The Quotable Joe Katherine Rodriguez 2020-09-25 Former vice president Joe Biden has said many things throughout his career where he has put his foot in his mouth, flat-out lied or flip-flopped on his votes, made up false stories, plagiarized, and said racist comments. Things have not changed for "Sleepy Joe" since he decided to run for president in 2020. During his run on the 2020 campaign trail, he's told people at campaign rallies to "vote for someone else" and has called them "lying, dog-faced pony soldiers." Throughout this book, you can expect to find some of Biden's most off-the-wall statements that make him the most embarrassing candidate to ever run for president.

Asian Migration and New Racism Sylvia Ang 2022-10-20 Studies of racism against migrants have recently attempted to move away from the presumed dichotomy between 'white' and 'Others', yet the focus of much research remains predominantly trained on 'white' people racializing 'Others': whether Black, Asian or Muslim. Attending only to this 'white'/Other' binary homogenises select groups of non-'white' including Asians. This approach also ignores racialisation and racism by Asians and among Asians. Consequently, there is a dearth of studies on issues of race in non-'white' settings. Through engaging the themes of co-ethnicity, intersectionality and postcoloniality, this book contributes to extant studies of migration in three ways through: (1) examining new geographical sites of racialisation and racism; (2) illuminating racialisation and racism beyond the 'white'/Others' binary; and (3) introducing new dynamics in racialisation and racist discourses, including intersectional factors such as nationality, class, gender, language, religion, temporal framings and postcoloniality. Asian Migration and New Racism will be of interest to scholars and advanced students of Sociology, Social and Political Geography, Social Anthropology, History and Politics. The chapters in this book were originally published as a special issue of Ethnic and Racial Studies.

The Torture Doctors Steven H. Miles MD 2020-03-02 Torture doctors invent and oversee techniques to inflict pain and suffering without leaving scars. Their knowledge of the body and its breaking points and their credible authority over death certificates and medical records make them powerful and elusive perpetrators of the crime of torture. In The Torture Doctors, Steven H. Miles fearlessly explores who these physicians are, what they do, how they escape justice, and what can be done to hold them accountable. At least one hundred countries employ torture doctors, including both dictatorships and democracies. While torture doctors mostly act with impunity—protected by governments, medical associations, and licensing boards—Miles shows that a movement has begun to hold these doctors accountable and to return them to their proper role as promoters of health and human rights. Miles's groundbreaking portrayal exposes the thinking and psychology of these doctors, and his investigation points to how the international human rights community and the medical community can come together to end these atrocities.

After Midnight Drew Morton 2022-11-15 Contributions by Apryl Alexander, Alisia Grace Chase, Brian Faucette, Laura E. Felschow, Lindsay Hallam, Rusty Hatchell, Dru Jeffries, Henry Jenkins, Jeffrey SJ Kirchoff, Curtis Marez, James Denis McGlynn, Brandy Monk-Payton, Chamara Moore, Drew Morton, Mark C. E. Peterson, Jayson Quearry, Zachary J. A. Rondinelli, Suzanne Scott, David Stanley, Sarah Pawlak Stanley, Tracy Vozar, and Chris Yogerst *Alan Moore and Dave Gibbons's Watchmen* fundamentally altered the perception of American comic books and remains one of the medium's greatest hits. Launched in 1986—"the year that changed comics" for most scholars in comics studies—*Watchmen* quickly assisted in cementing the legacy that comics were a serious form of literature no longer defined by the Comics Code era of funny animal and innocuous superhero books that appealed mainly to children. *After Midnight: "Watchmen" after "Watchmen"* looks specifically at the three adaptations of Moore and Gibbons's *Watchmen*—Zack Snyder's *Watchmen* film (2009), Geoff Johns's comic book sequel *Doomsday Clock* (2017), and Damon Lindelof's *Watchmen* series on HBO (2019). Divided into three parts, the anthology considers how the sequels, especially the limited series, have prompted a reevaluation of the original text and successfully harnessed the politics of the contemporary moment into a potent relevancy. The first part considers the various texts through conceptions of adaptation, remediation, and transmedia storytelling. Part two considers the HBO series through its thematic focus on the relationship between American history and African American trauma by analyzing how the show critiques the alt-right, represents intergenerational trauma, illustrates alternative possibilities for Black representation, and complicates our understanding of how the mechanics of the show's production can impact its politics. Finally, the book's last section considers the themes of nostalgia and trauma, both firmly rooted in the original Moore and Gibbons series, and how the sequel texts reflect and refract upon those often-intertwined phenomena.

