John Beilein at Michigan Tim Rooney 2020-01-29 When John Beilein arrived at University of Michigan in 2007, the once-proud men's basketball program was adrift after failing to reach the NCAA Tournament for nine straight seasons. Over the next twelve years, he became the program's all-time winningest coach, reached two national championship games, won four Big Ten championships and produced eight NBA first-round draft picks. In an age of ethical lapses throughout college basketball, Beilein succeeded without a hint of impropriety. As much a teacher as a coach, he consistently identified undervalued recruits, taught them his innovative offensive system and carefully developed them into better players--an approach to the game that drove his unprecedented rise from high school junior varsity coach to head coach of the Cleveland Cavaliers. This book examines his tenure at Michigan in detail for the first time.

Divided JoAnn Jaffe 2021-10-08T00:00:00Z Divided looks at the last fifteen years in Saskatchewan, during which time the Saskatchewan Party government sought to reforge the province's image into the New Saskatchewan: brash, materialistic, highly competitive and aggressively partisan. In the process, a climate of polarization and hyper-partisanship swept the province into a near-perpetual state of anger and social division. These actions are not without consequences. In Divided, diverse voices describe the impact on their lives and communities when

simmering wedge issues burst open on social media and in public spaces. The collection dives deep into the long set-up to this moment, from the colonial past to the four decades of neoliberal economics that have widened social and economic gaps across all sectors. Divided positions Saskatchewan as a fascinating case study of the global trends of division and provides testament to the resiliency of a vision of social solidarity against all odds.

International Law and the War with Islamic State Saeed Bagheri 2021-07-15 Armed non-state actors (ANSAs) often have economic aims that international law needs to respond to. This book looks at the aim of Islamic State to create an effective government, with an economically independent regime, which focused on key oilfields in Syria and Iraq. Having addressed Islamic State's quest for energy resources in Iraq and Syria, the book explores the lawfulness of the war with Islamic State from a variety of legal aspects. It has been attempted to make inroads into the most controversial aspects of contradictions in the application of jus ad bellum and jus in bello, particularly when discussing the use of extraterritorial armed force against ANSAs, and the obligation to protect civilian objects, including the natural environment. The question is whether the targeting of energy resources should be regarded as a violation of the laws of armed conflict, even though the war with Islamic State being classified as a non-international armed conflict. Ambitious in scope, the study argues that legal theory and state practice are still

problematic as to how and under what conditions states can justify resorting to military force in foreign territory, and to what extent they can target natural resources as being part of state property. Furthermore, it goes on to examine the differences between international and non-international armed conflicts, to establish whether there is any difference in the targeting of energy resources as part of the war-sustaining capabilities of either party. Through an examination of the Islamic State case, the book offers a comprehensive study to close the gaps in jus in bello by contextualising the questions of civilian protection, victimisation and state responsibility by evaluating the US's war-sustaining theory as a justification for the destruction of a territorial state's natural resources that are occupied by ANSAs.

India in the Era of China's Belt and Road Initiative Anil Sigdel 2020-10-19 Anil Sigdel dives into some of the most interesting trends in international relations, such as the rising influence of China and the instruments it uses to advance its interests worldwide, chiefly among them the Belt and Road Initiative(BRI) and the interplay between China and India, and what means New Delhi employs to come after China in the wider world. To this end, Sigdel takes both a geographic view by analyzing China's and India's relations with key regions – South East to Central Asia, Indian Ocean Region and Africa - and a functional view scrutinizing issues of relevance to the main topic – from cultural ties to infrastructure investment and maritime security. In his incisive analysis, Sigdel provides rich details on how India's partnership is shaping with the major stakeholders in the Indo-Pacific region such US, Japan and France, and how India is balancing these partnerships vis-à-vis the one with Russia. The conclusions point to interesting prospects for the future – China challenge has, in a way, helped India further advance its own ambition of becoming a separate pole or leading power, therefore, India is likely to pursue that status by aligning issue-wise with all the powers.

