Wildcheck – Assessing the risks and opportunities of trade in wild plant ingredients Schindler, C., Heral, E., Drinkwater, E., Timoshyna, A., Muir, G., Walter, S., Leaman, D.J., Schippmann, U. 2022-04-22 Thousands of consumer products around the world contain ingredients obtained from wild plants. Wild harvest accounts for some or all the harvest of the great majority of plant species in trade (between 60-90 percent). Wild-harvested plants often come from the most biodiverse ecosystems on earth and many have been used traditionally or by local communities for generations. While these products have global markets and provide critical sources of income,

they can also have deep ties to particular cultures and places. Demand for wild plant ingredients is growing rapidly, having grown by over 75 percent in value over the past two decades. Thousands of harvested species are at risk mainly from a combination of overharvest and habitat loss: of the 21 percent of medicinal and aromatic plant species whose threat status has been assessed, 9 percent are considered threatened with extinction. Despite their ubiquity, importance, and the threats facing them, wild plant ingredients are often obscured from consumers and escape companies' due diligence due to a lack of awareness and traceability. Best practice standards exist but have yet to capture a significant portion of the market. This report aims to address these challenges by making information on a selection of 'flagship' wild plant ingredients, the Wild Dozen, readily available and easy to understand. By offering this information without obligation to a specific prescription for follow-up action (e.g. through certification or policy change), it is hoped that a wide range of users will access the report as a first step towards responsible sourcing. Along with a broader update on the state of wild plants trade, the report provides a 'profile' on each of the Wild Dozen species, summarising key facts on production and trade. Each profile contains a traffic-light risk rating on biological and social factors, along with an overview of opportunities for responsible sourcing. The information is aimed at industry, consumers, policy-makers, investors, and practitioners, concluding with a summary of what these various stakeholders can do to contribute to a sectoral shift towards responsible sourcing of wild plant

ingredients.

Strengthening School Counselor Advocacy and Practice for Important Populations and Difficult Topics Rausch, Meredith A. 2021-01-29 School counselors often struggle to feel confident in delivering effective assistance to students due to a variety of reasons that currently do not have enough research or information developed. This leads to a struggle for counselors to adequately address tough and relevant issues. With these issues remaining unaddressed, or addressed less effectively, there is a concern that school counselors cannot mitigate these issues due to not being adequately informed. This can lead to a lifetime of consequences for students.

Strengthening School Counselor Advocacy and Practice for Important Populations and Difficult Topics presents emerging research that seek to answer the tough and often unaddressed questions, target present-day issues of student populations, and prepare school counselors to feel confident and competent in their counseling and advocacy practice. These chapters, using the newest information available, will address these concerns and provide the best counseling work possible for underserved populations. While covering research on counseling for students with chronic illnesses, mixed-statuses, family issues, minority students, LGBTQ+ youth, and more, this book is ideal for school counselors, counseling educators, practitioners, stakeholders, researchers, academicians, and students who are interested in school counseling and meeting the needs of diverse and important populations of students.

The Attack on Higher Education Ronald G. Musto 2022-

The Personal Is Political Christine Salkin Davis 2020-07-27 In the wake of Donald J. Trump's victory and his administration's attacks on an array of vulnerable populations, a diverse collection of scholars and ethnographers document how marginalized peoples have experienced the first years of Trump mayhem.

Satire as the Comic Public Sphere James E. Caron 2021-04-16 Stephen Colbert, Samantha Bee, John Oliver, and Jimmy Kimmel—these comedians are household names whose satirical takes on politics, the news, and current events receive some of the highest ratings on television. In this book, James E. Caron examines these and other satirists through the lenses of humor studies, cultural theory, and rhetorical and social philosophy, arriving at a new definition of the comic art form. Tracing the history of modern satire from its roots in the Enlightenment values of rational debate, evidence, facts, accountability, and transparency, Caron identifies a new genre: “truthiness satire.” He shows how satirists such as Colbert, Bee, Oliver, and Kimmel—along with writers like Charles Pierce and Jack Shafer—rely on shared values and on the postmodern aesthetics of irony and affect to foster engagement within the comic public sphere that satire creates. Using case studies of bits, parodies, and routines, Caron reveals a remarkable process: when evidence-based news reporting collides with a discursive space asserting alternative facts, the satiric laughter that erupts can move the audience toward reflection and

possibly even action as the body politic in the public sphere. With rigor, humor, and insight, Caron shows that truthiness satire pushes back against fake news and biased reporting and that the satirist today is at heart a citizen, albeit a seemingly silly one. This book will appeal to anyone interested in and concerned about public discourse in the current era, especially researchers in media studies, communication studies, political science, and literary and cultural studies.

