As recognized, adventure as skillfully as experience virtually lesson, amusement, as competently as contract can be gotten by just checking out a ebook news/2019 05 21 with it is not directly done, you could acknowledge even more a propos this life, all but the world.

We offer you this proper as skillfully as easy artifice to get those all. We manage to pay for news/2019 05 21 and numerous book collections from fictions to scientific research in any way. in the midst of them is this news/2019 05 21 that can be your partner.

Airline Microeconomics Tony Webber 2022-07-25 This book presents readers with a technical tool-kit to understand the economics of airlines. It starts by covering the key language and glossary of the air travel business, which is necessary for graduates or first-time employees in aviation to understand the content of conversations, meetings, presentations and internal aviation communications. It then breaks down the complexity of the demand side of the air travel business. The book then analyses revenue over two distinct time horizons, specifically the short and medium runs, recognising the fact that airlines operate to a fixed number of seats over a short horizon because of the way that they schedule services in advance of departure. By combining revenue and costs, the book then analyses airline profit, with a focus on the short run and medium run decision variables that maximise airline profit. The remainder of the book analyses various important topics in air transport economics, including competition in airline markets, key rules, regulations and taxes that affect the return on capital in aviation, the way that airlines form relationships, and the economics of the market for oil and jet fuel, among others.

China's Belt and Road Initiative at Ten Robert E. Looney 2022-11-23 This volume assesses China's Belt and Road Initiative (BRI) as it approaches its tenth year in operation. The programme has gone through a difficult transition since its inception in 2013, with an environment developing in a way utterly unanticipated by Chinese decision-makers. Despite pragmatic adjustments to the BRI, the lack of a firm empirical base has impeded the BRI and led to its demise in many countries. With the accumulation of nearly ten years of project and economic data, it is possible to make an in-depth assessment of the BRI. For this purpose, the study examines the infrastructure component of the BRI in 39 countries, stretching from the Americas to Oceania and, finally, South Asia. The study finds a strong relationship between a country's progress in improved governance and the quality of its infrastructure. Countries that have benefited from the BRI have simultaneously achieved progress in governance areas, such as the rule of law and control of corruption. By not emphasizing improved governance structures, China condemns many of its partners to failure. Researchers, students, and economic development specialists from Latin America to South Asia and Oceania will find this study a useful departure from the volumes of anecdotal BRI assessments.

Urban Emergency (Mis)Management and the Crisis of Neoliberalism 2021-08-24 Urban Emergency (Mis)Management and the Crisis of Neoliberalism: Flint, MI in Context examines the malfeasance and mismanagement that poisoned a city's water. The authors emphasize the structural forces that engendered the water crisis, and, especially, the long history of racial oppression, racist government policies, and everyday forms of inequality, that shape the life chances for Flint's residents.

Endless Holocausts David Michael Smith 2023-01-01 An argument against the myth of "American exceptionalism" Endless Holocausts: Mass Death in the History of the United States Empire helps us to come to terms with what we have long suspected: the rise of the U.S. Empire has relied upon an almost unimaginable loss of life, from its inception during the European colonial period, to the present. And yet, in the face of a series of endless holocausts at home and abroad, the doctrine of American exceptionalism has plagued the globe for over a century. However much the ruling class insists on U.S. superiority, we find ourselves in the midst of a sea change. Perpetual wars, deteriorating economic conditions, the resurgence of white supremacy, and the rise of the Far Right have led millions of people to abandon their illusions about this country. Never before have so many people rejected or questioned traditional platitudes about the United States. In Endless Holocausts author David Michael Smith demolishes the myth of exceptionalism by demonstrating that manifold forms of mass death, far from being unfortunate exceptions to an otherwise benign historical record, have been indispensable in the rise of the wealthiest and most powerful imperium in the history of the world. At the same time, Smith points to an extraordinary history of resistance by Indigenous peoples, people of African descent, people in other nations brutalized by U.S. imperialism, workers, and democratic-minded people around the world determined to fight for common dignity and the sake of the greater good.