Youth-Led Social Movements and Peacebuilding in Africa Ibrahim Bangura 2022-05-24 This book critically examines and analyses the active role played by youth-led social movements in pushing for change and promoting peacebuilding in Africa, and their long-term impacts on society. Africa's history is characterised by youth movements. The continent's youth populations played pivotal roles in the campaign against colonialism and, ever since independence, Africa's youth have been at the center of social mobilisation. Most recently, social media has contributed significantly to a further rise in youth-led social movements. However, the impact of youth voices is often marginalised by patriarchal and gerontocratic approaches to governance, denying them the place, voice, and

recognition that they deserve. Drawing on empirical evidence from across the continent, this book analyses the drivers and long-term impacts of youth-led social movements on politics in African societies, especially in the area of peacebuilding. The book draws attention to the innovative ways in which young people continue to seek to re-engineer social space and challenge contexts that deny them their voice, place, recognition and identity. This book will be of interest to researchers across the fields of social movement studies, youth studies, peace and conflict studies, history, political sciences, social justice, and African studies.

Living Histories Dustin Garnet 2022-07-29 Living Histories is a collection of new scholarship that explores histories of art education through a series of international contexts. The first truly international text highlighting histories of art education, with contributions from over 30 scholars based in 18 countries. Art education holds an important role in promoting historical awareness of the multiple relations that connect pedagogic inquiry with culture, heritage, place and identity, locally and globally. To keep pace with the movements of art and society, Garnet and Sinner consider that art education requires more inclusive and holistic versions of history from transnational perspectives that break down barriers and cross borders in the pursuit of more informed and diverse understandings of the field. The broad focus of this edited collection is to provide both new perspectives of art education from around the world, and to introduce transnationalism into the field as a way to conceptualize the entanglements of historical research in our globalized age. Transnational histories of art education focus on the linkages and flows that shift focus away from the nation-state to other transnational actors such as individuals, communities, institutions and/or organizations. Contributions from scholars and educators based and working in Australia, Austria, Brazil, Canada, Colombia, Croatia, Czech Republic, Finland, India, Iran, Japan, Malta, South Africa, Spain, Trinidad and Tobago, UK, USA and Zimbabwe. Includes chapters that adapt an approach of 'artwork histories' to explore the legacies of art education as an anticipatory mode of historical thinking and practice across the visual arts and sites of art education. The book offers an opportunity for authentic engagement and intellectual risk, which includes the rejection of 'correct' interpretations of historical problems. As active agents, art education historians are not passive collectors of the past, but engaged in new ways of doing history predicated on cultivating stories that move beyond representation to attend to aesthetic dimensions that bridge historiography, material culture, oral history, art history and teacher education. Living Histories provides an interpretation of historical thinking and consciousness through the interrelations of time and space to provoke critical and creative practices in education. This is the latest book in the

Artwork Scholarship series, which aims to invite debate on, and provide an essential resource for transnational scholars engaged in, creative research involving visual, literary and performative arts. With contributors from 18 countries, this book will have a substantial international readership among art educators and those interested in the history of art education, primarily in universities and colleges. It will also be particularly useful for graduate students. It will also appeal to scholars in arts education more broadly - music education, dance education, theatre education scholars, cultural and art historians, art theorists, international educators, and curators.

Testing 3, 2, 1 Michael Lawrence 2020-03-23 Testing 3, 2, 1 is the story of how Australian education fell behind the world's best and how Finland came to lead. It is also a guide to how some of Finland's ideas can be used by teachers and schools to begin to reverse the current malaise of Australia's education system. Part memoir, part investigative journalism, part call-to-action, this easy-to-read and highly compelling plea for an improved education system can't be ignored ... Lawrence reminds us that we can (and must) do better. - Jared Cooney Horvath PhD, Educational Neuroscientist, Melbourne Graduate School of Education, University of Melbourne. Arms Control for the Third Nuclear Age David A. Cooper 2021 International relations scholar David A. Cooper offers a reappraisal of classic arms control theory that advocates for reprioritizing deterrence over disarmament in a new era of nuclear multipolarity.