The Challenge of Sustainability in Agricultural Systems Aleksei V. Bogoviz 2021-06-02 This book presents a multidisciplinary collection of original contributions made by the leading scholars and practitioners on researching, building, and maintaining sustainable agricultural systems. Being the first of its kind, the book is divided into two volumes. This book presents a comprehensive and informed review of the current state of multidisciplinary knowledge on sustainability in agriculture. The gaps in the scholarly literature are identified and rigorously analyzed, presenting a clear picture of the promising research directions. The authors critically analyze the very concept of sustainable agricultural systems, primarily focusing on the interactions existing between their integral components and with external environments. Relying on the provisions of complex systems science, the scholars then discuss the best approaches and methodologies used to build a comprehensive understanding of agricultural systems, with relation to achieving and maintaining their sustainability. More than that, this book holds two rich sections on (1) agricultural economics and (2) rural sustainability. Understanding sustainable development as a movement toward clearly defined and measurable goals, a set of chapters explore those policies, practices, technologies, and management systems that have an impact on the sustainability of agricultural systems. Agricultural sustainability is an urgent issue to be addressed, and this book makes a unique contribution. Due to its practical focus, the book appeals to practitioners and policymakers working in agricultural economics, governance, and sustainability, not just academics. This is also a valuable resource for graduate students interested in agricultural systems, sustainability, as well

as complex systems theory and practice.

American Kleptocracy Casey Michel 2021-11-23 A remarkable debut by one of America's premier young reporters on financial corruption, Casey Michel's *American Kleptocracy* offers an explosive investigation into how the United States of America built the largest illicit offshore finance system the world has ever known. "An indefatigable young American journalist who has virtually cornered the international kleptocracy beat on the US end of the black aquifer." —The Los Angeles Review of Books For years, one country has acted as the greatest offshore haven in the world, attracting hundreds of billions of dollars in illicit finance tied directly to corrupt regimes, extremist networks, and the worst the world has to offer. But it hasn't been the sand-splattered Caribbean islands, or even traditional financial secrecy havens like Switzerland or Panama, that have come to dominate the offshoring world. Instead, the country profiting the most also happens to be the one that still claims to be the moral leader of the free world, and the one that claims to be leading the fight against the crooked and the corrupt: the USA. *American Kleptocracy* examines just how the United States' implosion into a center of global offshoring took place: how states like Delaware and Nevada perfected the art of the anonymous shell company, and how post-9/11 reformers watched their success usher in a new flood of illicit finance directly into the U.S.; how African despots and post-Soviet oligarchs came to dominate American coastlines, American industries, and entire cities and small towns across the American Midwest; how Nazi-era lobbyists birthed an entire industry of spin-men whitewashing trans-national crooks and despots, and how dirty money has now begun infiltrating America's universities and think tanks and cultural centers; and how those on the front-line are trying to restore America's legacy of anti-corruption leadership—and finally end this reign of American kleptocracy.

A Father's Plea Kamalle Dabboussy 2021-06-08 When Mariam married her childhood sweetheart in a fairytale Sydney wedding, her father Kamalle dreamed of a beautiful future for his family. When the young couple and their baby daughter went on an overseas holiday, he couldn't have been happier. But a dark secret was lurking on the horizon. They would not be coming home. Mariam disappeared. Months later, Kamalle was informed by the Australian government that his daughter had been coerced into Syria. He later learnt that she had been forced at gunpoint, by her husband, across the border into Syria and into the clutches of ISIS. When her husband was killed, Mariam was forced to marry another ISIS fighter, with whom she had another child. When he was killed she was forced to marry again; she was trapped. But since the defeat of ISIS, instead of being brought home, Mariam and her three young children have been demonised as 'foreign fighters', forced to languish in refugee camps while their home country refuses to repatriate them. Kamalle has been working with international agency Save the Children for over two years trying to bring home his daughter and grandkids, who have been abandoned amongst the 20 Australian adults and 47 children. Interacting with law enforcement and government agencies in Australia, he was told that keeping quiet would be in their best interests. That has achieved nothing. Now he tells his story

Whiteness, Power, and Resisting Change in US Higher Education Kenneth R. Roth 2020-12-22 This edited volume connects the origins of US higher education during the Colonial Era with current systemic characteristics that maintain white supremacist structures and devalue students and faculty of color, as

well as areas of study that interrogate Whiteness. The authors examine power structures within the academy that scaffold Whiteness and promote inequality at all levels by maintaining a two-tier faculty system and a dearth of Faculty and Administrators of Color. Finally, contributors offer systemic and collective solutions toward a more equitable redistribution of power, primarily among faculty and administration, through which other inequities may be identified and more easily addressed.