Game Changers Henrik M. Schatzinger 2020 "A supplemental textbook that shows how outside groups, specifically dark money groups and Super PACs, are profoundly changing political campaigns since *Citizens United v. FEC* (2010)"--

The Attack on Higher Education Ronald G. Musto 2022-01-20 Compares the current right-wing attack on American higher education to Henry VIII's Dissolution of the Monasteries in 1535.

TUPAC AMARU SHAKUR & FELA ANIKULAPO KUTI – REVOLUTIONARIES OR MARTYRS Wale Sasamura Owoeye 2020-02-20 TUPAC AMARU SHAKUR & FELA ANIKULAPO KUTI – REVOLUTIONARIES OR MARTYRS is a monograph of honour raised in the memory of late Muhiyideen D'Baha Moye of Black Lives Matter movement. The book compares and contrast the two legendary figures of blackism, Tupac and Fela, drawing inferences and interconnections about the activism of the two artists whose life and art epitomized the struggle of the black race for true freedom. The book is written by the foremost Neo-Negritudian, Wale Sasamura Owoeye, author of *Sixty-Six Songs*

Cults Max Cutler 2022-07-12 A Gallery Book. Gallery Books has a great book for every reader.

Proceedings of Topical Issues in International Political Geography Radomir Bolgov 2021-07-08 This proceedings book addresses the main issues of contemporary political geography and international relations, providing a platform for discussion and collaboration of experts in the fields of Political Geography, Geopolitics, International Relations, etc. Participants from all over the world consider the controversies and challenges posed by globalization, focusing, in particular, on the ideologies of globalization and regionalism, migration crises, prevention of ethnic conflicts, and measures to promote sustainable development. The content of the book may be interesting to expert community, academics and popular audience.

Ending the Cycle of Crisis and Complacency in U.S. Global Health Security Kelly Ayotte 2020-01-20 When health crises strike—measles, MERS, Zika, dengue, Ebola, pandemic flu—and the American people grow alarmed, the U.S. government springs into action. But all too often, when the crisis fades and fear subsides, urgency morphs into complacency. Investments dry up, attention shifts, and a false sense of security takes hold. The CSIS Commission on Strengthening America's Health Security urges the U.S. government to replace the cycle of crisis and complacency that has long plagued health security preparedness with a doctrine of continuous prevention, protection, and resilience. Such a strategic approach can restore U.S. leadership, strengthen financing and the speed of response, foster resilient health systems abroad, enhance the U.S. government's ability to operate in disordered settings, and accelerate select technological innovations to secure the future.

The Bitter End John Sides 2022-09-20 What an intensely divisive election portends for American politics The year 2020 was a tumultuous time in American politics. It brought a global pandemic, protests for racial justice, and a razor-thin presidential election outcome. It culminated in an attack on the U.S. Capitol that attempted to deny Joe Biden's victory. The Bitter End explores the long-term trends and short-term shocks that shaped this dramatic year and what these changes could mean for the future. John Sides, Chris Tausanovitch, and Lynn Vavreck demonstrate that Trump's presidency intensified the partisan politics of the previous decades and the identity politics of the 2016 election. Presidential elections have become calcified, with less chance of big swings in either party's favor. Republicans remained loyal to Trump and kept the election close, despite Trump's many scandals, a recession, and the pandemic. But in a narrowly divided electorate even small changes can have big consequences. The pandemic was a case in point: when Trump pushed to reopen the country even as infections mounted, support for Biden increased. The authors explain that, paradoxically, even as Biden's win came at a time of heightened party loyalty, there remained room for shifts that shaped the election's outcome. Ultimately, the events of 2020 showed that instead of the country coming together to face national challenges—the pandemic, George Floyd's murder, and the Capitol riot—these challenges only reinforced divisions. Expertly chronicling the tensions of an election that came to an explosive finish, The Bitter End presents a detailed account of a year of crises and the dangerous direction in which the country is headed.