Social Media Communication Jeremy Harris Lipschultz 2020-05-27 This updated third edition presents a wide-scale, interdisciplinary guide to social media. Examining platforms like Facebook, Instagram, LinkedIn, Snapchat, TikTok, Twitter and YouTube, the book analyzes social media's use in journalism, broadcasting, public relations, advertising and marketing. Lipschultz focuses on key concepts, best practices, data analyses, law and ethics – all promoting the critical thinking that is needed to use new, evolving and maturing networking tools effectively within social and mobile media spaces. Featuring historical markers and contemporary case studies, essays from some of the industry's leading social media innovators and a comprehensive glossary, this practical, multipurpose textbook gives readers the resources they will need to both evaluate and utilize current and future forms of social media communication. Among other changes, updates to the third edition include a deep dive into new approaches to analytics, as well as greater discussion of law and ethics in light of the Facebook Cambridge Analytica scandal, the

roll-out of GDPR and new case law relating to social media. Social Media Communication is the perfect social media primer for students and professionals, and, with a dedicated teaching guide, ideal for instructors, too.

Behavior Science Perspectives on Culture and Community Traci M. Cihon 2020-12-04 All science proceeds by progressively building on the work of others while remaining open to new discoveries and challenging existing conceptual frameworks. The same is true of culturo-behavior science. This textbook presents the scientifically rigorous work of the last several decades that has taken a behavior-analytic view of social and cultural processes, with an eye for contributions that address social and cultural issues. The chapters herein explore and elaborate on the history, theories, and methodologies of culturo-behavior science and those of its researchers and practitioners. Throughout this volume, the authors intentionally prompt students to both learn from and question the current theory and methods while shaping their own research and practice. This book presents multiple intersecting perspectives intended for graduate-level students of behavior analysis. Contributors to this volume include many of the major scholars and practitioners conducting research and/or practicing in communities and larger cultural systems. Their work is scientifically guided, systemic, and ecologically valid; it includes basic research as well as efforts having applications in community health, sustainability, environmental issues, and social justice, among other matters. There is material here to support specialists preparing to do research or practice within community and cultural-level systems. As well, students who intend to do direct and clinical work will find the background they need to make contributions to the field as engaged, informed citizens.

The Emergence of Charismatic Business Leadership Richard S. Tedlow 2021-09-14 What makes a truly successful leader? Whether you're the manager of a small team or the CEO of a global brand, learn how leading business figures have developed their leadership skills and management styles to become more effective leaders. In The Emergence of Charismatic Business Leadership, Harvard Business School Emeritus professor Richard S. Tedlow examines how the role of the business leader has changed since World War II. A handful of individuals have helped transform the face of modern-day leadership, making charisma essential to the role. But what does this change mean for the future? How can you become the next world-changing leader? In order to answer these questions, we must look at leaders like Oprah Winfrey, Elon Musk, and Steve Jobs. Today, Jobs is considered to be the model of the modern charismatic business leader, but it would have been inconceivable for him to be the CEO of a major company in 1955, the year he was born. Though all three of these pioneers were once outsiders, they each found

success by innovating their management style and using their charisma to champion their clear and ambitious vision. Through Tedlow's in-depth accounts of modern business history, we see how charismatic leadership enables the creation of revolutionary new products—the battery electric vehicle, the smart phone—and makes it possible for former outsiders to attain power and influence. However, the book also considers the careers of people who used their charisma to mislead, such as Jeff Skilling of Enron and Elizabeth Holmes of Theranos. Charisma can get you far, but if not accompanied by genuine character, it will lead you astray. In this thorough examination, Tedlow shows how charismatic figures have developed the leadership skills and management tools necessary to oversee a successful business and become a charismatic business leader.

