Coup d'État Jerome R. Corsi 2020-03-03 The Deep State isn't finished trying to destroy President Donald Trump—they've only just begun. Coup d'Etat blows the lid off the Deep State's efforts to prevent the Trump presidency, disrupt his agenda, and prevent his reelection. In this book you'll learn: • The truth behind Robert Mueller's Special Counsel baseless investigation. • The identity of the Trump cabinet member who proposed wearing a wire to take down Trump. • How the FBI entrapped members of the Trump team—and how they unsuccessfully tried the same with Corsi. • How the Democratic establishment faked evidence of Russian interference. • The truth behind Julian Assange's arrest, and what the Deep State wants to prevent him from exposing. • How the FBI abused FISA law to spy on Trump—and how they tried to hide it. • Mueller's continued coverup that the media refuses to report. This is the book the Deep State and the media don't want you to read.

The Islamic State in Africa Jason Warner 2022-04-01 In 2019, Islamic State lost its last remaining sliver of territory in Syria, and its Caliph, Abu Bakr al-Baghdadi, was killed. These setbacks seemed to herald the Caliphate's death knell, and many now forecast its imminent demise. Yet its affiliates endure, particularly in Africa: nearly all of Islamic State's cells on the continent have reaffirmed their allegiance, attacks have continued in its name, many groups have been reinvigorated, and a new province has emerged. Why, in Africa, did the two major setbacks of 2019 have so little impact on support for Islamic State? The Islamic State in Africa suggests that this puzzle can be explained by the emergence and evolution of Islamic State's provinces in Africa, which it calls 'sovereign subordinates'. By examining the rise and development of eight Islamic State 'cells', the authors show how, having pledged allegiance to IS Central, cells evolved mostly autonomously, using the IS brand as a means for accrual of power, but, in practice, receiving relatively little if any direction or material support from central command. Given this pattern, IS Central's relative decline has had little impact on its African affiliates—who are likely to remain committed to the Caliphate's cause for the foreseeable future.

Save Lives Or Save the Rhetoric? David H Goldenberg 2020-12-15 This book is about logic and evidence and its antithesis, fallacies, and powerful rhetoric. Small States and the New Security Environment Anne-Marie Brady 2020-11-23 This book examines the security, defence and foreign policy choices and challenges of small states in NATO and its small partner states in the new security environment. The main aim of the book is to analyse how these states are dealing with current and emerging security challenges and how they might better prepare for these challenges. A special focus is on 'new' security threats and solutions, such as drones and hybrid warfare. Simultaneously, the book focusses on how small states are responding to emerging 'old threats', such as Russian aggression in its neighbouring states and increased activity in the North Atlantic. The book makes an attempt to answer questions like: How are the small states of NATO and its small partner states adjusting to the new geo-political and geo-economic environment? Do small states in NATO manage the tension between alliance commitments differently from small states that are not members of NATO? What are the core strategic interests of the NATO and non-NATO partner small states? The book is about the external dimension of inherent size-related difficulties in states and how small states compensate for their inbuilt structural weaknesses compared with their larger neighbouring states. One third of the member states of NATO are small and most NATO partner states are small states too. Small states frequently have a disproportionate effect on global politics and they are more often affected by global shifts of power, yet they have less resources available to address security challenges. The aim of the book is to enhance the understanding of the role of small states in the changing global international security environment. The book presents the theory of shelter (which is derived from the diverse and extensive literature on small states) and uses it to examine how small states respond to new and old security threats. Shelter theory addresses three interrelated issues of common concerns to small states: the reduction of risk before a possible crisis event, assistance in absorbing shocks in times of crises, and help in recovering after such an event. In short, shelter theory claims that small states need external shelter in order to survive and prosper. They are dependent on the economic, political, and societal shelter provided by larger states, as well as regional and international organizations.

Refugees Nathan Bell 2021-03-25 In *Refugees*, Nathan Bell argues for nothing less than a new concept of the political: that societies (liberal or not, in the mode of the sovereign state or some other form) embrace an ethos of responsibility for others, where the right to seek asylum becomes foundational for politics itself.

Afro-Latinos in the U.S. Economy Michelle Holder 2021-05-18 *Afro-Latinos in the U.S. Economy* outlines the current status of Afro-Latinos in the U.S. economy. The goal of this book is to provide a foundation in the economic dimensions of American Afro-Latinos which can be used to supplement research about this group in other social science disciplines.