Cyril and Pat Emily Gravett 2021-04-15 Cyril and Pat is a very funny, rhyming romp through the park from the CILIP Kate Greenaway Medal-winning Emily Gravett, author of Tidy and Meerkat Mail. 'Enormous fun to read aloud.' – Guardian Cyril is the only squirrel in Lake Park, and he's very lonely. Until one day he meets Pat – Pat the big, grey . . . other squirrel. Cyril and Pat have lots of adventures and fun together and Cyril is so pleased he's made a friend. But everyone says that Cyril and Pat simply cannot be friends, and they soon reveal why: Pat, as the reader has known all along, is actually a RAT! But Cyril's life turns out to be a lot duller and quite a bit scarier without Pat by his side, and in the end the two friends learn that some things are more important than being the same, or listening to others.

Our Livable World Marc Schaus 2020-10-13 A vital guide to the frontlines of our fight against climate change and the scientific and technological innovations that will revolutionize the world. The United States' accelerated plans to combat the existential threat of climate change finally give reason to hope. In Our Livable World, research specialist and author Marc Schaus explores the incredible new green innovations in science and engineering that can allow us to avoid the worst repercussions of global warming as we work to usher in a sustainable, livable world. To beat a challenge the size of climate change, our solutions will have to be ambitious: solar thermal cells capable of storing energy long after the sun goes down, "smart highways" designed to charge your vehicle as you drive, indoor vertical farms automated to maximize crop

growth with no pesticides, bioluminescent vines ready to one day replace our streetlights, jet fuel created from landfill trash—and next-generation carbon capture techniques to remove the emissions we have already released over the past several decades. Far from the geoengineering schemes of cli-fi action thrillers, real solutions are being developed, right this moment. Our *Livable World* features interviews with the innovators, real talk on the revolutionary technology, and a clear picture of a cleaner planet in the future. “An important book that shows the dawn of a new kind of environmental movement?an age where we invest in deeply creative and fascinating technical solutions that work in harmony with the Earth. Marc Schaus lays out the exciting future of environmental innovation before us.” —Katie Patrick, author of *How to Save the World*

*The Crisis in America's Criminal Courts* William R. Kelly  
2021-08-15 This book highlights the variety of problems that judges, prosecutors, and public defenders face within a criminal justice system that is ineffective, unfair, and extraordinarily expensive. Much of the dysfunction originates from crushing dockets and caseloads combined with the lack of time, expertise, and resources for effective decision-making.

The Challenge of Sustainability John Zinkin 2020-08-10

The Challenge of Sustainability: Corporate Governance in a Complicated World reviews the evolution of five types of corporate governance and their different sustainability objectives. It discusses the challenges for boards in achieving sustainability from an environmental, economic, employment, and social perspective and introduces the concept of a political tragedy of the commons if boards do what is in the best interests of their profitability only, without considering their responsibilities and unintended consequences for their stakeholders. It explains how

volatility, uncertainty, complexity, and ambiguity complicate making sustainable decisions. This book explores ways of helping prevent such negative outcomes. John Zinkin asserts the director's need to reconcile volatility with vision, uncertainty with understanding, complexity with courage and commitment, and ambiguity with adaptability. To prevent a potential political tragedy of the commons, the book suggests new decision-making processes; treating employees differently; and makes the case for reforming capitalism. It is aimed at managers, board members and all those who influence them, including shareholder activists, corporate legal personnel, politicians, activists and general readers interested in applying some of these suggestions in their roles as stakeholders, managers and directors.