A President's Daily Brief: Year 3 Micah Fisher-Kirshner

Like Nobody's Business Andrew C. Comrie 2021-02-23 How do university finances really work? From flagship public research universities to small, private liberal arts colleges, there are few aspects of these institutions associated with more confusion, myths or lack of understanding than how they fund themselves and function in the business of higher education. Using simple, approachable explanations supported by clear illustrations, this book takes the reader on an engaging and enlightening tour of how the money flows. How does the university really pay for itself? Why do tuition and fees rise so fast? Why do universities lose money on research? Do most donations go to athletics? Grounded in hard data, original analyses, and the practical experience of a seasoned administrator, this book provides refreshingly clear answers and comprehensive insights for anyone on or off campus who is interested in the business of the university: how it earns its money, how it spends it, and how it all works.

The Struggle of Entertainment and Neoliberal Postcolonial Capitalist Politics in "New" Saudi Arabia Anas Alahmed 2022-07-07 This book analyzes the General Entertainment Authority of Saudi Arabia in transforming the state into a more neoliberal capitalist form of modernity. This book employs postcolonial analysis to examine how the Saudi government has produced and circulated cultural products in society to serve the postcolonial politics of the Global South.

The Limits of #MeToo in Hollywood Margaret Tally 2021-07-06 In October 2017, actress Alyssa Milano sparked the #MeToo movement. The ensuing protests quickly encompassed far more than Harvey Weinstein and the entertainment industry. They expressed women's outrage at male workplace behavior in every sector and social class and even helped elect a new generation of women leaders in 2018. But what has been the effect of #MeToo in the entertainment industry itself? This book traces the movement's influence on the stories being told, on changing representations of women's lives and bodies, and on the slow changes among the producers who shape the stories. Analyzing a wide set of TV and film genres--including crime, legal and medical dramas, comedies, horror and reality programming--this book covers the complex ways that media respond to social movements: They sometimes give voice to brand-new or previously silenced stories, but just as often make facile references that can blunt the potential for change, or even fuel cultural backlash.

Divided We Stand Andrew E Busch 2021-03-15 Continuing a R&L tradition now entering its fourth decade, this book

provides the most comprehensive and authoritative account of the national 2020 election, including the presidential nomination process and general election, and congressional and state elections. Andrew E. Busch and John J. Pitney Jr. revisit the campaigns and results through the short lens of politics today and the long lens of American political history. With its keen insights into the issues and events that drove the 2020 elections, *Divided We Stand: The 2020 Elections and American Politics* will be an invaluable resource for students and all political observers seeking to understand a historic election that will continue to resonate throughout American politics for many years to come.

Law, Insecurity and Risk Control John Pratt 2020-08-05 This book examines our contemporary preoccupation with risk and how criminal law and punishment have been transformed as a result of these anxieties. It adopts an historical approach to examine the development of risk control measures used across the US, UK, New Zealand, Australia and Canada - particularly since the 1980's - with the rise of the "security sanction". It also takes a criminological and sociological approach to analysing shifts in criminal law and punishment and its implications for contemporary society and criminal justice systems. *Law, Insecurity and Risk Control* analyses the range and scope of the 'security sanction' and its immobilizing measures, ranging from control over minor incivilities to the most serious crimes. Despite these innovations, though, it argues that our anxieties about risk have become so extensive that the "security sanction" is no longer sufficient to provide social stability and cohesion. As a consequence, people have been attracted to the 'magic' of populism in a revolt against mainstream politics and organisations of government, as with the EU referendum in the UK and the US presidential election of Donald Trump in 2016. While there have been political manoeuvrings to rein back risk and place new controls on it, these have only brought further disillusionment, insecurity and anxiety. This book argues that the "security sanction" is likely to become more deeply embedded in the criminal justice systems of these societies, as new risks to both the well-being of individuals and the nation state are identified.

Greening the Greyfields Peter W. Newton 2021-11-23 This open access book outlines new concepts, development models, governance and implementation processes capable of addressing the challenges of transformative urban regeneration of cities at precinct scale.

