The Riau Islands Francis E Hutchinson 2021-07-22 To Singapore's immediate south, Indonesia's Riau Islands has a population of 2 million and a land area of 8,200 sq kilometers scattered across some 2,000 islands. The better-known islands include Batam, the province's economic motor; Bintan, the area's cultural heartland and site of

the provincial capital, Tanjungpinang; and Karimun, a ship-building hub strategically located near the Straits of Malacca. Leveraging on its proximity to Singapore, the Riau Islands—and particularly Batam—has been a key part of Indonesia's strategy to develop its manufacturing sector since the 1990s. In addition to generating a large number of formal sector jobs and earning foreign exchange, this reorientation opened the way for a number of far-reaching political and social developments. Key among them has been: large-scale migration from other parts of the country; the secession of the Riau Islands from the larger Riau Province; and the creation of a new provincial government. Building on earlier work by the ISEAS – Yusof Ishak Institute on the SIJORI Cross-Border Region, spanning Singapore, the Malaysian state of Johor, and the Riau Islands, and a second volume looking specifically at Johor, the third volume in this series explores the key challenges facing this fledgling Indonesian province.

The Bitter End John Sides 2022-09-20 What an intensely divisive election portends for American politics The year 2020 was a tumultuous time in American politics. It brought a global pandemic, protests for racial justice, and a razor-thin presidential election outcome. It culminated in an attack on the U.S. Capitol that attempted to deny Joe Biden's victory. The Bitter End explores the long-term trends and short-term shocks that shaped this dramatic year and what these changes could mean for the future. John Sides, Chris Tausanovitch, and Lynn Vavreck demonstrate that Trump's presidency intensified the partisan politics of the previous decades and the identity politics of the

2016 election. Presidential elections have become calcified, with less chance of big swings in either party's favor. Republicans remained loyal to Trump and kept the election close, despite Trump's many scandals, a recession, and the pandemic. But in a narrowly divided electorate even small changes can have big consequences. The pandemic was a case in point: when Trump pushed to reopen the country even as infections mounted, support for Biden increased. The authors explain that, paradoxically, even as Biden's win came at a time of heightened party loyalty, there remained room for shifts that shaped the election's outcome. Ultimately, the events of 2020 showed that instead of the country coming together to face national challenges—the pandemic, George Floyd's murder, and the Capitol riot—these challenges only reinforced divisions. Expertly chronicling the tensions of an election that came to an explosive finish, *The Bitter End* presents a detailed account of a year of crises and the dangerous direction in which the country is headed.

Banking on a Revolution Terri Friedline 2020-12 "The Revolution Will Not Be Financed takes the perspective that the financial system needs a revolution-and not the impending revolution driven by technology. Studying various ways the financial system advantages whites by exploiting and marginalizing Black and Brown communities, Terri Friedline challenges the optimistic belief that fintech can expand access to banking and finance. Friedline applies the lens of financialized racial neoliberal capitalism to demonstrate the financial system's inherent racism, and explores examples from

student loan debt, corporate landlords, community benefits agreements, and banking and payday lending. She makes the case that the financial system needs a people-led revolution that centers the needs, experiences, and perspectives of those that it has historically excluded, marginalized, and exploited"--

No Way to Treat a Child Naomi Schaefer Riley 2021-10-05 Kids in danger are treated instrumentally to promote the rehabilitation of their parents, the welfare of their communities, and the social justice of their race and tribe—all with the inevitable result that their most precious developmental years are lost in bureaucratic and judicial red tape. It is time to stop letting efforts to fix the child welfare system get derailed by activists who are concerned with race-matching, blood ties, and the abstract demands of social justice, and start asking the most important question: Where are the emotionally and financially stable, loving, and permanent homes where these kids can thrive? "Naomi Riley's book reveals the extent to which abused and abandoned children are often injured by their government rescuers. It is a must-read for those seeking solutions to this national crisis." —Robert L. Woodson, Sr., civil rights leader and president of the Woodson Center "Everyone interested in child welfare should grapple with Naomi Riley's powerful evidence that the current system ill-serves the safety and well-being of vulnerable kids." —Walter Olson, senior fellow, Cato Institute, Robert A. Levy Center for Constitutional Studies