Guide to Risk Factors for Elections in the G5 Sahel Region: Factors External to the Electoral Process Sead Alihodzic 2020-07-21 The G5 Sahel countries—Burkina Faso, Chad, Mali, Mauritania and Niger—will organize elections in 2020 and 2021. These elections will take place in a context in which all are facing serious humanitarian and securities challenges, aggravated by the fragility of their institutions. The spread of the COVID-19 pandemic and its socioeconomic impacts worsen the situation and even raise questions about the possibility to organize elections in so volatile an environment. This Guide has been developed to assist decision-makers and practitioners in this context.

American Ingrate Benjamin Weingarten 2020-03-17 She says that America was “founded by the genocide of indigenous people and on the backs of slaves,” and that “ignorance really is pervasive” among Americans today. She says America must “dismantle” capitalism and “demilitarize” U.S. foreign policy, which she sees “from the perspective of a foreigner,” tweeting “thousands of Somalis [were] killed by...American forces...#NotTodaySatan.” She says American support for Israel is “all about the Benjamins baby;” and that American Jews disloyally pledge “allegiance” to Israel's “apartheid...regime,” which has “hypnotized the world.” She says of the 9/11 attacks: “some people did something.” Shockingly, Congresswoman Ilhan Omar's (D-MN) words merely scratch the surface of her hatred of America—and the West—and divert our gaze from the nefarious actions she is taking to sabotage it from within. *American Ingrate* is the defining book on the size, scope, and nature of the threat posed by Representative Omar—the personification of the anti-American Left-Islamist nexus—heightened by her hidden collusion with like-minded adversaries foreign and domestic, and alleged criminality and corruption. This is a clarion wakeup call to the dangers epitomized by Rep. Omar. For she is not merely a lone radical in Congress, but the archetype of the new Democratic Party—and a uniquely dangerous figure at the heart of a uniquely dangerous challenge to America.

Like Nobody's Business Andrew C. Comrie 2021-02-23 How do university finances really work? From flagship public research universities to small, private liberal arts colleges, there are few aspects of these institutions associated with more confusion, myths or lack of understanding than how they fund themselves and function in the business of higher education. Using simple, approachable explanations supported by clear illustrations, this book takes the reader on an engaging and enlightening tour of how the money flows. How does the university really pay for itself? Why do tuition and fees rise so fast? Why do universities lose money on research? Do most donations go to athletics? Grounded in hard data, original analyses, and the practical experience of a seasoned administrator, this book provides refreshingly clear answers and comprehensive insights for anyone on or off campus who is interested in the

business of the university: how it earns its money, how it spends it, and how it all works.

American Fascism Brynn Tannehill 2021-04-20 Trump is out of the White House, but American democracy is on the ropes and teetering on the brink of competitive authoritarianism controlled by theocrats and oligarchs. With its cherished institutions hobbled, political norms trampled, guardrails severely damaged, and body politic divided by chasms of race and geography, can the U.S. survive another administration dedicated to establishing de facto single party rule? In this compelling, comprehensive analysis, Brynn Tannehill draws on her expertise in studying the collapse of weak democracies around the globe and her previous research in law, political science, economics and right-wing populism to explain the trajectory of how we got here and the current threats we face. Most importantly, she analyzes what the characteristics of fascism are, if they are applicable to the base of the GOP today, and what that means for us should they succeed in establishing permanent minoritarian rule. *American Fascism* is a surgical analysis of 250 years of struggle for democracy in America and a prescient prognosis of what's to come if we do not heed Tannehill's warnings and advice.