Dilemmas of Free Expression Emmett Macfarlane 2021-11-08 Free expression is under threat. Social media and fake news, misinformation, and disinformation have prompted governments to propose new forms of regulation that are deeply challenging to free expression. Hate speech, far-right populism, campus speech debates, and

ensorship consistently make headlines in Canada and abroad. Dilemmas of Free Expression offers forward-looking appraisals of ways to confront challenging moral issues, policy problems, and controversies that pay heed to the fundamental right to free expression. The essays in this volume offer timely analyses of the law, policy, and philosophical challenges, and social repercussions to our understanding of expressive freedom in relation to government obligations and public discourse. Free expression and its limits are multifaceted, deeply complex, inherently values-based, and central to the ability of a society to function. Dilemmas of Free Expression addresses the challenges of limiting free expression across a host of issues through an analyses by leading and emerging voices in a number of disciplines, including political science, law, philosophy, and Indigenous studies.

Eradicating Human Trafficking: Culture, Law and Policy Gabriela Curras DeBellis 2021-12-13 With over 40 million people still enslaved around the world, this book takes a closer look at the role of culture in society and how certain practices, beliefs or behaviors are fueling human trafficking beyond what the law can curtail.

Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation Virginia Small 2021-09-24 Drawing on a wealth of academic research, statistics and interviews with key Australian media people including present and former Australian Broadcasting Corporation staffers, this book explores the transitions of the ABC under various types of organisational re-strategising, governance and political shifts. The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society, and unfolds how the ABC has strayed from its respected public charter which endowed the ABC with a distinctive and important role in informing, educating and entertaining the Australian public. Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media. In that process it has become politicised and trivialised, thereby threatening its demise. The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere. There is no other book in the market that addresses the decline of the organisation (the ABC) and analyses the reasons for its demise within an organisational theoretical framework. The book is written for an educated general audience, with academics and media practitioners specifically in mind, and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding, budgets, management and organisational strategies and evolution.

A President's Daily Brief: Years 1-4 Micah Fisher-Kirshner

What was daily life under the Trump presidency really like?

An accessible ebook with short, thematic entries showing the corruption of the entire Trump presidency, A President's Daily Brief, Year 1-4: The Day-by-Day Lurch of Trump's Norm-Breaking Presidency is the full volume of Micah Fisher-Kirshner's series, representing the four years of Trump's time in power and the subversion that occurred. More than a compiled list of significant events that portray Trump as the most corrupt American president, this digestible and scannable read of in-the-moment posts pulled from news outlets and credible sources provides an intimate look at how the administration went about breaking the presidential norms on a daily basis. Readers also will have access to citations to fact-check claims.

This quick read on a Trump presidency that started off with outrage and graduated to righteous indignation is a must-have for those who enjoy history, politics, and government or simply want to read about the most notorious presidency in history.

Lying in State Eric Alterman 2020-08-11 This definitive history of presidential lying reveals how our standards for truthfulness have eroded -- and why Trump's lies are especially dangerous. If there's one thing we know about Donald Trump, it's that he lies. But he's by no means the first president to do so. In Lying in State, Eric Alterman asks how we ended up with such a pathologically dishonest commander in chief, showing that, from early on, the United States has persistently expanded its power and hegemony on the basis of presidential lies. He also reveals the cumulative effect of this deception--each lie a president tells makes it more acceptable for subsequent presidents to lie--and the media's complicity in spreading misinformation. Donald Trump, then, represents not an aberration but the culmination of an age-old trend. Full of vivid historical examples and trenchant analysis, Lying in State is essential reading for anyone seeking to understand how we arrived in this age of alternative facts.