Forensics li Harry A. Milman PhD 2022-07-24 George Washington, the former first president of the United States, lay in his bed suffering from a high fever, a raw throat, and labored breathing. His three physicians milled around his bed, treating Washington with blisters of cantharides, tartar emetic, and bloodletting, removing nearly 40 percent of his total blood volume and causing excruciating pain. When Washington finally was relieved of his misery and died, the three doctors could not agree what caused his

death. *Forensics II: The Science Behind the Deaths of Famous and Infamous People* reads like a mystery novel, presenting biographical and scientific information that helps readers understand how medical examiners-coroners utilized forensic analysis to determine the causes and manners of death of thirty-six famous and infamous people, including Napoleon Bonaparte, a French military leader and politician; Charles Whitman, the University of Texas tower shooter; Bruce Lee, an actor and martial artist; Kurt Cobain, the lead singer of Nirvana; Jim Jones, a key figure in the Jonestown massacre; Aretha Franklin, a singer-songwriter; Alexander Litvinenko, a former officer of the Russian Federal Security Service; Jeffrey Epstein, a financier and convicted sex offender; and many more. The book is based on a review of publicly available autopsy and toxicology reports, published lay articles, and the scientific literature. Of the deaths reviewed, 39 percent were due to natural causes, 19 percent were accidental, and 6 (17 percent) were suicides. The remaining deaths comprise three cases each of homicide and justifiable homicide by police, one case of court-mandated execution, and three cases in which the manner of death was undetermined.

Case Based Research in Tourism, Travel, Hospitality and Events Marianna Sigala 2022

This book consolidates international, contemporary and topical case study based research in tourism, travel, hospitality and events. Case studies can make learning more attractive and interesting as well as enable students to understand the theory better and develop their analytical and problem-solving skills. Using industry as an open living lab, case study based research infuses scholars into real-world industry challenges and inspires them to theorise and advance our knowledge frontiers. The book includes international case studies that can help tourism scholars build and advance (new) theories and enrich their educational practices. Case studies are accompanied with a teaching note guiding scholars to integrate case studies into instruction. Dr Kirsten Holmes, Chair, Council for Australasian Tourism and Hospitality Education (CAUTHE) There is a vital need for contemporary and well-structured case studies for use in tourism teaching. By including case studies from Australasia and key destination regions in Asia, Europe, and the Caribbean, the book is helpful for tertiary teachers globally. Professor Xander Lub, President, EuroCHRIE The book inspires educators and students. The cases provide context to students learning and demonstrate the richness and variation of the industry. The book also clearly demonstrates how research can inform our teaching. Professor Brian King, Chair, THE-ICE Assessment Panel The book includes cases under five themes: experiences,

operations, technologies, strategy and marketing, and destinations. The book provides subject lecturers with a structure to guide students of applying theory into practice. Dr Paul Whitelaw, Academic Director, Southern Cross University This book marks a significant contribution to hospitality, tourism and events pedagogy at undergraduate and postgraduate level. At a time when the industry is demanding that our graduates have a strong grasp of "real world issues", the case study approach provides an accessible, meaningful and relatable means by which students can engage in real world issues.

The Two-Party Trap Steven Verrier 2022-08-12 The United States has become increasingly polarized, although the concept of a two-party system is not new. This book traces the major parties' utter dominance--of the highest elected positions all the way down to "nonpartisan" political offices across the U.S.--from the founding of the

Constitution through the 2020 presidential election. Even before the founding of the "modern" Republican Party in 1854 and the next 168-year era of Democratic-GOP dominance, the early decades of American nationhood were ruled in a similar manner by the two major parties of the day. This book is a comprehensive, fast-paced analysis of how the two-party system has grown to be such an affront to the ideals of the Founding Fathers and of the numerous Americans today who appear to accept it as a fact of life.