The Drone Wars Seth J. Frantzman 2021-06-22 In the battle for the streets of Mosul in Iraq, drones in the hands of ISIS terrorists made life hell for the Iraq army and civilians. Today, defense companies are racing to develop the lasers, microwave weapons, and technology necessary for confronting the next drone threat. Seth J. Frantzman takes the reader from the midnight exercises with Israel's elite drone warriors, to the CIA headquarters where new drone technology was once adopted in the 1990s to hunt Osama bin Laden. This rapidly expanding technology could be used to target nuclear power plants and pose a threat to civilian airports. In the Middle East, the US used a drone to kill Iranian arch-terrorist Qasem Soleimani, a key Iranian commander. Drones are transforming

the battlefield from Syria to Libya and Yemen. For militaries and security agencies—the main users of expensive drones—the UAV market is expanding as well; there were more than 20,000 military drones in use by 2020. Once the province of only a few militaries, drones now being built in Turkey, China, Russia, and smaller countries like Taiwan may be joining the military drone market. It's big business, too—\$100 billion will be spent over the next decade on drones. Militaries may soon be spending more on drones than tanks, much as navies transitioned away from giant vulnerable battleships to more agile ships. The future wars will be fought with drones and won by whoever has the most sophisticated technology.

Denial, Delay, Diversion Jacob D. Kurtzer 2019-11-18 Principled humanitarian action is under attack around the world. Globally, 70.8 million people are considered forcibly displaced by armed conflict and nearly 132 million people need emergency humanitarian assistance. At the same time, there has been a steep escalation in the deliberate, willful obstruction of humanitarian access, impeding the ability of humanitarian aid to reach the most vulnerable people and vice versa. As humanitarian emergencies become increasingly complex and protracted, blocked humanitarian access will only increase without urgent action. To ensure the ability of aid to reach those who need it most and to uphold the principles of international humanitarian law, the United States should elevate humanitarian access as a foreign policy priority and work to reconcile tensions between critical national security measures and the growing needs of vulnerable populations in fragile, conflict-affected states. This report is the result of the CSIS Task Force on Humanitarian Access.

Testing 3, 2, 1 Michael Lawrence 2020-03-23 Testing 3, 2, 1 is the story of how Australian education fell behind the world's best and how Finland came to lead. It is also a guide to how some of Finland's ideas can be used by teachers and schools to begin to reverse the current malaise of Australia's education system. Part memoir, part investigative journalism, part call-to-action, this easy-to-read and highly compelling plea for an improved education system can't be ignored ... Lawrence reminds us that we can (and must) do better. - Jared Cooney Horvath PhD, Educational Neuroscientist, Melbourne Graduate School of Education, University of Melbourne. Author of Stop Talking, Start Influencing: 12 Insights from Brain Science to Make Your Message Stick

The Nature of Data Jenny Goldstein 2022 "By synthesizing scholarly work at the intersection of political ecology, digital geography, and science and technology studies, "The Nature of Data" analyzes how new digital technologies affect environments and their control"--

The Presence of China and the Chinese Diaspora in Portugal and Portuguese-Speaking Territories 2021-09-06 This book brings together works by specialists from various areas of the social sciences to reflect on the presence of China in Portugal and in Portuguese-speaking territories. From the first Chinese coolies that migrated to the former Portuguese colonies more than 100 years ago, to the current investments along the Belt and Road Initiative, we take the pulse of this historic, social, political and economic presence and flows, that continues to renew and reinvent itself in the face of the challenges of contemporaneity.

The Global Smartphone Daniel Miller 2021-05-06 The smartphone is often literally right in front of our nose, so you would think we would know what it is. But do we? To find out, 11 anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide 'perpetual opportunism', as they are always with us. The authors show how the smartphone is more than an 'app device' and explore differences between what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile money in Cameroon and Uganda, and access to health information in Chile and Ireland – all alongside diverse trajectories of ageing in Al Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people's lives around the world.

