Electing Madam Vice President Nichola D. Gutgold 2021-04-19 Electing Madam Vice President presents the presidential bids of the six women who ran for the Democratic nomination for President of the United States in 2020 and the historic, groundbreaking vice-presidential candidacy of Kamala Harris. When Vice President Kamala Harris and her family moved into Number One Observatory Circle, the official Vice Presidential residence of the United States, she claimed a title no other women in the United States ever had: Vice President. She is closer to the United States presidency than any woman in history. Yet, she has repeated often that she is

standing on the shoulders of women who have come before her to try to break down barriers, including the United States Presidency. Often left off the history pages, and out of many Americans' minds, are the bids of women who run for president. The 2020 Democratic primary included the most women ever to run in one election. This book demonstrates the progress women candidates have made as they have moved from symbolic to viable candidates and shines a light on the diminishing obstacles that face women candidates while taking readers on a journey through the victorious progress of a woman United States Vice President.

Small Cities Thinking Big Michael G. Hall 2021-10-08 Many cities with a population of 150,000 or less struggle to compete with their larger neighbors and often have trouble attracting residents and new businesses. This book explores the numerous ways these cities can compete on a larger scale without sacrificing their small-town character. It utilizes experiences from other cities, as well as from the author's time revitalizing Augusta, Maine (pop. 19,000). Featuring chapters that focus on organizing volunteers, adhering to aesthetics, marketing, urban planning, and more, this book tackles key paths every small city should follow when attempting to redevelop its image.

The End of Gender Debra Soh 2020-08-04 International sex researcher, neuroscientist, and columnist Debra Soh debunks popular gender myths in this research-based, scientific examination of the many facets of gender identity. Is our gender something we're born with, or are we conditioned by society? In The End of Gender, neuroscientist and sexologist Dr. Debra Soh uses a research-based approach to address this hot-button topic, unmasking popular misconceptions about the nature vs. nurture debate and exploring what it means to be a woman or a man in today's society. Both scientific and objective, and drawing on original research and carefully conducted interviews, Soh tackles a wide range of issues, such as gender-neutral parenting, gender dysphoric children, and the neuroscience of being transgender. She debates today's

accepted notion that gender is a social construct and a spectrum, and challenges the idea that there is no difference between how male and female brains operate. The End of Gender is a conversation-starting work that will challenge what you thought you knew about gender, identity, and everything in between. Timely, informative, and provocative, it will arm you with the facts you need to come to your own conclusions about gender identity and its place in the world today.

Legacies of Repression in Egypt and Tunisia Alanna C. Based on unique field research, this examines how legacies of authoritarian rule shaped the outcome of Egypt's 2011 founding elections.

China, the UN, and Human Protection Rosemary Foot 2020-05-28 Over a relatively short period of time, Beijing moved from dismissing the UN to embracing it. How are we to make sense of the People's Republic of China's (PRC) embrace of the UN, and what does its engagement mean in

larger terms? This study focuses directly on Beijing's involvement in one of the most contentious areas of UN activity — human protection — contentious because the norm of human protection tips the balance away from the UN's Westphalian state-based profile, towards the provision of greater protection for the security of individuals and their individual liberties. The argument that follows shows that, as an ever-more crucial actor within the United Nations, Beijing's rhetoric and some of its practices are playing an increasingly important role in determining how this norm is articulated and interpreted. In some cases, the PRC is also influencing how these ideas of human protection are implemented. At stake in the questions this book tackles is both how we understand the PRC as a participant in shaping global order, and the future of some of the core norms which constitute that order.

Disrupting Logistics Christian Wurst 2021-03-02 This book presents trends, developments, and examples of how digital disruption is currently reshaping the logistics industry. Teaching Aboriginal Cultural Competence Barbara Hill 2020-11-11 This book examines a collaborative partnership model between academia and Indigenous peoples, the goal of which is to integrate Indigenous perspectives into the curriculum. It demonstrates how the authentic and creative approaches employed have led to an evolution of curriculum and pedagogy that facilitates cultural competence among Australian graduate and undergraduate students. The book pursues

an interdisciplinary approach based on highly practical examples, exemplars and methods that are currently being used to teach in this area. It focuses on facilitating student acquisition of knowledge, understanding, attitudes and skills, following Charles Sturt University's Cultural Competence Pedagogical Framework. Further, it provides insights into the use of reflective practice in this context, and practical ideas on embedding content and sharing practices, highlighting examples of potential "ways forward," both nationally and globally.

