Made to Live Paul Saba, M. D. 2020-09-15 *Made to Live* depicts a physician's journey to save lives. Dr. Paul Saba begins his story with the battle to save the life of his baby girl, Jessica, who was born with a severe congenital cardiac malformation. He describes the challenges of facing difficult diagnoses through both his personal experiences and those of his patients. This book debunks the myths of euthanasia and assisted suicide. Dr. Saba's battle has taken him to the Canadian courts, where he has been silenced from challenging Canada's euthanasia laws. He has been forbidden from utilizing the Canadian Constitution or presenting his arguments in court to oppose euthanasia and assisted suicide. Dr. Saba believes no one can know what the future holds. Hope and loving support can overcome many obstacles in life's journey. In the end, we are all "made to live," as his daughter Jessica inscribed on one of her paintings at seven years old.

Moving beyond Islamist Extremism William Allchorn 2021-12-21 Traditionally, far-right terrorism has been the black swan of terrorism studies—receiving less attention than Jihadi extremism. In this book, William Allchorn takes a deep dive into multiple geographical locales and the online space of far-right movements, uncovering the crisis narratives that are animating violent far-right extremist milieus and presenting solutions on what we can do to stop them. Using eight country case studies and the results of an online pilot project, this is the first book-length presentation and discussion of counter techniques to far-right narratives—exploring their effectiveness, the ethics of such techniques, and their ability to disrupt pathways from radicalism towards violent extremism. Coming at a time of a renewed global wave of far-right violence, this book is of use to scholars as well as practitioners in the fields of far-right studies, terrorism studies, and strategic communications.

Votes at 16 Niall Guy Michelsen 2020-09-29 Using voter turnout data and demographics, Niall Guy Michelsen argues that lowering the voting age to 16 would help young adults develop voting habits and raise voter turnout, closing the voting gap between college and non-college citizens and making the American electorate more representative of the country's citizens.

The Reshaping of China-Southeast Asia Relations in Light of the COVID-19 Pandemic Nian Peng 2021-01-28 This book aims to examine the multiple effects of the COVID-19 pandemic on China-Southeast Asia relations from both Chinese and Southeast Asian perspectives. It invites many officials and scholars from the leading think-tanks and famous universities in China and Southeast Asian states to contribute and tries to reveal how has China-Southeast Asia relations been reshaping during/after the COVID-19 pandemic and discuss what kind of measures could be taken to push forward China-Southeast Asia relations and thus ensuring the peace and prosperity in the region. The main content of this book is divided into 10 parts, in which the first chapter briefly introduces the COVID-19 situation in China and Southeast Asia, China's anti-COVID efforts, and the impacts of the COVID-19 on China-Southeast Asia relations from Chinese and Southeast Asian perspectives. Chapter 2 examines the dual influence of the pandemic on the construction of China-ASEAN community of a shared future and gave some useful policy recommendations on improving China-Southeast Asia relations. The following 8 chapters go deep into the Southeast Asian states' response to COVID-19 and the economic, political and social effects of the COVID-19 on Southeast Asia–China relations, and look forward the future development of such relations. Therefore, the intended readership not only includes the academics but also officials, businessmen, journalists and social activists. It also shows a well-balanced view on the COVID-19 and China–Southeast Asia relations as both university scholars, think-tank experts and government officials are involved in this book.

Women in Policing Hannah Reiter 2022-01-26 Basierend auf umfangreichen Interviewdaten wird begründet, dass die Polizei der untersuchten Länder (Österreich, England & Wales) aus stark verfestigten Strukturen besteht, die geschlechtsspezifische Trennlinien und die hegemoniale Position der Männlichkeit perpetuieren. Um einen umfassend inklusiven Arbeitsort zu schaffen, muss die Polizei anders gedacht werden, anstelle einer simplen Erhöhung des Frauenanteils in einem männlich-konzipierten Arbeitsumfeld.

Gleichstellungsmaßnahmen erweisen sich lediglich als Symptombekämpfung, anstatt Ursachen zu adressieren. Der von rechtlichen Maßnahmen bestärkte strukturelle Wandel scheint zu stagniert, während ein weitergehender diskursiver sowie kultureller Wandel vernachlässigt wird.