Judging Jewish Identity in the United States Annalise E. Glauz-Todrank 2022-10-15 "This book analyzes how concepts of race and religion were interpreted in the 1987 U.S. Supreme Court case Shaare Tefila Congregation v. Cobb, the first case to provide race-based legal protection to American Jews. The author examines how the judges viewed the White-perceived Jews as well as the congregants' reactions and embodied experiences"--

On the Question of Truth in the Era of Trump 2020-04-28 Utilizes critical theory perspectives to examine the construction of truth and relativism with a focus on the role of the media in the wake of the 2016 election.

Dossey & Keegan's Holistic Nursing: A Handbook for Practice Mary A. Blaszkowski Helming 2020-11-23 Dossey & Keegan's Holistic Nursing: A Handbook for Practice, Eighth Edition covers basic and advanced concepts of holism, demonstrating how holistic nursing spans all specialties and levels. This text is distinguished by its emphasis on theory, research, and evidence-based practice essential to holistic nursing.

China Dreams Jane Golley 2020-04-16 The year 2019 marked a number of significant anniversaries for the People's Republic of China (PRC), each representing different 'Chinese dreams'. There was the centennial of the May Fourth Movement — a dream of patriotism and cultural renewal. The PRC celebrated its seventieth anniversary — a dream of revolution and national strength. It was also thirty years since the student-led Protest Movement of 1989 — dreams of democracy and free expression crushed by government dreams of unity and stability. Many of these 'dreams' recurred in new guises in 2019. President Xi Jinping tightened his grip on power at home while calling for all citizens to 'defend China's honour abroad'. Escalating violence in Hong Kong, the ongoing suppression of Uyghurs in Xinjiang, and deteriorating Sino-US relations dominated the headlines. Alongside stories about China's advances in artificial intelligence and genetically modified babies and its ambitions in the Antarctic and outer space, these issues fuelled discussion about what Xi's own 'China Dream' of national rejuvenation means for Chinese citizens and the rest of the world. The China Story Yearbook: China Dreams reflects on these issues and more. It surveys the dreams, illusions, aspirations, and nightmares that coexisted (and clashed) in 2019 in China and beyond. As ever, we take a cross-disciplinary perspective that recognises the inextricable links between economy, politics, culture, history, language, and society. The Yearbook, with its accessible analysis of the main events and trends of the year, is an essential tool for understanding China's growing power and influence around the world.

Morrison's Miracle Anika Gauja 2020-07-01 This book, the 17th in the federal election series and the ninth sponsored by the Academy of the Social Sciences in Australia, provides a comprehensive account of the 2019 Australian election, which resulted in the surprise victory of the Coalition under Scott Morrison. It brings together 36 contributors who analyse voter behaviour, campaign strategies, regional variations, polling, ideology, media and the new importance of memes and digital campaigning. Morrison's victory underlined the continuing trend toward the personalisation of politics and the loss of trust in political institutions, both in Australia and across western democracies. Morrison's Miracle is indispensable for understanding the May 2019 Coalition victory, which surprised many observers and confounded pollsters and political pundits.

Democracy in Indonesia Thomas Power 2020-08-19 Indonesia has long been hailed as a rare case of democratic transition and persistence in an era of global democratic setbacks. But as the country enters its third decade of democracy, such laudatory assessments have become increasingly untenable. The stagnation that characterized Susilo Bambang Yudhoyono's second presidential term has given way to a more far-reaching pattern of democratic regression under his successor, Joko Widodo. This volume is the first comprehensive study of Indonesia's contemporary democratic decline. Its contributors identify, explain and debate the signs of regression, including arbitrary state crackdowns on freedom of speech and organization, the rise of vigilantism, deepening political polarization, populist mobilization, the dysfunction of key democratic institutions, and the erosion of checks and balances on executive power. They ask why Indonesia, until recently considered a beacon of democratic exceptionalism, increasingly conforms to the global pattern of democracy in retreat.