Religion and International Relations in the Middle East Sotiris Roussos 2020-12-10 The volume has a twofold purpose: first, to question main presuppositions and perceptions regarding religion and international politics in the Middle East and, second, to reflect on the role(s) of religion in the regional order. The first part deals with the contribution of religion to a post-Western turn in International Relations in the Middle East and beyond. It discusses the postsecular conceptual framework in order to expand their approaches to the analysis of the Middle East and addresses the search for religion's "suitable place" within International Relations, taking as a starting point the social changes in the world and the postulated "Mesopotamian turn" in International Relations. The second part focuses on the role of state-like non-state actors. ISIS challenged the international order because, contrary to revolutionary states in the past, it negates the foundations of the Westphalian system. At the same time, the rise of ISIS had a tremendous impact on the jihadi (sub) system. The third part studies the impact of religion on foreign and security policy (Israel, UAE, UK, and Saudi Arabia). It explores how religion has been shaping each stage of the decision-making process, the position that religion holds in perceptions of stability in the post-2011 era, and the politics of "moderate Islam", arguing that even though "moderate Islam" has been devised for creating "soft power", it serves "sharp power" as well.

What Does Theology Do, Actually? Matthew Ryan Robinson 2022-07-26 »What Does Theology Do, Actually? Observing Theology and the Transcultural« is to be the first in a series of 5 books, each presented under the same question – »What Does Theology Do, Actually?«, with vols. 2–5

focusing on one of the theological subdisciplines. This first volume proceeds from the observation of a need for a highly inflected »trans-cultural«, and not simply »inter-cultural«, set of perspectives in theological work and training. The revolution brought about across the humanities disciplines through globalization and the recognition of »multiple modernities« has introduced a diversity of overlapping cultural content and multiple cultural and religious belongings not only into academic work in the humanities and social sciences, but into the Christian churches as well.

American Fascism Brynn Tannehill 2021-04-20 Trump is out of the White House, but American democracy is on the ropes and teetering on the brink of competitive authoritarianism controlled by theocrats and oligarchs. With its cherished institutions hobbled, political norms trampled, guardrails severely damaged, and body politic divided by chasms of race and geography, can the U.S. survive another administration dedicated to establishing de facto single party rule? In this compelling, comprehensive analysis, Brynn Tannehill draws on her expertise in studying the collapse of weak democracies around the globe and her previous research in law, political science, economics and right-wing populism to explain the trajectory of how we got here and the current threats we face. Most importantly, she analyzes what the characteristics of fascism are, if they are applicable to the base of the GOP today, and what that means for us should they succeed in establishing permanent minoritarian rule. American Fascism is a surgical analysis of 250 years of struggle for democracy in America and a prescient prognosis of what's to come if we do not heed Tannehill's warnings and advice.

Understanding the China Threat Lianchao Han 2022-09-30 This book examines the contours of the U.S.–China confrontation and its future trajectories. It delineates the two major causes of the friction in Sino-American relations—change in the balance of power in China’s favor and the conflicting ideologies of the two states—and emphasizes why it is imperative for the U.S. to hold on to its ideological principles. It demonstrates the ultimate and irreconcilable gap in the visions the two competitors have for international politics and consequently why conflict—certainly cold, and very possibly hot—is inevitable. The authors also suggest measures which the U.S. can adopt to sustain its leadership and deter China’s ideology and vision for the future of global politics. A significant contribution to the study of Sino-American relations, the volume will be of interest to scholars and researchers of international relations, foreign policy, and U.S. and Chinese politics. It will be of great interest to think tanks, public policy professionals, and the interested general reader.

Exporting Virtue? Pitman B. Potter 2021-02-01 China’s rise to prosperity on the international stage has been accompanied by increased tensions with international standards of law and governance. Exporting Virtue? examines China’s internationalizing of PRC human rights policy and practice as an example of its international assertiveness, and considers the implications. China’s international

human rights activism is couched in terms of virtue but manifested as authoritarianism, inviting scholars and policy makers around the world to engage critically with the issue. *Exporting Virtue?* investigates the challenges that China's human rights orthodoxy poses to international norms and institutions, offering normative and institutional analysis and providing suggestions for policy response.