The convergence of public sector with civil society and private sector: Anglo-American and continental European approaches as opposing poles of the universal paradigm of public administration reforms in the 21st century Olexii Onufrienko 2022-10-01 O. V. Onufrienko (2022). The convergence of public sector with civil society and private sector: Anglo-American and continental European

approaches as opposing poles of the universal paradigm of public administration reforms in the 21st century : Comparative research findings, along with takeaways and forecasts, strategies for post-war reconstruction for Ukraine: a Monograph. Dnipro: GRANI, 2022. 530 p. The monograph of O.Onufrienko, testifying to the emergence of the comparative direction of the domestic doctrine of public governance to new scientific horizons, summarizes the long-term experience of comparative research of world, regional and national paradigms of public sector reforms of the 21st century, considered in the plane of complex and urgent issues of interaction between the main social actors - the state, civil society, and private sector. The comparative research apparatus of the monograph directs scientific optics to the study of the motley map of the world practice of public governance and the results of its doctrinal understanding, which usually remains invisible under national marking generalizing formulas such as "the best world (European) experience". In accordance with the author's concept, which introduced a number of new concepts and terms into scientific circulation, the monograph for the first time summarizes, systematizes and comprehensively interprets the leading conceptual and empirical approaches to the definition and interpretation of the desired parameters of the interaction of the public sector, civil society and the private sector, generated by modern continental - European and Anglo-American doctrine and current practice of public administration reforms. As a result of the application of this concept, the author's hypothesis about the existence of a universal trend towards the convergence of the main social actors in developed countries, where the state at the institutional level is represented by public administration bodies in general and the public service in particular, was confirmed for the first time, which, however, breaks down into distinctive approaches applied respectively in countries of the Anglosphere and EU countries. Based on the received new data, the probable consequences of Ukraine's strategic orientation on one or another foreign model basis are predicted. For scientists who represent the science of public governance, including post-graduate and doctoral students, for politicians and public servants who are interested in the trends in the practice of public sector reforms in foreign countries and the possibilities of reception of this experience on domestic soil.

Ethnopharmacological Responses to the Coronavirus Disease 2019 (COVID-19) Pandemic Michael Heinrich 2022-01-20 Ethics in a Digital World Kristen Mattson Get the knowledge and resources you need to guide students through the tough questions that reside in the gray areas of humans' relationship with the gadgets, apps and tools that permeate our lives. More and more, people are waking up to the notion that the technology we hold in our hands each day is not a neutral tool that individual users control. The facade has been cracking for years amid accusations of election interference, with the public being introduced to the complexities of hacking, the concept of bot accounts, the larger threat of information warfare, and more. The rise in rhetoric around "fake news" has social media companies examining their role in the spread of misinformation, the public asking who checks the fact-checkers and everyone from politicians to tech conglomerates wondering if, when and how information regulation needs to happen. Amid this backdrop, it has become clear that society needs thoughtful, empathetic digital citizens who can navigate the important ethical questions at the intersection of technology and humanity. This book is designed to help students consider the systems and structures in which they spend so much of their time, asking them to look at the technology around them through a critical lens. Focusing on six big ethical questions being discussed in the technology sector and larger society today, chapters include: • Key vocabulary you and your students will encounter in your investigation of each topic. • A short summary of the current research and viewpoints on the topic from leading experts in their fields. • News articles exploring the ethical questions playing out in society today. • Focused research questions that students can use to explore the various aspects of the ethical dilemma. • Stories of educators who are engaging students with lessons around tech ethics. • A "Try This" section with instructional strategies for helping students navigate open-ended questions. There are no clear right or wrong answers to the ethical issues presented inside these pages. But if you ascribe to the idea that technology is not neutral, if your students are already users of various technologies and if you understand that many of our students will go on to tech-related careers, is it ever too soon to begin talking about the ethics of technology with them?

The Gilets Jaunes and the New Social Contract Charles Devellennes 2022-02 This book provides a lively account of the gilets jaunes, the yellow vest movement that has shaken France since 2018. Charles Devellennes assesses what lessons can be drawn from their activities and the impact for the contemporary relationship between state and citizen. Informed by a dialogue with past political theorists -- from Hobbes, Spinoza, Rousseau to Rawls, Nozick and Diderot -- and reflecting on the challenges posed by the yellow vest movement, the author rethinks the concept of the social contract for contemporary societies around the world. It proposes a new relationship between the state and the individual, and establishes the necessity of rethinking the modern democratic nature of our representative polities in order to provide a genuine process for the healing of social ills.