Refuge in a Moving World Elena Fiddian-Qasmiyeh 2020-07-17 Refuge in a Moving World draws together more than thirty contributions from multiple disciplines and fields of research and practice to discuss different ways of

engaging with, and responding to, migration and displacement. The volume combines critical reflections on the complexities of conceptualizing processes and experiences of (forced) migration, with detailed analyses of these experiences in contemporary and historical settings from around the world. Through interdisciplinary approaches and methodologies – including participatory research, poetic and spatial interventions, ethnography, theatre, discourse analysis and visual methods – the volume documents the complexities of refugees' and migrants' journeys. This includes a particular focus on how people inhabit and negotiate everyday life in cities, towns, camps and informal settlements across the Middle East and North Africa, Southern and Eastern Africa, and Europe.

A Water Story Geoff Beeson 2020-02-03 Freshwater scarcity is a critical challenge, with social, economic, political and environmental consequences. Water crises in Australia have already led to severe restrictions being applied in cities, drought ravaging farmlands, and the near-terminal decline of some rivers and wetlands. A Water Story provides an account of Australian water management practices, set against important historical precedents and the contemporary experience of other countries. It describes the nature and distribution of the country's natural water resources, management of these resources by Indigenous Australians, the development of urban water supply, and support for pastoral activities and agricultural irrigation, with the aid of case studies and anecdotes. This is followed by discussion of the environmental consequences and current challenges of water management, including food supply, energy and climate change, along with options for ensuring sustainable, adequate high-quality water supplies for a growing population. A Water Story is an important resource for water professionals and those with an interest in water and the environment and related issues, as well as students and the wider community.

Religion and Peace Nukhet A. Sandal 2022-08-30 Can religion help societies achieve peace and stability? What actions can religious leaders take to facilitate conflict resolution? This book addresses these critical questions in terms of numerous contemporary conflicts within and between countries. In the aftermath of the 9/11 attacks, public attention to religion shifted away from its relationship to politics and toward its connection to violence in civil conflicts, wars, and terrorism. Religion's role in sowing discord became more prominent than its ability to unify. Only recently have discussions turned toward the positive impact of religion and spirituality in the public sphere and to the role of faith in resolving diplomatic, political, and social problems. The essays in this book contribute to this discourse by examining past, present, and future opportunities to promote peace through religion and spirituality. The contributors to this volume explore topics such as humanitarianism, philosophy, counterextremism, human rights, rituals, populism, foreign policy, and environmentalism. Some of the chapters approach these topics from a

transnational perspective, while others focus on specific countries in Africa, Asia, Europe, Latin America, and the Middle East. Contributors: Jonathan C. Aginsky Slavica Jakeli? To Be A Water Protector Winona LaDuke 2020-12-01T00:00:00Z Winona LaDuke is a leader in cultural-based sustainable development strategies, renewable energy, sustainable food systems and Indigenous rights. Her new book, *To Be a Water Protector: Rise of the Wiindigoo Slayers*, is an expansive, provocative engagement with issues that have been central to her many years of activism. LaDuke honours Mother Earth and her teachings while detailing global, Indigenous-led opposition to the enslavement and exploitation of the land and water. She discusses several elements of a New Green Economy and outlines the lessons we can take from activists outside the US and Canada. In her unique way of storytelling, Winona LaDuke is inspiring, always a teacher and an utterly fearless activist, writer and speaker. Winona LaDuke is an Anishinaabekwe (Ojibwe) enrolled member of the Mississippi Band Anishinaabeg who lives and works on the White Earth Reservation in Northern Minnesota. She is executive director of Honor the Earth, a national Native advocacy and environmental organization. Her work at the White Earth Land Recovery Project spans thirty years of legal, policy and community development work, including the creation of one of the first tribal land trusts in the country. LaDuke has testified at the United Nations, US Congress and state hearings and is an expert witness on economics and the environment. She is the author of numerous acclaimed articles and books.