Policing, Mental Illness and Media Katrina Clifford 2021-03-30 This book examines the complexities of the relationship between policing and mental health – in Australia especially – including the circumstances that lead to police use of force, and the ways in which news media typically report deaths resulting from police contact with people in mental health crisis. When a vulnerable member of society is killed by the police, it is only natural that questions are asked about the behaviour and actions of those involved. Police are, after all, meant to be the 'protectors of society'. By virtue of these circumstances, fatal encounters between police and mentally ill individuals in crisis often attract heightened media and legal attention, as well as public debate. Drawing together research interviews and extensive case study analysis, the book explores the conditions for the production of this news media coverage, the ways in which it can shape public perceptions of police-involved mental health crisis interventions, and the potential impacts on those involved in and affected by such events. The implications for police agencies are also considered in the context of how they respond to vulnerable people in the community, while being in the media spotlight. This book will appeal to students, scholars and practitioners in journalism, media studies, policing, criminology, sociology, and mental health as well as those interested in learning about the relationship between policing, mental illness, and media representation.

Engaging China Melvin Gurtov 2022 In *Engaging China*, Gurtov identifies and details the many facets of China that worry critics. But he also argues for a strategy of coexistence that allows for

economic and technological competition while managing frictions over issues so diverse as human rights and access to the South China Sea. This book is wide-ranging but compact; realistic but value-oriented; clearly argued but backed by extensive references to documents and scholarly literature--including writings by leading Chinese scholars who also seek a viable modus vivendi between the two great powers.

The chapters in this book discuss the similarities and differences of disinformation in different regions and provide a broad thematic overview of the phenomenon as it manifests across the Global South. After analyzing core concepts, theories and histories from Southern perspectives, contributors explore the experiences of media users and the responses to disinformation by various social actors drawing on examples from a dozen countries. Disinformation in the Global South also includes: A thorough introduction to Southern perspectives on national histories, theories of disinformation, and research methods in disinformation studies Global case studies of cultures of disinformation, including ethnographic insights into how audiences engage with disinformation Comprehensive explorations of responses to online and offline disinformation, including discussions of news literacy and the management of disinformation A valuable resource for scholars of disinformation everywhere, as well as senior undergraduate and graduate students in courses covering transnational or global perspectives to communication studies, Disinformation in the Global South is also an ideal reference for anyone studying or working in media or journalism.

Accountability for Mass Starvation Bridget Conley 2022-09-01 Famine is an age-old scourge that almost disappeared in our lifetime. Between 2000 and 2011 there were no famines and deaths in humanitarian emergencies were much reduced. The humanitarian agenda was ascendant. Then, in 2017, the United Nations identified four situations that threatened famine or breached that threshold in north-eastern Nigeria, Somalia, South Sudan, and Yemen. Today, this list is longer. Each of these famines is the result of military actions and exclusionary, authoritarian politics conducted without regard to the wellbeing or even the survival of people. Violations of international law including blockading ports, attacks on health facilities, violence against humanitarian workers, and obstruction of relief aid are carried out with renewed impunity. Yet there is an array of legal offenses, ranging from war crimes and crimes against humanity to genocide, available to a prosecutor to hold individuals to account for the deliberate starvation of civilians. However, there has been a dearth of investigations and accountability for those violating international law. The reasons for this neglect and the gaps between the black-letter law and practice are explored in this timely volume. It provides a comprehensive overview of the key themes and cases required to catalyze a new approach to understanding the law as it relates to starvation. It also illustrates the complications of historical and ongoing situations where starvation is used as a weapon of war, and provides expert analysis on defining starvation, early warning systems, gender and mass starvation, the use of sanctions, journalistic reporting, and memorialization of famine.

Sexual Abuse and Education in Japan Robert O'Mochain 2022-09-09 Bringing together two voices, practice and theory, in a collaboration that emerges from lived experience and structured reflection upon that experience, Ueno and O'Mochain show how entrenched discursive forces exert immense influence in Japanese society and how they might be most effectively challenged. With a psychosocial framework that draws insights from feminism, sociology, international studies, and political psychology, the authors pinpoint the motivations of the nativist right and reflect on the