Persian Gulf 2020 P.R. Kumaraswamy 2020-12-24 The Persian Gulf 2020 is the eighth in the annual Persian Gulf series published by MEI@ND. It is a comprehensive analysis of India's bilateral relations with the nine countries in the Persian Gulf and the GCC and focuses on developments in 2019. It gives a comprehensive account of the internal political, economic and security situation in the Persian Gulf countries and India's strategic, political, economic and cultural engagements with the region. The book also offers policy recommendations based on the current state of affairs.

A President's Daily Brief: Years 1-4 Micah Fisher-Kirshner

What was daily life under the Trump presidency really like?

An accessible ebook with short, thematic entries showing the corruption of the entire Trump presidency, A President's Daily Brief, Year 1-4: The Day-by-Day Lurch of Trump's Norm-Breaking Presidency is the full volume of Micah Fisher-Kirshner's series, representing the four years of Trump's time in power and the subversion that occurred. More than a compiled list of significant events that portray Trump as the most corrupt American president, this digestible and scannable read of in-the-moment posts pulled from news outlets and credible sources provides an intimate look at how the administration went about breaking the presidential norms on a daily basis. Readers also will have access to citations to fact-check claims.

This quick read on a Trump presidency that started off with outrage and graduated to righteous indignation is a must-have for those who enjoy history, politics, and government or simply want to read about the most notorious presidency in history.

The Public Archaeology of Treasure Howard Williams 2022-09-01 Select proceedings of the 5th University of Chester Archaeology Student Conference (31 January 2020) reflect on the shifting and conflicting meanings, values and significances for treasure in archaeology's public engagements, interactions and

manifestations.

Science and Global Challenges of the 21st Century -- Science and Technology Alvaro Rocha 2021 This book comprises the proceedings of the International Perm Forum "Science and Global Challenges of the 21st Century" held on October 18th-23rd, 2021, at Perm State University, Perm, Russia. Global challenges, which determine the main trends in the development of social and economic life in the XXI century, require the integration of specialists in various fields of knowledge. That is why the main principle of this edition is interdisciplinarity, the formation of end-to-end innovation chains, including fundamental and applied research, and the wide application of smart innovations, networks, and information technologies. The authors seek to find synergy between technologies and such fields as computer science, geosciences, biology, linguistics, social studies, historical studies, and economics. The book is of interest to researchers seeking nontrivial solutions at the interface of sciences, digital humanities, computational linguistics, cognitive studies, machine learning, and others

The Politics of Authenticity and Populist Discourses Christoph Kohl 2021-02-12 This edited volume breaks new ground and opens up new perspectives by capturing the role played by claims to authenticity in populist discourses in Brazil, India and Ukraine. By conceiving of both triumphant populism and increasing demands for authenticity as expressions of crisis, the volume seeks to satisfy the need to take a closer look at yearnings for orientation in a globalised world that is often associated with rapid social change and the disappearance of old certainties. Starting from the assumption that media play a crucial role for populist discourses of authenticity, the volume moves beyond conventional and social media by expanding its focus to media in formal education, notably school textbooks and curricula. These two particular media formats lastingly shape younger generations and thus the future. The proposed volume adopts global perspectives from three postcolonial countries that are often beyond the scope of studies dealing with populist discourses and media entanglements – insights that contribute new aspects to international scholarly debates.

SADC Gender Protocol 2019 Barometer Morna, Colleen Lowe 2019-08-23 Scoring another goal for gender equality, the 2019 Southern African Development Community (SADC) Gender Protocol Barometer breaks with past tradition in focusing solely on Sexual and Reproductive Health and Rights. Measuring 100 indicators across seven themes, the Barometer is the first civil society shadow report on SADC's new SRHR Strategy Score Card, ranking countries based on their performance, while offering detailed analysis and insights into what is changing and still needs to change. The no-hold-barred #VoiceandChoice Barometer features the first stand-alone chapters on Adolescent Sexual and Reproductive Health and Rights, Safe Abortion, and Sexual Diversity. It provides the data that underpins 40 national campaigns led the focal networks of the Southern African Gender Protocol Alliance, and 174 local campaigns led by the Centres of Excellence for Gender in Local Government. A must read for all those committed to Action and Results for Agenda 2030 in the SADC region.