Women of Discriminating Taste Margaret L. Freeman

2020-12-01 Women of Discriminating Taste examines the role of historically white sororities in the shaping of white womanhood in the twentieth century. As national women's organizations, sororities have long held power on college campuses and in American life. Yet the groups also have always been conservative in nature and inherently discriminatory, selecting new members on the basis of social class, religion, race, or physical attractiveness. In the early twentieth century, sororities filled a niche on campuses as they purported to prepare college women for "ladyhood." Sorority training led members to comport themselves as hyperfeminine, heterosocially inclined, traditionally minded women following a model largely premised on the mythical image of the southern lady. Although many sororities were founded at non-southern

schools and also maintained membership strongholds in many non-southern states, the groups adhered to a decidedly southern aesthetic—a modernized version of Lost Cause ideology—in their social training to deploy a conservative agenda. Margaret L. Freeman researched sorority archives, sorority-related materials in student organizations, as well as dean of women's, student affairs, and president's office records collections for historical data that show how white southerners repeatedly called upon the image of the southern lady to support southern racial hierarchies. Her research also demonstrates how this image could be easily exported for similar uses in other areas of the United States that shared white southerners' concerns over changing social demographics and racial discord. By revealing national sororities as significant players in the grassroots conservative movement of the twentieth century, Freeman illuminates the history of contemporary sororities' difficult campus relationships and their continuing legacy of discriminatory behavior and conservative rhetoric.

Breaking Cycles of Violence in Israel and Palestine Franke Wilmer 2021-02-02 Victimization narratives arise out of the experience of historical and ongoing injury, and often intersect or, in part, constitute identity narratives.

Unless transformed through reconciliation, these narratives can be used by political leaders to mobilize and perpetuate violence. Victimization narratives are grounded in lived experiences, whether by contemporary generations or passed on from one generation to another as a historical narrative about the prior experience of victimization. Therefore, cycles of violence cannot be ended sustainably unless those narratives are transformed; and first, narratives of victimization and cycles of violence must be disrupted. This is the work of many peace activists in Israel and Palestine whose relationships are built on empathic engagement. This book reviews theories of empathy across a broad range of scholarly work. It then applies a framework of political psychology to understand the role of empathy in the accounts of peace activists whose identities as victims were transformed by their empathic engagement. It includes a chapter providing historical background, and concludes with a consideration of alternative futures for the Israeli and Palestinian people and communities.

Silicon Values Jillian C. York 2021-03-23 The battle for online rights and for the future of democracy Who decides what is permissible on the internet: Politicians? Mark Zuckerberg? Users? Who determines when political debate becomes hate speech? How does this impact our identity or our ability to create communities and to protest? Silicon Values reports on the war for digital rights and how major corporations—Facebook, Twitter, Google and Tiktok—threaten democracy as they harvest our personal data in the pursuit of profit.

Southeast Asian Affairs 2020 Malcolm Cook 2020-04-22

Death Served Cold Sourabh Mukherjee 2021-08-10

A woman relishes the last cries of her husband on the phone as he is brutally murdered by her lover. A teenager poisons her family for the love of her tutor. A woman driven by greed ruthlessly bludgeons eight members of her family. A beautician gangs up with her lover to rob a house, killing innocent women from three generations of a family. A practising lawyer strangles her lawyer husband with the cord of a mobile charger. A friendly and jovial teacher commits at least six murders over fourteen years in a sleepy town down south. DEATH SERVED COLD is a painstakingly researched collection of true, blood-curdling accounts of gruesome murders committed by India's most dangerous women over the last three decades. These stories explore the dark recesses of the female psyche and challenge popular stereotypes by revealing shocking excesses of sadism and aggression rarely associated with women.

