A President's Daily Brief: Year 4 Micah Fisher-Kirshner

What was daily life under the Trump presidency really like?

An accessible ebook with short, thematic entries showing the corruption of the Trump presidency, A President's Daily Brief, Year 4: The Day-by-Day Lurch of Trump's Norm-Breaking Presidency is the fourth in Micah Fisher-Kirshner's series, representing the fourth and final year of Trump's time in power and the subversion that occurred. More than a compiled list of significant events that portray Trump as the most corrupt American president, this digestible and scannable read of in-the-moment posts pulled from news outlets and credible sources provides an intimate look at how the administration went about breaking the presidential norms on a daily basis. Readers also will have access to citations to fact-check claims.

This quick read on a Trump presidency that started off with outrage and graduated to righteous indignation is a must-have for those who enjoy history, politics, and government or simply want to read about the most notorious presidency in history.

Defying the Dragon Stephen Vines 2021-04-08 Defying the Dragon tells a remarkable story of audacity: of how the people of Hong Kong challenged the PRC's authority, just as its president reached the height of his powers. Is Xi's China as unshakeable as it seems? What are its real interests in Hong Kong?

Why are Beijing's time-honoured means of control no longer working there? And where does this leave Hongkongers themselves? Stephen Vines has lived in Hong Kong for over three decades. His book shrewdly unpacks the Hong Kong–China relationship and its wider significance—right up to the astonishing convergence of political turmoil and international crisis with Covid-19 and the 2020–21 crackdown. Vividly describing the uprising from street level, Vines explains how and why it unfolded, and its global repercussions. Now, the international community is reassessing relations with Beijing, just as Hong Kong's rebellion and China's handling of the pandemic have exposed the regime's weakness. In a crisis that has become existential all round, what lies ahead for Hong Kong, China and the world?

Legal Aspects of Health Care Administration George D. Pozgar 2022 One of the most trusted resources on health care law, *Legal Aspects of Health Care Administration* will be available in a new Fourteenth Edition this spring. Creating Meaningful Museum Experiences for K–12 Audiences Tara Young 2021-10-30 This timely book provides a critical look at one of the staples of museum education programming: the “field trip” for school groups. The K–12 audience is of major importance to museums: not only does reaching students relate directly to the educational mission of museums, but also our institutions rely on the revenue generated by school groups.

Civil Society in Bangladesh Farhat Tasnim 2021-02-13 This book is the first of its kind to offer an understanding, analysis, and prediction of the state of civil society in Bangladesh in relation to development and democracy. It is a research attempt to reveal the paradox found in developing countries like Bangladesh

where there are numerous and active civil society organizations (CSOs) that have had almost no influence in consolidating democracy. This book, however, also qualifies the normative assumption on the positive relationship between civil society and democracy asserted by the mainstream neo-Tocquevillean School that has a profound influence on donor policies. Readers are introduced to civil society in Bangladesh from a broad perspective. Rather than confining the analysis to NGOs, chapters explore the origin, nature, and function of both modern and conventional CSOs, which helps to provide a more authentic understanding of the genuine state of civil society in relation to other actors in the political system. Combining survey data analyses and empirical observations with carefully chosen case studies, the book reveals that CSOs participate very actively in social services. This research also reveals that these highly active CSOs in the field of social development lack the necessary attributes for ensuring participation, proper interest articulation and monitoring of the state. Through systematic analysis, the book shows that political structures—and for Bangladesh, particularly political parties—along with vertical social relationships such as clientelism, patronage, nepotism, and corruption have contributed to a non-vigilant civil society in Bangladesh, although it often is spoken of in different terms. This book is highly recommended for researchers, students, and development practitioners interested in South Asia as well as in understanding the potentials and limitations of civil society in relation to development and democracy. Farhat Tasnim's book is a comprehensive treatment of civil society in Bangladesh. It will serve as a useful resource for future researchers in this field for a long time to come. Harry Blair, Yale University, USA Farhat Tasnim provides in this book a new perspective on one of the essential cases of civil society study, Bangladesh. Her penetrating analysis of the relationship of civil society organizations and democracy in Bangladesh should attract a wide readership. This is an important book not only for students of Bangladesh, but for scholars and practitioners interested in the relationship of civil society organizations and democracy. Robert J. Pekkanen, University of Washington, USA