Pastels and Pedophiles Mia Bloom 2021-06-15 A NEW YORK TIMES EDITORS' PICK / TOP 10 RECOMMENDED READ Two experts of extremist radicalization take us down the QAnon rabbit hole, exposing how the conspiracy theory ensnared countless Americans, and show us a way back to sanity. In January 2021, thousands descended on the U.S. Capitol to aid President Donald Trump in combating a shadowy cabal of Satan-worshipping pedophiles. Two women were among those who died that day. They, like millions of Americans, believed that a mysterious insider known as "Q" is exposing a vast deep-state conspiracy. The QAnon conspiracy theory has ensnared many women, who identify as members of "pastel QAnon," answering the call to "save the children." With Pastels and Pedophiles, Mia Bloom and Sophia Moskalenko explain why the rise of QAnon should not surprise us: believers have been manipulated to follow the baseless conspiracy. The authors track QAnon's unexpected leap from the darkest corners of the Internet to the filtered glow of yogi-mama Instagram, a frenzy fed by the COVID-19 pandemic that supercharged conspiracy theories and spurred a fresh wave of Q-inspired violence. Pastels and Pedophiles connects the dots for readers, showing how a conspiracy theory with its roots in centuries-old anti-Semitic hate has adapted to encompass local grievances and has metastasized around the globe—appealing to a wide range of alienated people who feel that something is not quite right in the world around them. While QAnon claims to hate Hollywood, the book demonstrates how much of Q's mythology is ripped from movie and television plot lines. Finally, Pastels and Pedophiles lays out what can be done about QAnon's corrosive effect on society, to bring Q followers out of the rabbit hole and back into the light.

Sustainability in the Maritime Domain Angela Carpenter 2021-05-29 This volume explores options for a sustainable maritime domain, including maritime transportation, such as, Maritime Spatial Planning (MSP), maritime education and training, maritime traffic and advisory systems, maritime security. Other activities in the maritime domain covered in the book include small-scale fisheries and sustainable fisheries, and greening the blue economy. The book aims to provide the building blocks needed for a framework for good ocean governance; a framework that will serve through the next decade and, and hopefully, well beyond the 2030 milestone of the UN Agenda for Sustainable Development. In short, this book brings together the problems of the current world and sustainable solutions that are in the development process and will eventually materialize in the not so distant future. Additionally, the book presents a trans-disciplinary analysis of integral sustainable maritime transportation solutions and crucial issues relevant to good ocean governance that have recently been discussed at different national, regional and international fora, highlighting ongoing work to develop and support governance systems that facilitate industry requirements, and meet the needs of coastal states and indigenous peoples, of researchers, of spatial planners, and of other sectors dependent on the oceans. The book will be of interest to researchers across many disciplines, especially those that are engaged in cross-sectoral research and developments in the maritime transport sector and across the wider maritime domain. To this end, the book covers areas including natural and social sciences, geographical studies, spatial planning, maritime security and gender studies, as they relate to transport and the wider maritime sector. In addition, the book explores frameworks for sustainable ocean governance being developed under the UN's Agenda for Sustainable Development to 2030. It will also look beyond the 2030 milestone under that Agenda, and will be of use to national and international policymakers and practitioners, government actors at the EU and other regional and national levels and to researchers of ocean governance, sustainability and management, and maritime transport.

