Hidden Hand Clive Hamilton 2021-07-03 Headline: The Globe and Mail: Legal challenge halts Canadian, U.S. and U.K. release of book critical of Chinese Communist Party by Robert Fife That said it all. The hands of the Chinese Communist Party were going on the offence. The 48 Group Club a China friendly group of former UK ambassadors and Prime Ministers were embarrassed by their connections to a Club founded by key members of the Chinese Communist Party of Britain who's chair Stephen Perry suggested that China's approach to world order and rule was superior to democracy and the UK should embrace them. Asked if he believed the lawsuit was an effort by the Chinese government to stop the publication of his book, Mr. Hamilton said: "I have no evidence of that, although it should be noted that the Chinese government has used lawfare in the past." Lawfare is the use of legal action as part of a campaign against a target. Governments around the world are in the early stages of a repositioning of power, as China rises and the United States is drawn into direct competition. However, some are beginning to wonder whether, for all of the economic benefits, engaging with China carries unseen dangers. The Chinese Communist Party is now determined to reshape the world in

its image. The party is not interested in democracy. It divides the world into those who can be won over and enemies. They have already lured many leaders to their corner; others are weighing up a devil's bargain. Through its exercise of 'sharp power,' the party is weakening global institutions, aggressively targeting individual corporations, and threatening freedom of expression from the arts to academia. At the same time, security services are increasingly worried about incursions into our communications infrastructure. Indeed, the vaunted Great Firewall is a temporary measure, only necessary until the party has transformed the global conversation. In December 2019, the CCP's obsession with social control led it to suppress expert warnings about the coronavirus outbreak in Wuhan. Most alarming for the West was the active collaboration of the WHO in spreading the CCP's version of events. It was a shocking example of the widespread co-optation of global institutions by the CCP, as described in *Hidden Hand*. As soon as Beijing thought it had the virus under control, it began a global propaganda blitz, presenting China's authoritarian system as a model for the rest of the world. Western media and pundits soon began echoing the Party line. *Hidden Hand* is a detailed and devastating expose of Chinese Communist Party influence in the West, including Canada. It could not arrive at a better time in Canada, with relations between Ottawa and Beijing reaching breaking point after two years of mounting tension. China's bullying behaviour, and the mobilising of people loyal to the Chinese Communist Party on the streets of Canada's cities, has caused deep disquiet among Canadians. But the government seems paralyzed. *Hidden Hand* shows how Canada's political, business, academic and cultural elites have over many years been co-opted by the Chinese Communist Party and its agencies. They are confused about what is in Canada's national interests and frequently do Beijing's bidding. *Hidden Hand* shows how the Chinese Communist Party represents a profound threat to Western democracy. It's vital reading for Canadians who want to understand what is really happening, and points to a way of carving out a new diplomatic course with China. But the question remains: Does the government have the will to stand up to Beijing and its proxies in Canada or is it too late?

China, Taiwan, and International Sporting Events Marcus P. Chu 2022-07-07 Chu explores the politics behind Taiwanese cities' pursuit of international sporting events, and the Chinese authorities' strategic measures in handling the relations with Taiwan since the 1990s. It is assumed that the Chinese authorities constantly oppose Taiwanese cities' application for, and boycott their subsequent holding of, international sporting events. Doing so would obstruct Taiwan's capacity to raise its visibility and influence in world society, and defend the One-China principle. In fact, the role of China in Taiwan's pursuit of international sporting events is not invariably as a fatal obstructer, but sometimes a neutral bystander or even an enthusiastic supporter. Chu examines the reasons behind this phenomenon. Reviewing the 18 Taiwanese bidding attempts and four hosting projects, he argues that China's inconsistent response is determined by the ups and downs of Cross-Strait political ties. As a result, this book provides insight into the nexus between sports and politics in the context of China-Taiwan rivalry. A must read for scholars, students, and other watchers of Cross-Strait relations.