Rescuing Women from American Mythology Michael A. Solis 2021-03-17 This book explores American mythology through the lens of comic books and superheroes, specifically exploring the subject from an historical perspective in order to capture the origins of sexism and misogyny, as found in the comic book stories that have shaped so many young people and their attitudes. It provides a detailed analysis of America's inextricable relationship with sexist institutions, specific historical events, and cultural attitudes, all of which are captured by, and perpetuated, in comic books, TV, film, and advertising. The implicit argument this book makes is that sexism and misogyny are not the product of nefarious individuals with overt agendas; instead, sexism and misogyny are products of our mythology and the associated archetypal components that shape a fabricated design of the world, a design shaped by men and unwittingly agreed to by women, thus, perpetuating a male-dominated mythological, religious, and historical social structure.

South Korean Popular Culture in the Global Context Sojin Lim 2022-08-04 This book explores the recent landscape of Korean popular

culture, including celebrity diplomacy, political activism, and inter-Korean relations in the era of 'ontact', with a special focus on K-pop and K-drama. Utilising the interdisciplinary approach, along with theoretical accounts, it redefines popular culture and its true power – beyond soft power – including discussions of how the pandemic and the use of online platforms have coincidentally or effectively influenced recent phenomena surrounding Korean popular culture. It reveals both the possibilities and pitfalls of Hallyu diplomacy and the UN's celebrity diplomacy more broadly, and highlights how, through the mobilisation of a large internet fanbase, the modern K-pop 'standom' can influence political discourse. The book also features an examination of the political significance of the K-drama through which it highlights the potential of popular media to impact inter-Korean relations and inform current international understanding and perception of the Korean conflict. Dealing with the wider scope of Korean popular culture this book will be a valuable resource to students and scholars of South Korea, international relations, public diplomacy, political activism, and cultural and media studies.

Past Due Angela Zera Allen 2021-10-22 After centuries of theft, murder, oppression, discrimination, exclusion, and broken promises experienced by Black Americans and American Indians, at the hands of the U.S. government, U.S. courts, and many racist White people, reparations are due. They are past due. But why? Who is responsible for this reckoning? What would it look like? These are some of the questions you may be asking yourself. In *Past Due*, authors Angie Allen and Courtney Carmichael try to answer these questions as reporters might. Drawing on history, current factual realities, their own personal stories, and insights from a wide range of activists, writers, scholars, and other experts, they share their findings and experience, to help create better understanding. *Past Due* is full of easy-to-use links to learning more, and a roadmap to making reparations. Sweeping government policy and corporate policy change is essential for making reparations. But Angie and Courtney hope that *Past Due* will inspire more White Americans to examine their individual roles, past and future.

Defying the Dragon Stephen Vines 2021-04-08 *Defying the Dragon* tells a remarkable story of audacity: of how the people of Hong Kong challenged the PRC's authority, just as its president reached the height of his powers. Is Xi's China as unshakeable as it seems? What are its real interests in Hong Kong? Why are Beijing's time-honoured means of control no longer working there? And where does this leave Hongkongers themselves? Stephen Vines has lived in Hong Kong for over three decades. His book shrewdly unpacks the Hong Kong–China relationship and its wider significance—right up to the astonishing convergence of political turmoil and international crisis with Covid-19 and the 2020–21 crackdown. Vividly describing the uprising from street level, Vines explains how and why it unfolded, and its global repercussions. Now, the international community is reassessing relations with Beijing, just as Hong Kong's rebellion and China's handling of the pandemic have exposed the regime's weakness. In a crisis that has become existential all round, what lies ahead for Hong Kong, China and the world?

God, Trump, and Covid-19 Stephen E Strang 2020-05-14 From the best-selling author of *God and Donald Trump*, which was brandished by the president at the World Economic Forum in Davos *How the Pandemic Is Affecting Christians, the World, and America's 2020 Election* This book is a timely follow up to *God, Trump and the 2020 Election* that reveals insider information about China, the virus, and the ever-increasing stakes of the upcoming election. It will answer the question for the Christian believers (and seekers) of where God is in all this? It provides a little known prophecy by the late David Wilkerson about a plague coming that would shut down the government as well as churches and bars, including shaking New York City as it's never been shaken. Wilkerson said this plague would force believers into radical prayer that will spark an awakening--something echoed by Christian leaders and prophets. Just as the economy was booming and Donald Trump was fixing long-term problems and beating back attacks from his opponents, a brand-new virus shakes