On Repentance And Repair Danya Ruttenberg 2022-09-13 A crucial new lens on repentance, atonement, forgiveness, and repair from harm—from personal transgressions to our culture's most painful and unresolved issues American culture focuses on letting go of grudges and redemption narratives instead of the perpetrator's obligations or recompense for harmed parties. As survivor communities have pointed out, these emphases have too often only caused more harm. But Danya Ruttenberg knew there was a better model, rooted in the work of the medieval philosopher Maimonides. For Maimonides, upon whose work Ruttenberg elaborates, forgiveness is much less important than the repair work to which the person who caused harm is obligated. The word traditionally translated as repentance really means something more like return, and in this book, returning is a restoration, as much as is possible, to the victim, and, for the perpetrator of harm, a coming back, in humility and intentionality, to behaving as the person we might like to believe we are. Maimonides laid out five steps: naming and owning harm; starting to change/transformation; restitution and

accepting consequences; apology; and making different choices. Applying this lens to both our personal relationships and some of the most significant and painful issues of our day, including systemic racism and the legacy of enslavement, sexual violence and harassment in the wake of #MeToo, and Native American land rights, *On Repentance and Repair* helps us envision a way forward. Rooted in traditional Jewish concepts while doggedly accessible and available to people from any, or no, religious background, *On Repentance and Repair* is a book for anyone who cares about creating a country and culture that is more whole than the one in which we live, and for anyone who has been hurt or who is struggling to take responsibility for their mistakes.

Procurement With Purpose Peter Smith 2021-11-01 *Procurement with Purpose* describes a growing and powerful movement - how organisations can use the money they spend with suppliers to help address wider environmental, social and economic issues. That is not just about emissions and climate change, but includes how to address issues such as biodiversity and habitat loss, plastics and waste, modern slavery, inequality and discrimination, and more. That organisational 'buying power' is now being used to drive change across the business and political world. With case studies from leading organisations, insightful analysis of 'business purpose' concepts and practical guidance on implementing these ideas through the procurement and contracting cycle, *Procurement with Purpose* is a fascinating and valuable resource for anyone interested in how organisations can help protect and nurture this planet and its

people.

The Wires of War Jacob Helberg 2021-10-12 From the former news policy lead at Google, an urgent and groundbreaking account of the high-stakes global cyberwar brewing between Western democracies and the autocracies of China and Russia that could potentially crush democracy. From 2016 to 2020, Jacob Helberg led Google's global internal product policy efforts to combat disinformation and foreign interference. During this time, he found himself in the midst of what can only be described as a quickly escalating two-front technology cold war between democracy and autocracy. On the front-end, we're fighting to control the software--applications, news information, social media platforms, and more--of what we see on the screens of our computers, tablets, and phones, a clash which started out primarily with Russia but now increasingly includes China and Iran. Even more ominously, we're also engaged in a hidden back-end battle--largely with China--to control the Internet's hardware, which includes devices like cellular phones, satellites, fiber-optic cables, and 5G networks. This tech-fueled war will shape the world's balance of power for the coming century as autocracies exploit twenty-first-century methods to re-divide the world into twentieth century-style spheres of influence. Helberg cautions that the spoils of this fight are power over every meaningful aspect of our lives, including our economy, our infrastructure, our national security, and ultimately, our national sovereignty. Without a firm partnership with the government, Silicon Valley is unable to protect democracy

from the autocrats looking to sabotage it from Beijing to Moscow and Tehran. The stakes of the ongoing cyberwar are no less than our nation's capacity to chart its own future, the freedom of our democratic allies, and even the ability of each of us to control our own fates, Helberg says. And time is quickly running out.

Project Censored's State of the Free Press 2021 Mickey Huff 2020-12-01 The new and improved "Censored," detailing the top censored stories and media analysis of 2020. Our nation's oldest news-monitoring group, Project Censored, refreshes its longstanding yearbook series, Censored, with State of the Free Press 2021. This edition offers a more succinct and comprehensive survey of the most important but underreported news stories of 2020; in addition to a comparative analysis of the current state of corporate and independent news media, and its effect on democracy. The establishment media sustains a decrepit post-truth era, as examined the lowlight features: "Junk Food News"-frivolous stories that distract the public from actual news-and-"News Abuse"-important stories covered in ways that undermine public understanding. The alternative media provokes a burgeoning critical media literacy age, as evaluated in the highlight feature: "Media Democracy in Action"-relevant stories responsibly reported on by independent organizations. Finally, in an homage to the history of the annual report, the editors reinstate the "Déjà vu News" feature-revisited stories from previous editions. State of the Free Press 2021 endows readers with the critical thinking and media literacy skills required to hold the corporate media to account

for distorting or censoring news coverage, and thus, to revitalize our democracy.