Mitch, Please! Matt Jones 2020-03-31 NEW YORK TIMES BESTSELLER THE WALL STREET JOURNAL BESTSELLER From the founder of Kentucky Sports Radio and attorney Matt Jones, a withering, humorous look at how Mitch McConnell has been bad for Kentucky—and why he needs to be voted out in 2020. They say all politics is local. In 2020, Mitch McConnell will have served five full terms as a US Senator. Thirty years. The Senate Majority leader's power is as undeniable as it is infuriating, and the people of Kentucky have had enough. Led by Matt Jones, they (and they alone) have the power to oust him from office. How did Jones, a local boy turned attorney turned sports radio host come to shine the brightest light on McConnell's ineptitude? Simple—he knows Kentucky inside and out, and has used the state's love of sports as an entry point for showcasing how McConnell has failed his fellow citizens both economically and socially for three decades. Entertaining, maddening, yet ultimately inspiring, these stories from Kentuckians in each of its 120 counties illustrate the Senate Majority leader's stunning shortcomings. Jones infuses his trademark wit and wisdom throughout, while also offering a beautiful portrait of a state with arguably the most untapped potential in our country. Ultimately, the white-hot hatred for McConnell on the coasts is just white noise. Only the people of Kentucky can remove him from office. Here, Matt Jones demonstrates he has the influence, charisma, and institutional knowledge to lead the charge. He and his fellow Kentuckians have had enough—and they're ready for a fight.

Cyber Persistence Theory Michael P. Fischerkeller 2022-05-06 A bold re-conceptualization of the fundamentals driving behavior and dynamics in cyberspace. Most cyber operations and campaigns fall short of activities that states would regard as armed conflict. In *Cyber Persistence Theory*, Michael P. Fischerkeller, Emily O. Goldman, and Richard J. Harknett argue that a failure to understand this strategic competitive space has led many states to misapply the logic and strategies of coercion and conflict to this environment and, thus, suffer strategic loss as a result. The authors show how the paradigm of deterrence theory can neither explain nor manage the preponderance of state cyber activity. They present a new theory that illuminates the

exploitive, rather than coercive, dynamics of cyber competition and an analytical framework that can serve as the basis for new strategies of persistence. Drawing on their policy experience, they offer a new set of prescriptions to guide policymakers toward a more stable, secure cyberspace.

Xenophobia, Nativism and Pan-Africanism in 21st Century Africa Sabella Ogbobode Abidde 2021-12-14 This edited volume systematically analyzes the connection between xenophobia, nativism, and Pan-Africanism. It situates attacks on black Africans by fellow black Africans within the context of ideals such as Pan-Africanism and Ubuntu, which emphasize unity. The book straddles a range of social science perspectives to explain why attacks on foreign nationals in Africa usually entail attacks on black foreign nationals. Written by an international and interdisciplinary team of scholars, the book is divided into four sections that each explain a different facet of this complicated relationship. Section One discusses the history of colonialism and apartheid and their relationship to xenophobia. Section Two critically evaluates Pan-Africanism as a concept and as a practice in 21st century Africa. Section Three presents case studies on xenophobia in contemporary Africa. Section Four similarly discusses cases of nativism. Addressing a complex issue in contemporary African politics, this volume will be of use to students and scholars interested in African studies, African politics, human rights, migration, history, law, and development economics.

The Economic Decline of the Family Darek Klonowski 2021-12-14 International evidence points to a widespread decline in the economic standard of living for the family. This trend is reinforced by a number of underlying tendencies, including stagnating wages, the rise of unemployment, weak labor participation, poor housing affordability, limited saving, and skyrocketing personal debt. These realities are also affecting young adults, who, in a historically unprecedented trend, are likely to be worse off than their parents. This book identifies the reason for these trends, and argues that the answer lies in the context of five key deformations that affect the family. Firstly, the family is negatively influenced by liberalism. While one form of liberalism infects society through economic means, the other affects society through civil means. Secondly, liberal economic ideologies and theories have proved to be destructive to the family. Thirdly, the book challenges the notion that political shifts are beneficial to the family's economic wellbeing. Fourthly, the pursuit of materialistic possessions, money, and wealth, which are supposed to bring the family joy, instead sow the seeds of familial destruction. Lastly, debt is proven to be the silent assassin of human happiness, marital and familial relations, and physical and mental health.