When Women Lead Julia Boorstin 2022-10-11 "Filled with top-notch research, practical insight, and stories from the most inspiring women in business, Julia Boorstin lays out a new, inclusive vision for leadership and our world at large." —Arianna Huffington, founder and CEO of Thrive "A must-read for all leaders as they consider the future of work." —Eve Rodsky, New York Times bestselling author of *Fair Play* and *Find Your Unicorn Space* A groundbreaking, deeply reported work from CNBC's Julia Boorstin that reveals the key commonalities and characteristics that help top female leaders thrive as they innovate, grow businesses, and navigate crises—an essential resource for anyone in the workplace. Julia Boorstin was thirteen when her mother told her that, by the time she grew up, women could be just as powerful as men, "captains of industry, running the biggest companies!" A decade later, working at a top business publication and seeing the dearth of women in positions of leadership, Boorstin assumed her mom had been wrong. But over the following two decades as a TV reporter and creator of CNBC's *Disruptor 50* franchise, interviewing, and studying thousands of executives, she realized that a gender-equity utopia shouldn't be a pipe dream. Yes, women faced massive social and institutional headwinds, and struggled with double standards and what psychologists call "pattern matching." Yet those who thrived, Boorstin found, shared key commonalities that made them uniquely equipped to lead, grow businesses, and navigate crises. They were highly adaptive to change, deeply empathetic in their management style, and much more likely to integrate diverse points of view into their business strategies, filling voids that their male counterparts had overlooked for generations. By utilizing those strengths, they had invented new business models, disrupted industries, and made massive profits along the way. Now, in *When Women Lead*, Boorstin brings together the stories of over sixty of those female CEOs and leaders, and dozens of new studies. Her combination of narrative and research reveals how once-underestimated characteristics, from vulnerability and gratitude to divergent thinking, can be vital superpowers—and that anyone can work these approaches to their advantage. Featuring new interviews with Katrina Lake, Gwyneth Paltrow, Jenn Hyman, Whitney Wolfe Herd, Lena Waithe, Shivani Siroya, Julia Collins, and more, *When Women Lead* is a radical blueprint for the future of business, and our world at large. Mapping Gendered Ecologies K. Melchor Quick Hall 2021-03-15 This collection of women's racialized and gendered mappings of place, people, and nature includes the stories of teachers, organizers, activists, farmers, healers, and gardeners. From their many entry points, the contributors to this work engage crucial questions of coexistence with nature in these times of overlapping climate, health, economic, and racial crises.

Yearbook of International Humanitarian Law, Volume 22 (2019) Terry D. Gill 2020-10-28 The main theme of this volume of the *Yearbook of International Humanitarian Law* is the 70th anniversary of the Geneva Conventions. The evolution of these crucial treaties and international humanitarian law more generally comes back in six chapters addressing topics such as sieges, compliance, indiscriminate attacks and non-state armed groups. The second part of the book contains a chapter on the acquittal on appeal of Jean-Pierre Bemba Gombo by the International Criminal Court on the basis of command responsibility for war crimes, as well as an extensive Year in Review describing the most important events and legal developments in the area of international humanitarian law that took place in 2019. The *Yearbook of International Humanitarian Law* is the world's only annual publication devoted to the study of the laws governing armed conflict. It provides a truly international forum for high-quality, peer-reviewed academic articles focusing on this crucial branch of international law. Distinguished by contemporary relevance, the *Yearbook of International Humanitarian Law* bridges the gap between theory and practice and serves as a useful reference tool for scholars, practitioners, military personnel, civil servants, diplomats, human rights workers and students.

2019 FIFA Women's World Cup Molly Yanity 2021-08-12 This book examines the most prolific international women's football tournament—the FIFA Women's World Cup—through media, fandom and how mediated women's soccer can improve on a global scale. Women's soccer has exploded in terms of media exposure, television audiences and live spectatorship. This book explores those macro-level issues, while also digging into micro-level topics such as Megan Rapinoe's celebrations and political activism, VAR reviews, LGBTQ imagery, and cultural obstacles for women's football in Central-Eastern Europe and Nigeria. Using an interdisciplinary approach, scholars look at issues through the lenses of feminist theory, cultural studies, rhetorical criticism, political economy, performative sport fandom, autoethnography, and more. Thus, the book is important reading for students, researchers and media practitioners with interests in women's soccer, gender in sports media, coverage of women's sport, and sport fandom.

All Roads Lead North Amish Raj Mulmi 2022-05-01 During the June 2020 territorial dispute over Kalapani, India blamed tensions on a newly assertive Nepal's deepening relations with China. But beyond the accusations and grandstanding, this reflects a new reality: the power equations in South Asia have been redrawn, to make space for China. Nepal did not turn northwards overnight. Its ties with China have deep historical roots built on Buddhism, dating to the early first millennium. While India's unofficial 2015 blockade provided momentum to the rift with Delhi, Nepal has long wanted deeper ties with Beijing, to counteract India's oppressive intimacy. With China's growing South Asian and global ambitions, Nepal now has a new primary bilateral partner—and Nepalis are forging a path towards modernity with its help, both in the remote borderlands and in the cities. *All Roads Lead North* offers a long view of Nepal's foreign relations, today underpinned by China's world-power status. Sharing never-before-told stories about Tibetan guerrilla fighters, failed coup leaders and trans-Himalayan traders, Nepal analyst Amish Raj Mulmi examines the histories binding mountain communities together across the Sino-Nepali border. Part history, part journalistic account, Mulmi's is a complex, compelling and rigorously researched study of a small country caught between two neighbourhood giants.