Ideas and the Use of Force in American Foreign Policy Morgan Rees 2021-11-10

Examining the post-Cold War period, this book sets out to explain why and when US presidents choose to use force. It develops new explanations for variation in the use of force in US foreign policy by theorizing and demonstrating the effects of the displacement and repression of ideas within and across different US Presidential administrations.

Australia's Engagement with Economic and Social Rights Russell Solomon 2021-04-01

This book is a contemporary socio-legal study of Australia's protection of economic and social rights. Despite Australia's hortatory language of compliance with international rights standards, its translation of these standards into domestic law and policy has been found wanting. In considering Australia's compliance across the policy areas of health, housing, labour and social security, it is argued that Australia's failings can be understood in terms of its institutional framework. This framework provides incomplete legal protection for rights and leaves that protection almost exclusively in the realm of politics and policymaking, an arena still dominated by neoliberalism and a political culture averse to the protection and promotion of economic and social rights.

Inside High-Rise Housing Nethercote, Megan 2022-06-30 EPDF and EPUB available Open Access under CC-BY-NC-ND licence. Condominium and comparable legal architectures make vertical urban growth possible, but do we really understand the social implications of restructuring city land ownership in this way? Geographer and

architect Megan Nethercote enters the condo tower to explore the hidden social and territorial dynamics of private vertical communities. Informed by residents' accounts of Australian high-rise living, this book shows how legal and physical architectures fuse in ways that jeopardize residents' experience of home and stigmatize renters. As cities sprawl skywards and private renting expands, this compelling geographic analysis of property identifies high-rise development's overlooked hand in social segregation and urban fragmentation, and raises bold questions about the condominium's prospects.

Rhetoric and Governance Under Trump Bernd Kaussler 2020-07-09 This book analyzes the rhetoric of Donald Trump to argue that Trump embraces conflicting populist and Republican values, and as a result has relied on populist and polarizing rhetoric, along with fabricated crises, to reconcile these combating ideals and uphold his image of an “anti-status quo politician.”

China's Belt and Road Initiative at Ten Robert E. Looney 2022-11-23 This volume assesses China's Belt and Road Initiative (BRI) as it approaches its tenth year in operation. The programme has gone through a difficult transition since its inception in 2013, with an environment developing in a way utterly unanticipated by Chinese

decision-makers. Despite pragmatic adjustments to the BRI, the lack of a firm empirical base has impeded the BRI and led to its demise in many countries. With the accumulation of nearly ten years of project and economic data, it is possible to make an in-depth assessment of the BRI. For this purpose, the study examines the infrastructure component of the BRI in 39 countries, stretching from the Americas to Oceania and, finally, South Asia. The study finds a strong relationship between a country's progress in improved governance and the quality of its infrastructure. Countries that have benefited from the BRI have simultaneously achieved progress in governance areas, such as the rule of law and control of corruption. By not emphasizing improved governance structures, China condemns many of its partners to failure. Researchers, students, and economic development specialists from Latin America to South Asia and Oceania will find this study a useful departure from the volumes of anecdotal BRI assessments.

Get Your Knee Off Our Necks Bruce Elliott Johansen 2022 The death of George Floyd on May 25, 2020, and the ensuing trial of Derek Chauvin for murder a year later has rubbed raw the bloodiest stain on the United States history and its world reputation. The nine minutes and 29 seconds during which Chauvin's knee crushed the spark of life out of Floyd was not unusual in the history of the United States. Before the U.S. Civil War, slaves were routinely beaten to death for disobeying orders or running away, then often lynched. In roughly two centuries, Blacks have achieved nominal freedom. But, as this book's opening chapter and expert essays that follow indicate, freedom has been conditional based on inequity of wealth, social, and legal discrimination. None of this is new in the United States; what is new is the number of people rising up in protest, a figure in the millions around the world after Floyd's murder. This book supplies a readable, scholarly account of recent issues in race and racism in the United States

that will be useful for general readers, undergraduate students, and their professors. It will be useful in many fields, including Black studies, other ethnic pursuits, United States history, law, criminal justice, intercultural communication, et al. The work contains a powerful historical narrative followed by several important, essays on subjects including George Floyds murder, the rise of the Black Lives Matter movement and many other victims of systematic racism.