Race Relations in America: Examining the Facts Nikki Khanna 2021-05-31 This book is an essential resource for anyone who wants to understand race in America, drawing on research from a variety of fields to answer frequently asked questions regarding race relations, systemic racism, and racial inequality. This work is part of a series that uses evidence-based documentation to examine the veracity of claims and beliefs about high-profile issues in American culture and politics. This particular volume examines the true state of race relations and racial inequality in the United States, drawing on empirical research in the hard sciences and social sciences to answer frequently asked questions regarding race and inequality. The book refutes falsehoods, misunderstandings, and exaggerations surrounding these topics and confirms the validity of other assertions. Assembling this empirical research into one accessible place allows readers to better understand the scholarly evidence on such high-interest topics as white privilege, racial bias in criminal justice, media bias, housing segregation, educational inequality, disparities in employment, racial stereotypes, and personal attitudes about race and ethnicity in America. Cyberwars in the Middle East Ahmed Al-Rawi 2021-07-16 Cyberwars in the Middle East argues that hacking is a form of online political disruption whose influence flows vertically in two directions (top-bottom or bottom-up) or horizontally. These hacking activities are performed along three political dimensions: international, regional, and local. Author Ahmed Al-Rawi argues that political hacking is an aggressive and militant form of public communication employed by tech-savvy individuals, regardless of their affiliations, in order to influence politics and policies. Kenneth Waltz's structural realism theory is linked to this argument as it provides a relevant framework to explain why nation-states employ cyber tools against each other. On the one hand, nation-states as well as their affiliated hacking groups like cyber warriors employ hacking as offensive and defensive tools in connection to the cyber activity or inactivity of other nation-states, such as the role of Russian Trolls disseminating disinformation on social media during the US 2016 presidential election. This is regarded as a horizontal flow of political disruption. Sometimes, nation-states, like the UAE, Saudi Arabia, and Bahrain, use hacking and surveillance tactics as a vertical flow (top-bottom) form of online political disruption by targeting their own citizens due to their oppositional or activists' political views. On the other hand, regular hackers who are often politically independent practice a form of bottom-top political disruption to address issues related to the internal politics of their respective nation-states such as the case of a number of Iraqi, Saudi, and Algerian hackers. In some cases, other hackers target ordinary citizens to express opposition to their political or ideological views which is regarded as a horizontal form of online political disruption. This book is the first of its kind to shine a light on many ways that governments and hackers are perpetrating cyber attacks in the Middle East and beyond, and to show the ripple effect of these attacks.

describing advancement in intermediary liability theory and identifying recent policy trends.

Government Issued Opinion Dennis F. Poindexter 2022-04-29 Intelligence services, businesses and governments use a sinister methodology called an influence campaign to sway the core values of their own countries and others around the globe. This method is used by many different types of world governments (including the U.S.) and can pervade many different sectors of public life. Even seemingly powerful politicians are impacted by influence campaigns. While influence campaigns differ from political campaigns or corporate advertising, they share similar characteristics. Both influence behavior by manipulating beliefs to produce an outcome favorable to the campaign goal. This book explains the mechanisms of influence campaigns and how they affect policy making, often in surprising ways. Chapters detail examples of influence campaigns waged by various governments throughout the years and suggest how the public consciousness should deal with these strategies. As targets of these campaigns, citizens must understand how our leaders use them for their own benefit.

After Midnight Drew Morton 2022-11-15 Contributions by Apryl Alexander, Alisia Grace Chase, Brian Faucette, Laura E. Felschow, Lindsay Hallam, Rusty Hatchell, Dru Jeffries, Henry Jenkins, Jeffrey SJ Kirchoff, Curtis Marez, James Denis McGlynn, Brandy Monk-Payton, Chamara Moore, Drew Morton, Mark C. E. Peterson, Jayson Quearry, Zachary J. A. Rondinelli, Suzanne Scott, David Stanley, Sarah Pawlak Stanley, Tracy Vozar, and Chris Yogerst Alan Moore and Dave Gibbons's *Watchmen* fundamentally altered the perception of American comic books and remains one of the medium's greatest hits. Launched in 1986—"the year that changed comics" for most scholars in comics studies—*Watchmen* quickly assisted in cementing the legacy that comics were a serious form of literature no longer defined by the Comics Code era of funny animal and innocuous superhero books that appealed mainly to children. *After Midnight: "Watchmen" after "Watchmen"* looks specifically at the three adaptations of Moore and Gibbons's *Watchmen*—Zack Snyder's *Watchmen* film (2009), Geoff Johns's comic book sequel *Doomsday Clock* (2017), and Damon Lindelof's *Watchmen* series on HBO (2019). Divided into three parts, the anthology considers how the sequels, especially the limited series, have prompted a reevaluation of the original text and successfully harnessed the politics of the contemporary moment into a potent relevancy. The first part considers the various texts through conceptions of adaptation, remediation, and transmedia storytelling. Part two considers the HBO series through its thematic focus on the relationship between American history and African American trauma by analyzing how the show critiques the alt-right, represents intergenerational trauma, illustrates alternative possibilities for Black representation, and complicates our understanding of how the mechanics of the show's