Sexual Violence in Australia, 1970s–1980s Lisa

Featherstone 2021-07-28 This book explores sexual violence and crime in Australia in the 1970s and 1980s, a period of intense social and legal change. Driven by the sexual revolutions, second wave feminism, and ideas of

the rights of the child, there was a new public interest in the sexual assault of women and children. Sexual abuse was studied, surveyed and discussed more than ever before in Australian society. Yet, despite this, there remained substantial inaction, by government, from community and on the part of individuals. This book examines several difficult questions of our recent history: why did Australia not act more firmly to eradicate rape and child sexual abuse? What prevented our culture from looking seriously at trauma? How did we fail to protect victim-survivors? Rich in social and legal history, this study takes readers into the world of victims of sexual crime, and into the wider community that had to deal with sexual violence. At the core of this book is the question that resonates deeply right now: why does sexual violence appear seemingly insurmountable, despite significant change?

What Next for Britain in the Middle East? Michael Stephens 2021-09-23 As the UK enters a period of intense public introspection in the wake of Brexit, this book takes on one of the key questions emerging from the divisive process: what is Britain's place in the world? The Middle East is one of the regions the UK has been most engaged in historically. This book assesses the drivers of foreign policy successes and failures and asks if there is a way to revitalise British influence in the region, and if this is even desirable. The book analyses the values, trade and security concerns that drive the UK's foreign policy. There are separate chapters on the non- Arab powers – Israel, Turkey and Iran – as well as chapters on the Middle Eastern Arab states and regions including the

Gulf, Iraq, Egypt, and Syria and the Levant. The contributions are from leading specialists in the field: Rosemary Hollis, Michael Clarke, Ian Black, Bill Park, Christopher Phillips, Sanam Vakil, Michael Stephens and Louise Kettle. They each explain and re-assess the declining western influence and continued instability in the region and what this means for the UK's priorities and strategy towards the MENA. This is an essential book for policy makers, journalists and researchers focused on foreign policy towards the Middle East.

After the Fact Marcus Gilroy-Ware 2020-11-10 We are supposed to have more information at our disposal now than at any time in history. So why, in a world of rising sea levels, populist leaders, resurgent fascism and a global pandemic, do so many people believe bizarre and untrue things about the world we live in? In After the Fact?, Marcus Gilroy-Ware shows us what really created the conditions for mis- and disinformation, from fake news and conspiracy theories, to bullshit journalism and the resurgence of the far-right, and why liberal newspaper columnists and centrist politicians are unable to turn back this tide. Spanning politics, culture, psychology, journalism, and much more, After the Fact? is a timely wake-up call for those who believe we can simply go back to normal, and instead argues that, if we are to put an end to fake news we must deal with the broader social crises that are responsible for it.

Services – SERVICES 2021 Mohamed Adel Serhani  
Running on Empty Connie Goldsmith 2021-04-06 Young adults need eight to ten hours of sleep each night, yet nearly half fail to get the sleep they need, and nearly a

third have fallen asleep in school due to insufficient sleep. So many Americans—both teens and adults—lack quality sleep that the Centers for Disease Control and Prevention calls sleep deprivation a public health epidemic. Chronic sleep deprivation leads to poor performance during the day and impacts stress levels, academic performance, and physical and mental health. The American Academy of Sleep Medicine found that sleeping difficulties contribute to one-third of auto accidents. And drowsy-driving can lead to fatalities. Author and registered nurse, Connie Goldsmith presents a much needed scientific and informative approach to the topic of sleep, making the case for taking measures to get adequate and quality sleep each night to combat anxiety, depression, and stress. *Running on Empty: Sleeplessness in American Teens* provides readers with information on the why and tips for the how to sleep well.

Let's Be Reasonable Jonathan Marks 2021-02-09 A conservative college professor's compelling defense of liberal education Not so long ago, conservative intellectuals such as William F. Buckley Jr. believed universities were worth fighting for. Today, conservatives seem more inclined to burn them down. In *Let's Be Reasonable*, conservative political theorist and professor Jonathan Marks finds in liberal education an antidote to this despair, arguing that the true purpose of college is to encourage people to be reasonable—and revealing why the health of our democracy is at stake. Drawing on the ideas of John Locke and other thinkers, Marks presents the case for why, now more than ever, conservatives must not give up on higher education. He recognizes that professors and administrators frequently adopt the language and priorities of the left, but he explains why conservative nightmare visions of liberal persecution and indoctrination bear little resemblance to what actually goes on in college classrooms. Marks examines why advocates for liberal education struggle to offer a coherent defense of themselves against their conservative critics, and demonstrates why such a defense must rest on the cultivation of reason and of pride in being reasonable. More than just a campus battlefield guide, *Let's Be Reasonable* recovers what is truly liberal about liberal education—the ability to reason for oneself and with others—and shows why the liberally educated

person considers reason to be more than just a tool for scoring political points.