Lebanese Women at the Crossroads Nelia Hyndman-Rizk 2020-01-31 Thirty years after the end of the civil war, Lebanese women are still struggling for gender equality. This study builds on recent scholarship on women's activism in the Arab world, in the context of the Arab Spring. It examines how discourses of secularism and equal civil rights have informed the contemporary Lebanese women's movement in their campaigns for a domestic violence law, women's nationality rights, a women's quota in parliament, the reform of personal status law and the recognition of civil marriage. This book argues that women are caught between sect and nation, due to Lebanon's plural legal system, which makes a division between religious and civil law. While both jurisdictions allocate women relational rights, guided by the logic of patrilineal descent, women's inequality is central to the reproduction of sectarian difference and patriarchal control within the confessional political system, as a whole.

Divided JoAnn Jaffe 2021-10-08T00:00:00Z Divided looks at the last fifteen years in Saskatchewan, during which time the Saskatchewan Party government sought to reforge the province's image into the New Saskatchewan: brash, materialistic, highly competitive and aggressively partisan. In the process, a climate of polarization and hyper-partisanship swept the province into a near-perpetual state of anger and social division. These actions are not without consequences. In Divided, diverse voices describe the impact on their lives and communities when simmering wedge issues burst open on social media and in public spaces. The collection dives deep into the long set-up to this moment, from the colonial past to the four decades of neoliberal economics that have widened social and economic gaps across all sectors. Divided positions Saskatchewan as a fascinating case study of the global trends of division and provides testament to the resiliency of a vision of social solidarity against all odds.

The Black Circuit Rashida Z. Shaw McMahan 2020-03-27 The Black Circuit: Race, Performance, and Spectatorship in Black Popular Theatre presents the first book-length study of Chitlin Circuit theatre, the most popular and controversial form of Black theatre to exist outside the purview of Broadway since the 1980s. Through historical and sociological research, Rashida Z. Shaw McMahan links the fraught racial histories in American slave plantations and early African American cuisine to the performance sites of nineteenth-century minstrelsy, early-twentieth-century vaudeville, and mid-twentieth-century gospel musicals. The Black Circuit traces this rise of a Black theatrical popular culture that exemplifies W. E. B. Du Bois's 1926 parameters of "for us, near us, by us, and about us," with critical differences that, McMahan argues, complicate our understanding of performance and spectatorship in African American theatre. McMahan shows how an integrated and evolving network of consumerism, culture, circulation, exchange, ideologies, and meaning making has emerged in the performance environments of Chitlin Circuit theatre that is reflective of the broader influences at play in acts of minority spectatorship. She labels this network the Black Circuit.

Reset Ronald J. Deibert 2020-10-06 How to comprehend and correct the negative impact of the internet on politics, the economy, the environment and humanity? Reset is a fast-paced, compelling exposé and a rallying call for clear change. Drawing on the cutting-edge research of the Citizen Lab, the world-renowned digital security research group he founded, Ronald J. Deibert exposes the influence of the communications ecosystem on civil society. He tracks a mostly unregulated surveillance industry, innovations in technologies of remote control, superpower policing practices, dark PR firms and highly

profitable hack-for-hire services feeding off rivers of poorly secured personal data. He also unearths how dependence on social media and its expanding universe of consumer electronics creates immense pressure on the natural environment. Determined to find solutions, Deibert has written a unique, readable and forward-looking book. In order to combat authoritarian practices, environmental degradation and rampant electronic consumerism, Deibert urges for very specific restraints on tech platforms and governments to reclaim the internet for civil society. It's time for us to push RESET. 'Deibert is a rare hybrid who combines an advanced understanding of computer technology with a rich background in political science. He is also a legend in security and tech circles.' Misha Glenny 'Although Deibert shares Higgins' appetite for the fight, he is much more mindful of the immense scale of the challenge.' A Voice in the Wilderness Archbishop Carlo Viganò 2021-03-17 "To restore the beauty of holiness to the face of the Bride of Christ, which is terribly disfigured by so many abominable crimes, and if we truly want to free the Church from the fetid swamp into which she has fallen, we must have the courage to tear down the culture of secrecy and publicly confess the truths we have kept hidden." These bold words from the pen of an archbishop in exile—part of a bombshell exposé published in August 2018 concerning Theodore McCarrick and his circle—catapulted the ecclesiastical diplomat Carlo Maria Viganò to international prominence. In a steady stream of interventions from that time onward, Archbishop Viganò has not only supplied further incriminating details on the current Vatican regime but has extended his critique to the neo-modernism and worldly accommodation that officially entered the Church through the Second Vatican Council. He argues, moreover, that just as there is a "deep state" of wealthy and powerful international elites who exercise enormous sway over political affairs and cultural vectors, so too there is a "deep church" that retains for its advantage the external trappings of religion while pursuing an agenda of error and moral corruption. These pseudo-sovereignties closely collaborate as they work for the same goals, which are, at this point, an open secret. A Voice in the Wilderness collects for the first time all the major writings of Archbishop Viganò from August 2018 to January 2021, with explanatory introductions and notes by Brian M. McCall. Finally available in one place to allow for easy access, assimilation, and debate, it is the definitive edition of an extraordinary body of pronouncements that have stirred up vehement controversy on all sides. Regardless where one stands in its regard, Viganò's arresting message cannot be ignored. Ultimately, it is one of conversion to Christ the King, the Truth in person, who sets us free from the accumulating slaveries of our time.