production can impact its politics. Finally, the book's last section considers the themes of nostalgia and trauma, both firmly rooted in the original Moore and Gibbons series, and how the sequel texts reflect and refract upon those often-intertwined phenomena.

21st-Century Statecraft Nayef Al-Rodhan 2022-03-31 This book proposes an innovative and comprehensive framework for conducting statecraft in the 21st century. Called neo-statecraft, this framework is based on the reconciliation of power, interests and justice. The author proposes four substrates of neo-statecraft: 1) a new structure he calls meta-geopolitics, which includes seven inter-related dimensions of state power and identifies a Geostrategic Tripwire Pivotal Corridor (TPC); 2) a sustainable national security paradigm that stresses the centrality of justice, symbiotic realism and transcultural synergy; 3) a new concept called just power, which states that power must be smart as well as just, and that global justice is above all a national interest of all states; and 4) a new concept called reconciliation statecraft of the eight global interests. Dr. Nayef R.F. Al-Rodhan is Senior Scholar in Geostrategy and Director of the Programme on the Geopolitical Implications of Globalisation and Transnational Security at the Geneva Centre for Security Policy, Geneva, Switzerland. "This book offers a refreshing and ambitious re-examination of the nature of statecraft and geopolitics and contains a number of relevant concepts that can be translated into brand-new research and ambitious policy goals. Building on a number of his previous concepts, the author continues a remarkable endeavour aimed at updating and adapting traditional geopolitical perceptions. Step by step, brick after brick, the author is clearly building a major comprehensive contribution to strategic thinking and diplomacy." Professor Francois Gere, Director of Research at Paris 3 Sorbonne Nouvelle and President of the French Institute for Strategic Analysis (IFAS), Paris, France. "This book provides a carefully crafted description of how the international system is being transformed and defines the challenges facing contemporary statecraft in handling that transformation. Nayef Al-Rodhan has undertaken this enormous task by defining the concept of meta-geopolitics and addressing potential future problems while making full use of the analytical tools that he has developed. It is a unique and intellectually courageous undertaking that will help us gain deeper insights into the many dimensions of current and future security challenges." Ambassador Rolf Ekeus, Chairman of the Stockholm International Peace Research Institute (SIPRI), Stockholm, Sweden.

Impeach Neal Katyal 2019-11-16 The New York Times bestseller What is impeachment? How does it work? And

why is it so urgent to impeach Donald Trump? No one is above the law. This belief is fundamental to how the American system of government is meant to function – as fundamental as life, liberty and the pursuit of happiness – held sacred by Democrats and Republicans alike. But as celebrated Supreme Court lawyer and former Acting Solicitor General Neal Katyal argues in *Impeach*, if President Trump is not held accountable for repeatedly asking foreign powers to interfere in the 2020 presidential election, this could very well mark the end of US democracy. Impeachment should always be a last resort, explains Katyal, but the founders, core principles, and the Constitution leave no choice but to impeach President Trump – before it's too late. This clear and direct book explains what impeachment is, why it's in the U.S. constitution and why Donald Trump has left Congress and the American people with no choice but to remove him from office.