True North Bill George 2022-08-30 A Clarion Call to Emerging Leaders: Step Up and Lead Now! In True North: Emerging Leaders Edition, renowned leadership expert Bill George and Millennial tech entrepreneur Zach Clayton issue the challenge to emerging leaders—from Gen X to Millennials and Gen Z—to lead their organizations authentically through never-ending crises to make this world a better place for everyone. Emerging leaders do so by discovering their “True North”—who they are—and then finding their “North Star”—their leadership purpose. To navigate today’s complexities, George and Clayton show emerging leaders how to lead with their hearts, not just their heads, with passion, compassion, and moral courage by being true to their values to reach their full potential as they take on great challenges and navigate complex issues. Harvard professor Bill George, with four best-selling books to his credit including the timeless classic True North, is the former CEO of Medtronic who established authentic leadership in 2003. He teams up with Zach Clayton, an emerging leader still amid his own leadership development journey, to give emerging leaders the definitive guide for leading in today’s complex world. The Emerging Leader Edition is filled with dramatic stories from successful leaders such as Microsoft’s Satya Nadella and Merck’s Ken Frazier to PepsiCo’s Indra Nooyi and General Motors’ Mary Barra, and emerging leaders like OneTrust’s Kabir Barday and Kanbrick’s Tracy Britt Cool of how they overcame great challenges to build highly successful organizations. The

book offers concrete suggestions for: Becoming an authentic leader, equipped to lead inclusively with moral clarity through challenges and crises Cultivating regular introspection to ground yourself with self-awareness, live your values, and use your unique strengths Integrating all aspects of your life—including who you are at home, at work, and in the community Understanding how Millennials are leading more effectively in today's world Being an inclusive leader prepared to take on fraught issues like stakeholder challenges, racial and sexual equality, and sexual misconduct Knowing when—and how—leaders should speak out on today's complex public issues The Emerging Leader Edition of True North is the classic guide for every current and aspiring leader to reach their full, authentic potential.

After Midnight Drew Morton 2022-11-15 Contributions by Apryl Alexander, Alisia Grace Chase, Brian Faucette, Laura E. Felschow, Lindsay Hallam, Rusty Hatchell, Dru Jeffries, Henry Jenkins, Jeffrey SJ Kirchoff, Curtis Marez, James Denis McGlynn, Brandy Monk-Payton, Chamara Moore, Drew Morton, Mark C. E. Peterson, Jayson Quearry, Zachary J. A. Rondinelli, Suzanne Scott, David Stanley, Sarah Pawlak Stanley, Tracy Vozar, and Chris Yogerst Alan Moore and Dave Gibbons's Watchmen fundamentally altered the perception of American comic books and remains one of the medium's greatest hits. Launched in 1986—"the year that changed comics" for most scholars in comics studies—Watchmen quickly

assisted in cementing the legacy that comics were a serious form of literature no longer defined by the Comics Code era of funny animal and innocuous superhero books that appealed mainly to children. After Midnight: “Watchmen” after “Watchmen” looks specifically at the three adaptations of Moore and Gibbons’s Watchmen—Zack Snyder’s Watchmen film (2009), Geoff Johns’s comic book sequel Doomsday Clock (2017), and Damon Lindelof’s Watchmen series on HBO (2019). Divided into three parts, the anthology considers how the sequels, especially the limited series, have prompted a reevaluation of the original text and successfully harnessed the politics of the contemporary moment into a potent relevancy. The first part considers the various texts through conceptions of adaptation, remediation, and transmedia storytelling. Part two considers the HBO series through its thematic focus on the relationship between American history and African American trauma by analyzing how the show critiques the alt-right, represents intergenerational trauma, illustrates alternative possibilities for Black representation, and complicates our understanding of how the mechanics of the show’s production can impact its politics. Finally, the book’s last section considers the themes of nostalgia and trauma, both firmly rooted in the original Moore and Gibbons series, and how the sequel texts reflect and refract upon those often-intertwined phenomena.