21st-Century Statecraft Nayef Al-Rodhan 2022-03-31 This book proposes an innovative and comprehensive framework for conducting statecraft in the 21st century. Called neo-statecraft, this framework is based on the reconciliation of power, interests and justice. The author proposes four substrates of neo-statecraft: 1) a new structure he calls meta-geopolitics, which includes seven inter-related dimensions of state power and identifies a Geostrategic Tripwire Pivotal Corridor (TPC); 2) a sustainable national security paradigm that stresses the centrality of justice, symbiotic realism and transcultural synergy; 3) a new concept called just power, which states that power must be smart as well as just, and that global justice is above all a national interest of all states; and 4) a new concept called reconciliation statecraft of the eight global interests. Dr. Nayef R.F.

Al-Rodhan is Senior Scholar in Geostrategy and Director of the Programme on the Geopolitical Implications of Globalisation and Transnational Security at the Geneva Centre for Security Policy, Geneva, Switzerland. "This book offers a refreshing and ambitious re-examination of the nature of statecraft and geopolitics and contains a number of relevant concepts that can be translated into brand-new research and ambitious policy goals. Building on a number of his previous concepts, the author continues a remarkable endeavour aimed at updating and adapting traditional geopolitical perceptions. Step by step, brick after brick, the author is clearly building a major comprehensive contribution to strategic thinking and diplomacy." Professor Francois Gere, Director of Research at Paris 3 Sorbonne Nouvelle and President of the French Institute for Strategic Analysis (IFAS), Paris, France. "This book provides a carefully crafted description of how the international system is being transformed and defines the challenges facing contemporary statecraft in handling that transformation. Nayef Al-Rodhan has undertaken this enormous task by defining the concept of meta-geopolitics and addressing potential future problems while making full use of the analytical tools that he has developed. It is a unique and intellectually courageous undertaking that will help us gain deeper insights into the many dimensions of current and future security challenges." Ambassador Rolf Ekeus, Chairman of the Stockholm International Peace Research Institute (SIPRI), Stockholm, Sweden.

Space, Mobility, and Crisis in Mega-Event Organisation Rodanthi Tzanelli 2022-11-25

This book advances an alternative critical posthumanist approach to mega-event

organisation, taking into account both the new and the old crises which humanity and our planet face. Taking the delayed Tokyo 2020 Olympic Games as a case study, Tzanelli explores mega-event crisis and risk management in the era of extreme urbanisation, natural disasters, global pandemic, and technoscientific control. Using the atmospheric term 'irradiation' (a technology of glamour and transparency, as well as bodily penetration by harmful agents and strong affects), the book explores this epistemological statement diachronically (via Tokyo's relationship with Western forms of domination) and synchronically (the city as a global cultural-political player but victim of climate catastrophes). It presents how the 'Olympic enterprise's' 'flattening' of indigenous environmental place-making rhythms, and the scientisation of space and place in the Anthropocene lead to reductionisms harmful for a viable programme of planetary recovery. An experimental study of the mega-event is enacted, which considers the researcher's analytical tools and the styles of human and non-human mobility during the mega-event as reflexive gateways to forms of posthuman flourishing. Crossing and bridging disciplinary boundaries, the book will appeal to any scholar interested in mobilities theory, event and environment studies, sociology of knowledge and cultural globalisation.

The Responsibility to Protect Twenty Years On Pinar Gözen Ercan 2022-01-01 This book focuses on measures pertaining to the three-pillar implementation strategy of R2P and examines how and to what extent the three pillars have been practised. Rich in its geographical scope, this edited book provides a critical analysis of R2P practice over the last two decades by focusing on representative cases from different regions. Analysing not only recent and/or underexplored cases but also widely studied cases from a fresh and alternative perspective, it sheds light on the depth and scope of the norm as well as the variety of actors involved and how they impact R2P practice. Diverging from most accounts, this edited book does not approach the cases as a 'success' or 'failure' of R2P. By studying the background to the conflicts and making assessments on a pillar-by-pillar basis, each chapter addresses the root causes, traces the process of implementation, investigates the actions of the actors involved, identifies elements of success and failure and finally questions the sustainability of the protection provided to date. Meanwhile, the conceptual chapters complement the case analyses through an overall evaluation of R2P's first two decades and the progress achieved so

far with the aim to draw lessons for future implementations of R2P.

