic politics. Bringing together many of Canada's foremost experts on Canada–Middle East relations, this collection provides a fresh perspective that is particularly timely and important following the Arab uprisings.

John Beilein at Michigan Tim Rooney 2020-01-29 When John Beilein arrived at University of Michigan in 2007, the once-proud men's basketball program was adrift after failing to reach the NCAA Tournament for nine straight seasons. Over the next twelve years, he became the program's all-time winningest coach, reached two national championship games, won four Big Ten championships and produced eight NBA first-round draft picks. In an age of ethical lapses throughout college basketball, Beilein succeeded without a hint of impropriety. As much a teacher as a coach, he consistently identified undervalued recruits, taught them his innovative offensive system and carefully developed them into better players--an approach to the game that drove his unprecedented rise from high school junior varsity coach to head coach of the Cleveland Cavaliers. This book examines his tenure at Michigan in detail for the first time.

Super Mad at Everything All the Time Alison Dagnes 2019-03-11 *Super Mad at Everything All the Time* explores the polarization of American politics through the collapse of the space between politics and culture, as bolstered by omnipresent media. It seeks to explain this perfect storm of money, technology, and partisanship that has created two entirely separate news spheres: a small, enclosed circle for the right wing and a sprawling expanse for everyone else. This leads to two sets of facts, two narratives, and two loudly divergent political sides with extraordinary anger all around. Based on extensive interviews with leading media figures and politicians, this book traces the development of the media machine, giving suggestions on how to restore our national dialogue while defending our right to disagree agreeably.

Cybersecurity Management Nir Kshetri 2021-11 *Cybersecurity Management* looks at the current state of cybercrime and explores how organizations can develop resources and capabilities to prepare themselves for the changing cybersecurity environment.

ECCWS 2021 20th European Conference on Cyber Warfare and Security Dr Thaddeus Eze 2021-06-24 *Conferences Proceedings of 20th European Conference on Cyber Warfare and Security*

Testing 3, 2, 1 Michael Lawrence 2020-03-23 *Testing 3, 2, 1* is the story of how Australian education fell behind the world's best and how Finland came to lead. It is also a guide to how some of Finland's ideas can be used by teachers and schools to begin to reverse the current malaise of Australia's education system. Part memoir, part investigative journalism, part call-to-action, this easy-to-read and highly compelling plea for an improved education system can't be ignored ... Lawrence reminds us that we can (and must) do better. - Jared Cooney Horvath PhD, Educational Neuroscientist, Melbourne Graduate School of Education, University of Melbourne. Author of *Stop Talking, Start Influencing*: 12

Insights from Brain Science to Make Your Message Stick

Donald Trump's New World Order T Hamid Al-Bayati 2020-10-15 Donald Trump's New World Order addresses U.S. foreign policy initiatives under Mr. Trump's Presidency. In the book, Ambassador T. Hamid Al-Bayati warns and explains how President Trump's foreign policy and trade war could lead to regional conflict and global wars.

The Headship of Men and the Abuse of Women Kevin Giles 2020-06-17 In recent years the issue of domestic abuse and violence has gained a lot of attention as the extent of it has become known. Domestic abuse and violence is now of high concern to most churches because it is evident that domestic abuse figures are much the same in our churches, and possibly higher in evangelical churches where the headship of men and the submission of women is made the God-given ideal. In this book, Kevin Giles surveys competently the scientific information on this matter now available and notes that the consensus is that the most sure indicator of higher incidences of abuse are found in communities where men are privileged and expected to be in charge and women are subordinated. This, he argues, should make complementarians consider afresh if in fact the subordination of women is the God-given ideal, established in creation before the fall.

Southbound Anjali Enjeti 2021-04-15 A move at age ten from a Detroit suburb to Chattanooga in 1984 thrusts Anjali Enjeti into what feels like a new world replete with Confederate flags, Bible verses, and whiteness. It is here that she learns how to get her bearings as a mixed-race brown girl in the Deep South and begins to understand how identity can inspire, inform, and shape a commitment to activism. Her own evolution is a bumpy one, and along the way Enjeti, racially targeted as a child, must wrestle with her own complicity in white supremacy and bigotry as an adult. The twenty essays of her debut collection, *Southbound*, tackle white feminism at a national feminist organization, the early years of the AIDS epidemic in the South, voter suppression, gun violence and the gun sense movement, the whitewashing of southern literature, the 1982 racialized killing of Vincent Chin, social media's role in political accountability, evangelical Christianity's marriage to extremism, and the rise of nationalism worldwide. In our current era of great political strife, this timely collection by Enjeti, a journalist and organizer, paves the way for a path forward, one where identity drives coalition-building and social change.

Immunisation against infectious diseases David Salisbury 2006-12-11 This is the third edition of this publication which contains the latest information on vaccines and vaccination procedures for all the vaccine preventable infectious diseases that may occur in the UK or in travellers going outside of the UK, particularly those immunisations that comprise the routine immunisation programme for all children from birth to adolescence. It is divided into two sections: the first section covers principles, practices and procedures, including issues of consent, contraindications, storage, distribution and disposal of vaccines, surveillance and monitoring, and the Vaccine Damage Payment Scheme; the second section covers the range of different diseases and vaccines.