Family Separation and the U.S.-Mexico Border Crisis Laurie Collier Hillstrom 2020-07-31 This volume provides an authoritative, evenhanded overview of the Trump administration's family separation and child detention policies at the U.S.-Mexico border—and the impact of those policies and actions on children, their parents, border security, and American politics. The 21st Century Turning Points series is a one-stop resource for understanding the people and events changing America today. Each volume provides readers with a clear, authoritative, and unbiased understanding of a single issue or event that is driving national debate about our nation's leaders, institutions, values, and priorities. This particular volume is devoted to the issue of child migrant detention on the U.S.-Mexico border. It provides background information on the political, social, and economic forces driving undocumented immigration into America; explains the policies and records of both the Obama and Trump administrations on immigration, deportation, and border security; summarizes current laws and regulations governing U.S. border and immigration policies; recounts President Trump's rhetoric and record on both legal and "illegal" immigration, including his promise to build a "Border Wall" with funds from Mexico; surveys living conditions in the border detention centers operated by U.S. authorities; and discusses the impact of detention and family separation on children taken into custody. Entries devoted to specific events and milestones Biographical profiles of important activists and figures Essays that explore the lasting impact of child detention on migrant children, their

families, immigration trends, and American politics and society Annotated bibliography of sources for further study

Alt-Right Movement Ipsita Chatterjee 2021-05-03 First prize for Excellence in Book Production 2021 The Alt-Right movement has gained prominence in recent years after distinguishing itself from traditional conservatism and mobilizing support on social media. Its critique of contemporary diversity politics is now gaining considerable attention. Alt-Right Movement: Dissecting Racism, Patriarchy and Anti-immigrant Xenophobia presents a comprehensive study of the Alt-Right movement by examining its objectives and strategies through speeches, tweets and media responses of its followers. The book traces the movement's ideological pioneers and analyses reports of right-wing think tanks to understand how the Alt-Right conceives of its identity, perceives 'the other' and gains popular support. The study explores the Alt-Right's complex reconciliation of individualism with group identity and the movement's controversial attitude towards gender, race, nationalism and immigration. These findings become the basis for exploring extremist identity politics juxtaposed against the possibility of coexistence in an increasingly polarized world.

Digital Authoritarianism in the Middle East Marc Owen Jones 2022-07-06 You are being lied to by people who don't even exist. Digital deception is the new face of information warfare. Social media has been weaponised by states and commercial entities alike, as bots and trolls proliferate and users are left to navigate an infodemic of fake news and disinformation. In the Persian Gulf and the wider Middle East, where authoritarian regimes continue to innovate and adapt in the face of changing technology, online deception has reached new levels of audacity. From pro-Saudi entities that manipulate the tweets of the US president, to the activities of fake journalists and Western PR companies that whitewash human rights abuses, Marc Owen Jones' meticulous investigative research uncovers the full gamut of tactics used by Gulf regimes and their allies to deceive domestic and international audiences. In an age of global deception, this book charts the lengths bad actors will go to when seeking to impose their ideology and views on citizens around the world.

Denial, Delay, Diversion Jacob D. Kurtzer 2019-11-18 Principled humanitarian action is under attack around the world. Globally, 70.8 million people are considered forcibly displaced by armed conflict and nearly 132 million people need emergency humanitarian assistance. At the same time, there has been a steep escalation in the deliberate, willful obstruction of humanitarian access, impeding the ability of humanitarian aid to reach the most vulnerable people and vice versa. As humanitarian emergencies become increasingly complex and protracted, blocked humanitarian access will only increase without urgent action. To ensure the ability of aid to reach those who need it most and to uphold the principles of international humanitarian law, the United States should elevate humanitarian access as a foreign policy priority and work to reconcile tensions between critical national security measures and the growing needs of vulnerable populations in fragile, conflict-affected states. This report is the result of the CSIS Task Force on Humanitarian Access.