Always a Soldier Rob Smith 2020-07-21 Moonlight meets American Sniper in this groundbreaking memoir and political commentary from a bold new voice in American politics. Before he became a war veteran and political analyst, he was a young black man who enlisted in the U.S. Army right out of high school, survived the notoriously brutal Infantry basic training, and served while remaining a closeted gay man to all but a few of his colleagues. At his first duty station, he finds himself in dangerous territory when the United States declares war on Iraq; in fact, his unit was one of the first called in after the initial invasion. Rob's experience offers a ground-level view of life on the front lines in the United States Army in an unforgettable coming-of-age story with a military twist. In addition to his memoir, Always a Soldier highlights his thoughts on current hot-button political topics like the new crop of Black Republicans and the escalating tactics of the LGBTQ community, announcing him as a voice in American politics that will be heard for years to come.

Authoritarianism and Civil Society in Asia Anthony J. Spiers 2022-07-08 This book represents a pioneering interdisciplinary effort to analyze Asian civil society under authoritarianism, a regime type that is re-appearing or deepening after several decades of increased political liberalization. By organizing its approach into four main themes, this volume succinctly reveals the challenges facing civil society in authoritarian regimes, including: actions under political repression, transitions to democracy, uncivil society, political capture and legal control. It features in-depth analyses of a variety of Asian nations, from 'hard' authoritarian regimes, like China, to 'electoral' authoritarian regimes, like Cambodia, whilst also addressing countries experiencing democratic regression, such as the Philippines. By highlighting concrete responses and initiatives taken by civil society under authoritarianism, it advances the intellectual mandate of redefining Asia as a dynamic and interconnected formation and, moreover, as a space for the production of new theoretical insight. Contributing to our understanding of the tensions, dynamics, and potentialities that animate state-society relations in authoritarian regimes, this will be essential reading for students and scholars of civil society, authoritarianism, and Asian politics more generally.

The Oxford Handbook of Sport and Society LAWRENCE A. WENNER 2022-10-04 "The Oxford Handbook of Sport and Society features leading international scholars' assessments of scholarly inquiry about sport and society. Divided into six sections, chapters consider dominant issues within key areas, approaches (theory and method) featured in inquiry, and debates needing resolution. Part I: Society and Values considers matters of character, ideology, power, politics, policy, nationalism, diplomacy, militarism, law, ethics, and religion. Part II: Enterprise and Capital considers globalization, spectacle, mega-events, Olympism, corruption, impacts on cities, communities, and the environment, and the press of leadership cultures, economic imperatives, and marketing. Part III: Participation and Cultures considers questions of health and well-being, violence, the medicalization of injury, influences of science and technology, substance use and abuse, the roles of coaching and emotion, challenges of child maltreatment, climates for scandal and athlete activism, and questions over animals in sporting competition. Part IV: Lifespan and Careers considers child socialization, youth and elite athlete development, the roles of sport in education and social mobility, migratory sport labor practices, arcs defining athletic careers, aging, and retirement, and emergent lifestyle sport cultures. Part V: Inclusion and Exclusion considers sport's role in social inclusion and exclusion, development and discrimination, and features treatments of race and ethnicity, indigenous experiences, the intersection of bodily ideals, obesity, and disability, and the gendered impacts on masculinities, femininities, and non-binary experience. Part VI: Spectator Engagement and Media considers sporting heroism and celebrity, fandom and hooliganism, gambling and match-fixing, and the influences of sport journalism, television and film treatments, advertising, and new media"--

Money Mohammad Ashraf 2020-10-05 This book clarifies some misunderstandings about money by tying the concept of money to the goods and services sector of the economy. In addition, it demystifies the process of money creation on the part of central banks. The phenomenon of money is ubiquitous; it has been around for tens of thousands of years, if not longer. Indeed, no modern economy could function without money. For many, however, the concept of

money remains elusive. Worse still, misinformation abounds, which leaves the uninitiated vulnerable to fraud. This lack of understanding has serious policy implications as well. When policymakers lack a firm grasp of the concept, policy is likely to be flawed and its effects are likely to be detrimental to the body politic. After providing a brief history of money, the author details the role of money in the division of labor and specialization, in economic growth, and in an interconnected world. Throughout the book, he points out the pitfalls of fallacious thinking. In recent policy debates, such thinking has led to proposals ranging from the re-institution of the gold standard to supplying limitless money as suggested by Modern Monetary Theory.