Realizing the Abidjan Principles on the Right to Education  
Frank Adamson 2021-05-28 This insightful book analyses the process of the first adoption of guiding human rights principles for education, the Abidjan Principles. It explains

the development of the Abidjan Principles, including their articulation of the right to education, the state obligation to provide quality public education, and the role of private actors in education.

Popular Culture and Social Change Kate Fitch 2020-10-29 Popular Culture and Social Change: The Hidden Work of Public Relations argues the complicated and contradictory relationship between public relations, popular culture and social change is a neglected theoretical project. Its diverse chapters identify ways in which public relations influences the production of popular culture and how alternative, often community-driven conceptualisations of public relations work can be harnessed for social change and in pursuit of social justice. This book opens up critical scholarship on public relations in that it moves beyond corporate understandings and perspectives to explore alternative and eclectic communicative cultures, in part to consider a more optimistic conceptualisation of public relations as a resource for progressive social change. Fitch and Motion began with an interest in identifying the ways in which public relations both draws on and influences the production of popular culture by creating, promoting and amplifying particular narratives and images. The chapters in this book consider how public relations creates popular cultures that are deeply compromised and commercialised, but at the same time can be harnessed to advocate for social change in supporting, reproducing, challenging or resisting the status quo. Drawing on critical and sociocultural perspectives, this book is an important resource for researchers, educators and students

exploring public relations theory, strategic communication and promotional culture. It investigates the entanglement of public relations, popular culture and social change in different social, cultural and political contexts – from fashion and fortune telling to race activism and aesthetic labour – in order to better understand the (often subterranean) societal influence of public relations activity.

Corruption and Illiberal Politics in the Trump Era  
Donna M. Goldstein 2022-09-23

This book explores the nexus of corruption, late capitalism, and illiberal politics in the Trump era. Through deep, contextualized analysis and careful critique, it offers valuable perspectives on how corruption is defined and understood in the current historical moment. The book asks: Is today's corruption something new, or is it a continuation of prior patterns of illiberalism? Chapters in this collection consider how corruption is practiced, mobilized, or invoked in a range of cases, each of which is embedded within larger concerns about what citizenship, social belonging, honesty, and justice mean in the United States today. The authors examine a constellation of unscrupulous actors and questionable actions, with topics ranging from sex scandals and shady real estate deals to the Trump administration's response to the COVID-19 pandemic. Several essays directly address the increasingly violent rhetoric and the deliberately anti-democratic policies that have flourished during the Trump era. The book draws on anthropological insights and comparative analysis to place the policies and practices of Trump and his supporters in a wider global context. *Corruption and Illiberal Politics in the Trump Era* will be of great interest to

readers from anthropology, sociology, political science, discourse studies, media studies, linguistics, and American studies.

**The Coming Tyranny** David A. Herrera 2021-06-30 **The Coming Tyranny: How Socialism Will Lead to Civil War in America** is a step-by-step prediction of how socialism in America will develop by nefarious and corrupt Democrats whose concerns are not the interests and well-being of the American people, but are concerns about redistributing wealth, attaining power, control, and enriching themselves. After the 2020 suspected fraudulent election, Democrats practically control the Federal government. Their Utopian socialist dream consists of taking substantial wealth from the rich through oppressive taxes and redistributing this wealth for government assistance to illegal migrants, for black reparations, to bail out poorly managed Democrat states disguised as COVID-19 relief, for infrastructure, for green energy, for government-run healthcare, for COVID-19