Politics and Racism Beyond Nations John Patrick Linstroth 2022 This book brings together theoretical knowledge from diverse fields as anthropology, biology, neurology, peace studies, political science, psychology, and sociology to address key challenges that transcend borders. It demonstrates how differences are created on many levels to reveal how the "othering project" is evident through national policies of immigration, through aspiring nationalisms, through genocidal inhumanity, and the subsequent effects of such othering evident in racial trauma. It further argues that we cannot limit our understanding of racism to forms of "white nationalism" or "whiteness movements" in the developed world and regions but look to the global formulation of such discrimination in colonial histories. The book introduces each chapter by providing rich ethnographic narratives from informants based upon the author's research on nationalism, racism, genocide, terrorism, trauma, scientific tolerance, and love and peace as well as some auto-ethnographic narratives from the author's research on these themes. J.P. Linstroth is Adjunct Professor at Barry University, USA, and an Honorary Professor of Anthropology and Faculty Member at Catholic University of New Spain, USA. He is the author of Marching Against Gender Practice: Political Imaginings in the Basqueland (2015), co-recipient of an Alexander von Humboldt Grant, and former Fulbright Scholar to Brazil. He has a D.Phil. degree in Social and Cultural Anthropology from the University of Oxford.

Crackup Samuel L. Popkin 2021 "In 2016, a businessman so discredited that he could no longer get a casino license or borrow money from an American bank was elected President of the United States of America. How did this happen? It is easy to mock and ridicule Donald Trump as if he is the problem. In fact, he is a symptom of a much larger issue that has been bedeviling the GOP for nearly two decades: an intraparty crackup of massive proportions. By "crackup," I mean a breakdown of the fragile alliances between coalitions within a party that prevents its leaders from developing goals they can deliver on when they control the White House and majorities in the House and Senate. This introductory chapter explains why party crackups are inevitable in a federal system with national money and local primaries. But this is the first time -- for either party - that no group within the party could create a synthesis of old orthodoxies and new realities that altered the party's direction enough to build a new consensus"--

Whiteness, Power, and Resisting Change in US Higher Education Kenneth R. Roth 2020-12-22 This edited volume connects the origins of US higher education during the Colonial Era with current systemic characteristics that maintain white supremacist structures and devalue students and faculty of color, as well as areas of study that interrogate Whiteness. The authors examine power structures within the academy that scaffold Whiteness and promote inequality at all levels by maintaining a two-tier faculty system and a dearth of Faculty and Administrators of Color. Finally, contributors offer systemic and collective solutions toward a more equitable redistribution of power, primarily among faculty and administration, through which other

inequities may be identified and more easily addressed.

What Makes Effective Whistleblowing Carmen R. Apaza 2020-08-19 This book analyzes whistleblowing worldwide publicly known cases from Belgium, Brazil, Finland, Japan and The Philippines to ascertain factors that make for effective whistleblowing. The work concludes that external whistleblowing, extensive mass media coverage, and strong evidence are essential components of effective whistleblowing.

Urban Informatics Wenzhong Shi 2021-04-06 This open access book is the first to systematically introduce the principles of urban informatics and its application to every aspect of the city that involves its functioning, control, management, and future planning. It introduces new models and tools being developed to understand and implement these technologies that enable cities to function more efficiently – to become ‘smart’ and ‘sustainable’. The smart city has quickly emerged as computers have become ever smaller to the point where they can be embedded into the very fabric of the city, as well as being central to new ways in which the population can communicate and act. When cities are wired in this way, they have the potential to become sentient and responsive, generating massive streams of ‘big’ data in real time as well as providing immense opportunities for extracting new forms of urban data through crowdsourcing. This book offers a comprehensive review of the methods that form the core of urban informatics from various kinds of urban remote sensing to new approaches to machine learning and statistical modelling. It provides a detailed technical introduction to the wide array of tools information scientists need to develop the key urban analytics that are fundamental to learning about the smart city, and it outlines ways in which these tools can be used to inform design and policy so that cities can become more efficient with a greater concern for environment and equity.