American Dementia Daniel R. George 2021-09-14 "The authors argue for a strong connection between public health and social policies that have boosted access to education; quality health care; cleaner air, soil, and water; and a reduction in Alzheimer's disease and dementia. They question the assumption of many that developing a pharmaceutical cure is the best hope for addressing Alzheimer's"--

Donald Trump and New Hampshire Politics Christopher J. Galdieri 2019-09-03 The state of New Hampshire has played a pivotal role in Donald Trump's rise. This volume examines how the Granite State incubated Trump's political ambitions as early as the 1988 campaign cycle, how Trump's return to the state in 2014 presaged his 2016 candidacy, and how the state rescued his ambitions after his defeat in the Iowa caucuses. The book also examines how Trump lost the state to Hillary Clinton in the general election, and how the state has in many ways been a microcosm of national politics since Trump's election, as a Republican governor and legislature attempt to pursue their long-deferred agenda in the face of Democratic opposition and as Democrats racked up victories in special and off-year elections. Finally, this book examines what Trump's impact will be on the 2020 presidential primaries.

American Ingrate Benjamin Weingarten 2020-03-17 She says that America was "founded by the genocide of indigenous people and on the backs of slaves," and that "ignorance really is pervasive" among Americans today. She says America must "dismantle" capitalism and "demilitarize" U.S. foreign policy, which she sees "from the perspective of a foreigner," tweeting "thousands of Somalis [were] killed by...American forces...#NotTodaySatan." She says American support for Israel is "all about the Benjamins baby;" and that American Jews disloyally pledge "allegiance" to Israel's "apartheid...regime," which has "hypnotized the world." She says of the 9/11 attacks: "some people did something." Shockingly, Congresswoman Ilhan Omar's (D-MN) words merely scratch the surface of her hatred of America—and the West—and divert our gaze from the nefarious actions she is taking to sabotage it from within. American Ingrate is the defining book on the size, scope, and nature of the threat posed by Representative Omar—the personification of the anti-American Left-Islamist nexus—heightened by her hidden collusion with like-minded adversaries foreign and domestic, and alleged criminality and corruption. This is a clarion wakeup call to the dangers epitomized by Rep. Omar. For she is not merely a lone radical in Congress, but the archetype of the new Democratic Party—and a uniquely dangerous figure at the heart of a uniquely dangerous challenge to America.

Handbook of Research on Social Impacts of E-Payment and Blockchain Technology Lai, P.C. 2021-12-10 The social landscape is undergoing a global change with the emergence of e-payment and blockchain technology. This new technology changes the ways in which consumers and businesses interact with each other. This dynamic offers both opportunities and challenges to the socioeconomic landscape. It is important to understand the strategies, opportunities, and challenges contained in the e-payment and blockchain sector. The Handbook of Research on Social Impacts of E-Payment and Blockchain Technology is a comprehensive reference source that examines the strategies, opportunities, and challenges contained in the value creation of e-payment and blockchain technology, which lead to economic and social progression. Further delving into topics such as mobile financial services, technopreneurship, and cryptocurrencies, this dynamic resource is essential for students, academicians, entrepreneurs, corporate managers, business executives, researchers, blockchain professionals, technologists, systems engineers, policymakers, and government officials.

Research Handbook on the Belt and Road Initiative Chinyong Liow, Joseph 2021-10-26 This timely Research Handbook investigates the radically transformative impact of the Belt and Road Initiative (BRI), addressing key questions regarding its economic, political and strategic consequences: what does the Chinese government hope to achieve with the BRI? How have recipient states responded? And what are its potential opportunities and risks?