Understanding Media Propaganda in the 21st Century Simon Foley 2021-09-02 First published in 1988, Herman and Chomsky's Manufacturing Consent remains the go-to book for those interested in understanding why the mainstream media act as vehicles for power-elite propaganda. The analytical heart of Manufacturing Consent lies in what it calls 'The Propaganda Model.' According to this model, there are five filters which all newsworthy stories have to pass through before reaching the public sphere. However, a lot has changed in the subsequent

thirty-something years. Consequently, a key question that needs to be addressed is whether Manufacturing Consent is still fit for purpose. The conceit underpinning *Understanding Media Propaganda in the 21st Century: Manufacturing Consent Revisited and Revised* is that the election of Trump in 2016 constitutes the proverbial 'year zero' for fourth estate journalism. As a result of the 'journalistic' cultural revolution that ensued, it argues that the Propaganda Model needs to be overhauled if it is to retain its epistemological bona fides. To this end, this book is a radical—in the true critical sense of the word—intervention into the propaganda/fake news debate. For students (in the broadest sense of the term) of media studies, journalism, communication studies and sociology, it provides both a compelling critique of Herman and Chomsky's Propaganda Model, while at the same time proffering a new explanatory model to understand why MSM output typically replicates the 'stenographer for power' playbook.

The Palgrave Handbook of Canada in International Affairs Robert W. Murray 2021-04-29 This book argues that Canada and its international policies are at a crossroads as US hegemony is increasingly challenged and a new international order is emerging. The contributors look at how Canada has been adjusting to this new environment and resetting priorities to meet its international policy objectives in a number of different fields: from the alignment of domestic politics along new foreign policies, to reshaping its international identity in a post-Anglo order, its relationship with international organizations such as the UN and NATO, place among middle powers, management of peace operations and defense, role in G7 and G20, climate change and Arctic policy, development, and relations with the Global South. Embracing multilateralism has been and will continue to be key to Canada's repositioning and its ability to maintain its position in this new world order. This book takes a comprehensive look at Canada's role in the world and the various political and policy variables that will impact Canada's foreign policy decisions into the future. Bioethics and the Holocaust Stacy Gallin 2022-07-07 This open access book offers a framework for understanding how the Holocaust has shaped and continues to shape medical ethics, health policy, and questions related to human rights around the world. The field of bioethics continues to face questions of social and medical controversy that have their roots in the lessons of the Holocaust, such as debates over beginning-of-life and medical genetics, end-of-life matters such as medical aid in dying, the development of ethical codes and regulations to guide human subject research, and human rights abuses in vulnerable populations. As the only example of medically sanctioned genocide in history, and one that used medicine and science to fundamentally undermine human dignity and the moral foundation of society, the Holocaust provides an invaluable framework for exploring current issues in bioethics and society today. This book, therefore, is of great value to all current and future ethicists, medical practitioners and policymakers – as well as laypeople.

China Dreams Jane Golley 2020-04-16 The year 2019 marked a number of significant anniversaries for the People's Republic of China (PRC), each representing different 'Chinese dreams'. There was the centennial of the May Fourth Movement — a dream of patriotism and cultural renewal. The PRC celebrated its seventieth anniversary — a dream of revolution and national strength. It was also thirty years since the student-led Protest Movement of 1989 — dreams of democracy and free expression crushed by government dreams of unity and stability. Many of these 'dreams' recurred in new guises in 2019. President Xi Jinping tightened his grip on power at home while calling for all citizens to 'defend China's honour abroad'. Escalating violence in Hong Kong, the ongoing suppression of Uyghurs in Xinjiang, and deteriorating Sino-US relations dominated the headlines. Alongside stories about China's advances in artificial intelligence and genetically modified babies and its ambitions in the Antarctic and outer space, these issues fuelled discussion about what Xi's own 'China Dream' of national rejuvenation means for Chinese citizens and the rest of the world. *The China Story Yearbook: China Dreams* reflects on these issues and more. It surveys the dreams, illusions, aspirations, and nightmares that coexisted (and clashed) in 2019 in China and beyond. As ever, we take a cross-disciplinary perspective that recognises the inextricable links between economy, politics, culture, history, language, and society. The Yearbook, with its accessible analysis of the main events and trends of the year, is an essential tool for understanding China's growing power and influence around the world.

Debate as Global Pedagogy Ben Voth 2021-03-15 *Debate as Global Pedagogy: Rwanda Rising* illustrates that the teaching of debate offers an ideal educational approach for the prevention and remediation of genocide. As the antithesis of propaganda, debate and argument instruction promotes the critical thinking necessary to resist processes of propaganda that enable injustice and human rights abuses. Case studies of argumentation instruction and deliberative forums worldwide demonstrate how environments of discursive complexity can be fostered through education in debate and argumentation. The central example of Rwanda recovering from genocide in 1994 with help from innovative pedagogy by iDebate Dreamers Academy provides a model for how argumentation instruction can reduce and prevent social injustices.