Handbook of Research on Innovation and Development of E-Commerce and E-Business in ASEAN Almunawar, Mohammad Nabil 2020-08-28 Business-to-consumer (B2C) and consumer-to-consumer (C2C) e-commerce transactions, including social commerce, are rapidly expanding, although e-commerce is still small when compared to traditional business transactions. As the familiarity of making purchases using smart devices continues to expand, many global and regional investors hope to target the ASEAN region to tap into the rising digital market in this region. The Handbook of Research on Innovation and Development of E-Commerce and E-Business in ASEAN is an essential reference source that discusses economics, marketing strategies, and mobile payment systems, as well as digital marketplaces, communication technologies, and social technologies utilized for business purposes. Featuring research on topics such as business culture, mobile technology, and consumer satisfaction, this book is ideally designed for policymakers, financial managers, business professionals, academicians, students, and researchers.

Financial Markets (Dis)Integration in a Post-Brexit EU Dieter Pesendorfer 2020-01-11 The European Union is creating a Financial Union with a European Banking Union and a Capital Markets Union in reaction to lessons learned from incomplete financial markets integration, the Global Financial Crisis and European Sovereign Debt Crisis. This book critically analyses these projects for a more integrated, resilient and sustainable financial system at a time when the United Kingdom as the member state with the most developed capital markets and the leading global and European financial center, the City of London, is leaving the Union. Neoliberal financial globalization and markets integration policies have led to finance-led capitalism that caused the crises. By building on pre-crises integration ideas, the Union revives and expands the reach of capital markets-based financing and shadow banking. The book discusses the consequences of deeper integration and the future of European financial centers advocating an alternative financial markets integration based on theories explaining financialization and finance-led capitalism.

China and the New Silk Road Harald Pechlaner 2020-05-04 This book studies the Chinese “Belt and Road Initiative” (BRI), also called “New Silk Road”, and focuses on its regional and local effects. Written by experts from various fields, it presents a range of case studies on the geopolitical, socio-economic, ecological and cultural implications of the BRI for European regions and their stakeholders. The book is divided into four parts, the first of which discusses the history of and China’s motivations for the BRI. The second part explores the global phenomenon from a number of regional standpoints. In turn, the third part presents studies on the political, socio-economic, cultural and ecological implications of the New Silk Road project. The final part highlights the tourism prospects in connection with the Silk Road project, as tourism has established itself as an important economic sector in many regions along the historic Silk Road. This book will appeal to scholars of economics, international relations and tourism, decision-makers, managers, chambers of commerce and entrepreneurs with special interests in establishing collaboration with the Chinese market.

Freedom, Eudaemonia, and Risk Kathleen Touchstone 2020-12-04 Kathleen Touchstone applies the philosophies of Objectivism, rule-utilitarianism, and neo-Aristotelianism to strategies of risk management. She proposes a risk index model which accounts for probability, virtue, and consequences, utilizing philosophical insight into the gauging of success.

International Business Shad Morris 2020-07-21 Leveraging their extensive background at multi-national corporations, co-authors Shad Morris and James Oldroyd created an International Business course that is current, concise, and easy to implement. As instructors themselves, the authors focused on engaging pedagogy that prepares students for the global marketplace and created interactive resources to deepen the learning experience. This second edition of International Business includes extensive updates including coverage on important topics like COVID-19, Brexit and the US-China trade war. Additionally, the WileyPLUS course provides just-in-time resources like chapter introductory videos, whiteboard animations, cases/case application problems, adaptive practice, and more to help students apply their learning and think critically.

India in the Era of China’s Belt and Road Initiative Anil Sigdel 2020-10-19 Anil Sigdel dives into some of the most interesting trends in international relations, such as the rising influence of China and the instruments it uses to advance its interests worldwide, chiefly among them the Belt and Road Initiative(BRI) and the interplay between China and India, and what means New Delhi employs to come after China in the wider world. To this end, Sigdel takes both a geographic view by analyzing China’s and India’s relations with key regions – South East to Central Asia, Indian Ocean Region and Africa - and a functional view scrutinizing issues of relevance to the main topic – from cultural ties to infrastructure investment and maritime security. In his incisive analysis, Sigdel provides rich details on how India’s partnership is shaping with the major stakeholders in the Indo-Pacific region such US, Japan and France, and how India is balancing these partnerships vis-à-vis the one with Russia. The conclusions point to interesting prospects for the future – China challenge has, in a way, helped India further advance its own ambition of becoming a separate pole or leading power, therefore, India is likely to pursue that status by aligning issue-wise with all the powers.