Bombarded Cyrus Krohn 2020-10-10 Imagine an imminent America where citizens are bombarded with personalized political messages from every smart device – yet information is so suspect, nobody can tell what the truth is. It means oceans of disinformation engineered to sow false beliefs or simply disorient. The coronavirus pandemic provided a foretaste of an infuriating, dystopian future. From the start Americans fought over the most basic facts of the crisis, from death tolls to quack cures to the wisdom of stay-at-home orders. The splintered digital infosphere bred confusion and delusion, some of it fatal. Now think of our campaigns and elections. The digital information age means more than hyper-targeted, just-for-you messages from insurance companies and presidential candidates alike. Big Data is on the way to fueling information environments so fine-tuned, no two of us hold the same view of reality, and no two voters hear the same pitch. Already, citizens don't know who to trust

or what to believe – about COVID-19 or anything else. If we ask nothing more of tech providers or digital citizens, the fog will continue to thicken. Irritation will merge into despair and then numbness... and democracy teeters. Digital pioneer Cyrus Krohn knows the territory, and in *Bombarded: How to Fight Back Against the Online Assault on Democracy*, Krohn locates the roots of our blooming political chaos in the earliest days of the World Wide Web. But he goes beyond recounting 25 years of destabilizing Internet shock waves and his own role in building digital culture. Krohn rolls out a provocative action plan for rescuing the American system of campaigns and elections while there is still time. “Trying to shield yourself from disinformation and deep fakes? Cyrus Krohn offers a ‘five-step program’ to fight back. This book rings true.” —Jill Dougherty, Former CNN Moscow Bureau Chief

Translating Cultures in Search of Human Universals Ikram Ahmed Elsherif 2021-01-11
Informed by the anthropological research of Professor Donald E. Brown on human universals, this book compiles 10 articles exploring the representation of common human cultural practices and concerns in literature, cinema and language. The book as a whole demonstrates not only that Brown’s human universals are shared by different cultures, but most importantly that they have the potential to form a basis for inter- and intra-cultural communication and consolidation, bridging gaps of misinformation and miscommunication, both spatial and temporal. The contributors are Egyptian scholars who cross temporal and spatial boundaries and borders from Africa and the Middle East to Asia, Europe and the Americas, and dive deep into the heart of the shared

human universals of myth, folklore and rituals, dreams, trauma, cultural beliefs, search for identity, language, translation and communication. They bring their own unique perspectives to the investigation of how shared human practices and concerns seep through the porous boundaries of different cultures and into a variety of creative and practical genres of fiction, drama, autobiography, cinema and media translation. Their research is interdisciplinary, informed by anthropological, social, psychological, linguistic and cultural theory, and thus offers a multi-faceted and multi-layered view of the human experience.

Municipal Power and Population Decline in Japan Fumie Kumagai 2020-08-20 This book provides an insightful sociological study of the declining Japanese population, using statistical analysis to establish the significance of municipal power using demographic data on national, regional, prefectural and municipal levels. Penned by one of Japan's eminent sociologists, it provides a quantitative characterization of population decline in Japan with a focus on regional variation, and identifies the principal explanatory factors through GPI statistical software tools such as G-census and EvaCva, within a historical perspective. Furthermore, it offers a qualitative assessment of what constitutes 'municipal power' as this relates to regional/local revitalization as a means of addressing municipal population decline. Using Goki-Shichido as a theoretical framework, this book pays special attention to municipal

variations within the same prefecture, presenting a completely unique approach. In combining these two dimensions of analyses, the book successfully reveals the impact of municipal power and socio-cultural identity of social capital in the region, from both quantitative and qualitative perspectives at the municipal level. Demography issues in Japan have been receiving increasing attention among researchers given the growing number of declining populations in developed countries, in tandem with rapid aging and low fertility trends. Providing an original and unique contribution to regional population analysis in the fields of regional demography, historical demography and regional population policy, this book shows that the revitalization of the community is vital if Japan is to increase its population, so as to renew a community 'raison d'être'. The book is of interest to scholars of Asian studies more broadly, and to sociologists, demographers, and policymakers interested in population studies, specifically.

"Providing an informative and vivid overview of the demographic situation of Japan, the author offers excellent suggestions for effective regional policy in confronting a shrinking society. This book presents a unique analysis of the regional variations on small municipal levels, with demographic variables, social indicators and historical identities. An original contribution to regional population analysis in the fields of regional population policy, regional demography and historical demography." - Toshihiko Hara, Professor Emeritus, Sapporo City University