change of conditions that is necessary to end cultures of impunity for perpetrators of sexual abuse in Japan. Evaluating the value of the #MeToo model of activism, the authors offer insights that will encourage victims to come out of the shadows, pursue justice, and help transform Japan's sense of identity both at home and abroad. Ueno, a female Japanese educator and O'Mochain, a non-Japanese male academic, examine the nature of sexual abuse problems both in educational contexts and in society at large through the use of surveys, interviews, and engagement with an eclectic range of academic literature. They identify the groups within society who offer the least support for women who pursue justice against perpetrators of sexual abuse. They also ask if far-right ideological extremists are fixated with proving that so called "comfort women" are *higaishaburu* or "fake victims." Japan would have much to gain on the international stage were it to fully acknowledge historical crimes of sexual violence, yet it continues to refuse to do so. Ueno and O'Mochain shed light on this puzzling refusal through recourse to the concepts of 'international status anxiety' and of 'male hysteria.' An insightful read for scholars of Japanese society, especially those concerned by its treatment of women.

Terrorist Recruitment, Propaganda and Branding Anna Kruglova 2022-08-05 This book analyses the marketing techniques that terrorist organisations employ to encourage people to adopt their ideology and become devoted supporters. The book's central thesis is that due to the development of digital technologies and social media, terrorist groups are employing innovative marketing techniques and advertising strategies to foster an emotional connection with their audiences, particularly those in younger demographics. By conducting thematic and narrative analyses of Islamic State of Iraq and Syria (ISIS) propagandist magazines, as well as looking at the group's online communities, the book demonstrates that terrorist groups behave as commercial brands by establishing an emotional connection with their potential recruits. Specifically, groups and their

potential supporters follow the logic of emotional choice. The book emphasizes that while ISIS became the first group that discovered and benefited from the power of marketing, it did not have a supernatural power and thus it is possible to find a response to it, which is particularly important now. The book eventually poses a question about whether terrorism has become the product of marketing in the same way as any mainstream consumer product is, and asks what can we do to battle the appeal of marketing-savvy terrorist groups. This book will be of interest to students of terrorism studies, radicalisation, and propaganda, communication , and security studies.

American Ingrate Benjamin Weingarten 2020-03-17 She says that America was “founded by the genocide of indigenous people and on the backs of slaves,” and that “ignorance really is pervasive” among Americans today. She says America must “dismantle” capitalism and “demilitarize” U.S. foreign policy, which she sees “from the perspective of a foreigner,” tweeting

“thousands of Somalis [were] killed by...American forces...#NotTodaySatan.” She says American support for Israel is “all about the Benjamins baby;” and that American Jews disloyally pledge “allegiance” to Israel’s “apartheid...regime,” which has “hypnotized the world.” She says of the 9/11 attacks: “some people did something.” Shockingly, Congresswoman Ilhan Omar’s (D-MN) words merely scratch the surface of her hatred of America—and the West—and divert our gaze from the nefarious actions she is taking to sabotage it from within. American Ingrate is the defining book on the size, scope, and nature of the threat posed by Representative Omar—the personification of the anti-American Left-Islamist nexus—heightened by her hidden collusion with like-minded adversaries foreign and domestic, and alleged criminality and corruption. This is a clarion wakeup call to the dangers epitomized by Rep. Omar. For she is not merely a lone radical in Congress, but the archetype of the new Democratic Party—and a uniquely dangerous figure at the heart of a uniquely dangerous challenge to America.

Promoting Religious Freedom in an Age of Intolerance Rieffer-Flanagan, Barbara A. 2022-09-15 In an age of intolerance where religious persecution is widespread, Barbara Ann Rieffer-Flanagan explores how societies can promote freedom of religion or belief as a fundamental right of citizens.

Migration and Hybrid Political Regimes Rustamjon Urinboyev 2020-12-01 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. While migration has become an all-important topic of discussion around the globe, mainstream literature on migrants' legal adaptation and integration has focused on case studies of immigrant communities in Western-style democracies. We know relatively little about how migrants adapt to a new legal environment in the ever-growing hybrid political regimes that are neither clearly democratic nor conventionally authoritarian. This book takes up the case of Russia—an archetypal hybrid political regime and the third largest recipients of migrants worldwide—and investigates how Central Asian migrant

workers produce new forms of informal governance and legal order. Migrants use the opportunities provided by a weak rule-of-law and a corrupt political system to navigate the repressive legal landscape and to negotiate—using informal channels—access to employment and other opportunities that are hard to obtain through the official legal framework of their host country. This lively ethnography presents new theoretical perspectives for studying immigrant legal incorporation in similar political contexts.