Politics and the Mediatization of School Educational Policy Grant Rodwell 2020-04-07 Despite increasing prevalence over the past three decades and a clear impact on school education policy and practice, education's connection to dog-whistle journalism and politics has not yet been fully explored. Addressing this gap, Politics and the Mediatization of School Educational Policy examines the emergence and current impact of dog-whistle politics and journalism on education in Australia, the US and the UK, questioning what is at stake when this political dog whistle is directed at school educational policy and practice. Exploring common targets for dog-whistling, such as teaching standards, teacher quality and specific curriculum areas, such as history, sex and health education, the book considers the broader social issues of xenophobia and racism, as well as the decline of print media and rise of digital news sources in its place, with each chapter including an in-depth discussion using peer-reviewed literature on the subject. Following the trail of dog whistles impacting in school educational policy and practice across these three countries, this book explores: To what extent is the dog-whistle dynamic embedded in school educational policy and practice? To what extent does the dog-whistle dynamic affect our understanding of school educational policy and practice? How might we explain the continued flurry of dog whistles impacting school educational policy and practice? As the phenomenon of the dog whistle intensifies both nationally and internationally, this timely and thought-provoking book is necessary reading for academics, postgraduate researchers and all members of school communities.

We Are America, We Are Americans (HB) Matt Teahan 2022-06-08 We Are America, We Are Americans (HB) By: Matt Teahan A Journey through life (at least part of it)... and the lessons learned... and in a rare instance.... taught. In this quasi-autobiography, I answer the confounding questions of our day through a riveting (for some people) journey of all topics relevant. Is the United States of America really a Christian Nation? Where has this Country's corporate leadership gone? Why would anyone waste an entire adolescence refining their basketball jump shot? Why has the moral compass in Professional Sports disappeared into the abyss of political wokeness? Why do we need to ban plastic straws and not water bottles.....particularly if Climate Change is going to kill us all in 9 years, anyway? How do we pay reparations for people of mixed race? How can chicken sandwiches galvanize and legitimize the LGBT

community? What did I share with the Pope at the sacred site of Fatima? What's it going to take to get millennials off Twitter, out of Mom's basement and into Church? Why is 'systemic ignorance' a far greater threat to this country than anything else 'systemic'? I'll introduce a toxic blend of fact, fiction, criticism, sarcasm, reality, inquiry, and humor into the topics of the day. And I'll blend my shallow, yet relevant, life experiences into the mix where it's almost impossible to tell the difference. You may get bored. You might not. You may or may not like my viewpoints. You might not even like me. But you won't be the first nor the last. I think, however, everyone will find something here they can relate to. Whether it's basketball, friends, God, politics, a career, or the social issues of the day there's something for everybody. Even for those who rarely open a book, like today's College students. For them I've included pictures. See! Something for everybody!! And although some of my viewpoints you may frown upon, you will appreciate the humor, anecdotes, multiple geography lessons, ridicule, sarcasm, and blatant hypocrisy that I'll expose on any number of topics. All shrouded in the novel concept called 'common sense'. And if you don't like to read about those types of things, then don't buy the book. Get it at the library. I started this book on July 4th, 2020. And I did it for a reason.

The contributors, leading experts in the field, help students enhance their understanding of the importance of state-local relations in the U.S. federal system, argue for better analysis of the consequences of state-local relations for the quality of policy outcomes, and introduce them to public service career opportunities in state and local government.

Sexual Violence in Australia, 1970s–1980s Lisa Featherstone 2021-07-28 This book explores sexual violence and crime in Australia in the 1970s and 1980s, a period of intense social and legal change. Driven by the sexual revolutions, second wave feminism, and ideas of the rights of the child, there was a new public interest in the sexual assault of women and children. Sexual abuse was studied, surveyed and discussed more than ever before in Australian society. Yet, despite this, there remained substantial inaction, by government, from community and on the part of individuals. This book examines several difficult questions of our recent history: why did Australia not act more firmly to eradicate rape and child sexual abuse? What prevented our culture from looking seriously at trauma? How did we fail to protect victim-survivors? Rich in social and legal history, this study takes readers into the world of victims of sexual crime, and into the wider community that had to deal with sexual violence. At the core of this book is the question that resonates deeply right now: why does sexual violence appear seemingly insurmountable, despite significant change?