up everything including the outcome of this election. The author has inside information about what happened in China early in the pandemic and what went wrong. He even documents how Donald Trump has led the nation in this time of crisis. In 2016, God raised up Donald Trump to lead America at a pivotal time. Evangelicals who recognized this backed him more than any other presidential candidate in history. Heading into Election Day 2020, the stakes are even higher, especially with the uncertainty and upheaval caused by COVID-19. This book is really "part two" of God, Trump and the 2020 Election which details the fight for the soul of America. Strang believes readers need both books to understand and explain what's at stake. With the shutdown caused by the pandemic, serious anti-Christian trends surfaced, such as some states closing "non-essential" churches but allowing liquor stores to provide curbside service. Or ceasing all elective surgeries except abortion, which is the taking of a life while the purpose in shutting down the economy was to save lives from this dreaded virus. Flames of Extinction John Pickrell 2021-04-15 In the early months of 2020, the world's attention was riveted on Australia, where the nation's iconic wildlife fought for survival in the face of unprecedented wildfires. Images of koalas drinking from firefighters' water bottles went viral and became the global face of a catastrophe that would kill as many as three billion animals. Known as the Black Summer, the fire season was responsible for more wildlife deaths and near-extinctions than any other single event in Australian history. Flames of Extinction, written by a journalist at the heart of this news coverage, is the first book to tell the stories of Australia's record-setting fires, focusing on the wild animals and plants that will be forever changed. As news of the fires spread around the world, journalist John Pickrell was inundated with requests for articles about the danger to Australia's wildlife. The picture seemed grim, from charred koalas to flames that burned so hot not even animal skeletons remained. But Pickrell's reporting exposed a larger picture of hope. Flames of Extinction tells the story of the scientists, wildlife rehabilitators, and community members who came together to save wildlife and protect them in the future. As climate change intensifies and devastating wildfires become more commonplace, Australia's Black Summer offers a poignant warning to the rest of the world. Through evocative and urgent storytelling, Flames of Extinction puts readers on the ground to witness the aftermath of one of Australia's greatest tragedies and inside the inspiring effort to save lives.

We Are America, We Are Americans (HB) Matt Teahan 2022-06-08 We Are America, We Are Americans (HB) By: Matt Teahan A Journey through life (at least part of it)... and the lessons learned... and in a rare instance.... taught. In this quasi-autobiography, I answer the confounding questions of our day through a riveting (for some people) journey of all topics relevant. Is the United States of America really a Christian Nation? Where has this Country's corporate leadership gone? Why would anyone waste an entire adolescence refining their basketball jump shot? Why has the moral compass in Professional Sports disappeared into the abyss of political wokeness? Why do we need to ban plastic straws and not water bottles.....particularly if Climate Change is going to kill us all in 9 years, anyway? How do we pay reparations for people of mixed race? How can chicken sandwiches galvanize and legitimize the LGBT community? What did I share with the Pope at the sacred site of Fatima? What's it going to take to get millennials off Twitter, out of Mom's basement and into Church? Why is 'systemic ignorance' a far greater threat to this country than anything else 'systemic'? I'll introduce a toxic blend of fact, fiction, criticism, sarcasm, reality, inquiry, and humor into the topics of the day. And I'll blend my shallow, yet relevant, life experiences into the mix where it's almost impossible to tell the difference. You may get bored. You might not. You may or may not like my viewpoints. You might not even like me. But you won't be the first nor the last. I think, however, everyone will find something here they can relate to. Whether it's basketball, friends, God, politics, a career, or the social issues of the day there's something for everybody. Even for those who rarely open a book, like today's College students. For them I've included pictures. See! Something for everybody!! And although some of my viewpoints you may frown upon, you will appreciate the humor, anecdotes, multiple geography lessons, ridicule, sarcasm, and blatant hypocrisy that I'll expose on any number of topics. All shrouded in the novel concept called 'common sense'. And if you don't like to read about those types of things, then don't buy the book. Get it at the library. I started this book on July 4th, 2020. And I did it for a reason.

American Fascism Brynn Tannehill 2021-04-20 Trump is out of the White House, but American democracy is on the ropes and teetering on the brink of competitive authoritarianism controlled by theocrats and oligarchs. With its cherished institutions hobbled, political norms trampled, guardrails severely damaged, and body politic divided by chasms of race and geography, can the U.S. survive another administration dedicated to establishing de facto single party rule? In this compelling, comprehensive analysis, Brynn Tannehill draws on her expertise in studying the collapse of weak democracies around the globe and her previous research in law, political science, economics and right-wing populism to explain the trajectory of how we got here and the current threats we face. Most importantly, she analyzes what the characteristics of fascism are, if they are applicable to the base of the GOP today, and what that means for us should

they succeed in establishing permanent minoritarian rule. American Fascism is a surgical analysis of 250 years of struggle for democracy in America and a prescient prognosis of what's to come if we do not heed Tannehill's warnings and advice.