vaccines, to support the UN, the Paris Peace Accord climate deal, the World Health Organization, and for Palestinian aid. The Chinese-born COVID-19 pandemic has enabled the worse election fraud in US history to occur, in a concerted effort to steal the 2020 election by election computer fraud, ballot counters, state elected officials in key states, mail carriers, and election officials. Incredulously, key state supreme courts and the US Supreme Court, all refused to listen to any evidence or witnesses available in the worst election fraud in US history. Examples of Democrat socialist presidential candidates and their leftist views are presented to show how far left socialists want to take America. Examples are given as to how corrupt leaders, such as Obama, Hillary Clinton, and Joe Biden, not only tried to rig the 2016 election, but sought to influence the election of Benjamin Netanyahu, forced Pope Benedict to resign and be replaced by a liberal Pope, and how the Obama Administration and others, were involved with the Vatican and Pope Francis to try to align abortion and homosexuality morality in Catholic doctrine with leftist political morality to be gaslighted as acceptable moral behavior in the US by Hillary Clinton and Tim Kaine in preparation for the 2016 election. The Biden Administration signed a slew of executive orders and tax policies that mandated culture change and triggered oppression of Americans. Step-by-step predictions are made how Democrats will change election laws so that they will always remain in power. Socialist policies are predicted to cause economic chaos, failure, and instability. Many Americans will lose their jobs and suffer.

Crime, poverty, and homelessness will increase. Police departments and the military will be politicized to support and enforce tyrannical laws passed by the socialist Federal US government to deprive Americans of their freedoms. Conservatives will react, as tyranny and oppression intensify. A secession of states will likely occur, leading to a 2nd American Civil War. Unfortunately, the war will not fare well for freedom-loving Americans for reasons stated. Only a miracle from God can save the USA. Leftist policies and reconstruction efforts will further weaken the US. As Muslim immigrants grow exponentially in the US and Muslim population centers in states increase over time, this book predicts that a 3rd Civil War will occur between Muslims and non-Muslims. In the end, the old US will become divided into Muslim and non-Muslim countries, never to return to the greatest country on earth that it was.

Homegrown Hate Sara Kamali 2022-04-19 To better understand current events and threats, this book outlines the organizations and beliefs of domestic terrorists in the United States and how to counter their attacks on American democracy. Who are the American citizens-- White nationalists and militant Islamists--perpetrating acts of terrorism against their own country? What are their grievances and why do they hate? How can this transnational peril be effectively addressed? Homegrown Hate is a groundbreaking and deeply researched work that directly compares White nationalists and militant Islamists in the United States. In this timely book, scholar and holistic justice activist Sara Kamali examines these Americans' self-described beliefs, grievances, and

rationales for violence, and details their organizational structures within a transnational context. She presents compelling insight into the most pressing threat to homeland security not only in the United States, but in nations across the globe: citizens who are targeting their homeland according to their respective narratives of victimhood. She also explains the hate behind the headlines and provides the tools to counter this hate from within, cogently offering hope in uncertain and divisive times. Innovative and engaging, this is an indispensable resource for all who cherish equity and justice in the United States and around the world.

To Be A Water Protector Winona LaDuke 2020-12-01T00:00:00Z Winona LaDuke is a leader in cultural-based sustainable development strategies, renewable energy, sustainable food systems and Indigenous rights. Her new book, *To Be a Water Protector: Rise of the Wiindigoo Slayers*, is an expansive, provocative engagement with issues that have been central to her many years of activism. LaDuke honours Mother Earth and her teachings while detailing global, Indigenous-led opposition to the enslavement and exploitation of the land and water. She discusses several elements of a New Green Economy and outlines the lessons we can take from activists outside the US and Canada. In her unique way of storytelling, Winona LaDuke is inspiring, always a teacher and an utterly fearless activist, writer and speaker. Winona LaDuke is an Anishinaabekwe (Ojibwe) enrolled member of the Mississippi Band Anishinaabeg who lives and works on the White Earth Reservation in Northern Minnesota. She is executive director of Honor

the Earth, a national Native advocacy and environmental organization. Her work at the White Earth Land Recovery Project spans thirty years of legal, policy and community development work, including the creation of one of the first tribal land trusts in the country. LaDuke has testified at the United Nations, US Congress and state hearings and is an expert witness on economics and the environment. She is the author of numerous acclaimed articles and books.