Covid-19, State-power and Society in Europe Neven Andjelic 2022 This book explores the current state of society in Europe in general and the regimes and societies of the Western Balkans in particular. The pandemic and near-universal lockdown have provided an ideal cut-off date for the collection of indices from reputable academic sources that cover the nature of these regimes, individual human freedoms, economic freedoms, the rule of law, human rights and media freedoms. The aggregated findings from the 20 individual indices provide comprehensive data to support original findings and the characterisation of societies in 45 European states. Admittedly, there are differences in the methodologies and samples among the indices consulted. Nonetheless, taken together they offer a solid basis for developing arguments concerning the diversity of regimes, governance and societies in Europe and drawing well-founded conclusions on the nature of society in various parts of Europe. Though

the books main focus is on the Western Balkans, the region is put in a pan-European context. The issues of migration, minorities, global geopolitics, the crisis of liberal democracy they all play into developments that are specific to the Western Balkans. The book answers the question of whether the pandemic has allowed local regimes to strengthen their power and exert greater control over society, making it possible to formulate arguments regarding the future of Europe and its integrative processes. In closing, the book investigates Western Balkan regimes reactions to the pandemic in the context of governance, society and state power, before addressing the question of whether the future of the Western Balkans lies in the "liberal club", or whether local hybrid regimes will become even more influential in the near future.

Gendered Experiences of COVID-19 in India Irene George 2021-11-24 This edited volume critically reflects on the ways in which the COVID-19 pandemic has affected and continues to affect women in India. Drawing on a range of qualitative and quantitative research, contributors analyze the implications of the pandemic on the informal sector, migrant women workers, women in the health care sector, women's economic engagement, the experiences of elderly women, mental health care, higher education, and more. Chapters also consider what gender-responsive policies are needed to ensure women's equal rights, representation, and participation in society during and after the COVID-19 pandemic. This timely and relevant volume situates India within the larger global context of conversations around economic, social and political consequences of the pandemic upon gender inequalities This book will be of interest to scholars, students, and policy makers in the fields of Sociology, Gender Studies, and Public and Social Policy.

Trust, Digital Business and Technology Joanna Paliszkievicz 2022-09-30 Trust, Digital Business and Technology: Issues and Challenges presents and discusses the main issues and challenges related to digital trust and information technologies. The subject of trust is relevant to both practitioners and researchers. It is widely recognized and confirmed that trust, especially mutual trust, when it is built at the right level, reduces the risk of interaction and increases the collaboration between partners. Readers will gain from this book theoretical and practical knowledge on digital trust; theoretically, well-grounded knowledge on digital trust and related concepts, empirically validated by practice. Most authors have taken innovative approaches to consider issues highlighting a selected aspect of the core theme of this book. The intended audiences of this book are professionals, scholars, and students.

A Deeper Sickness Margaret Peacock 2022-03-08 A harrowing chronicle by two leading historians, capturing in real time the events of a year marked by multiple devastations. When we look back at the year 2020, how can we describe what really happened? In *A Deeper Sickness*, award-winning historians Margaret Peacock and Erik Peterson set out to preserve what they call the "focused confusion," and to probe deeper into what they consider the Four Pandemics that converged around the 12 astonishing months of 2020: • Disease •

Disinformation • Poverty • Violence Drs. Peacock and Peterson use their interdisciplinary expertise to extend their analysis beyond the viral science, and instead into the social, political, and historical dimensions of this crisis. They consulted with dozens of experts and witnesses from a wide range of fields—from leading epidemiologists and health care workers to leaders of the Black Lives Matter movement, district attorneys, political scientists, philosophers, and more. Their journey revealed a sick country that believed it was well, a violent nation that believed it was peaceful; one that mistook poverty for prosperity and accountability for rebellion. Organized into the journal-entries along with dozens of archival images, *A Deeper Sickness* will help readers sift through the chaos and misinformation that characterized those frantic days. It is both an unflinching indictment of a nation that is still reeling and a testament to the power of human resilience and collective memory. Readers can share their story and become a contributing author by visiting an interactive digital museum, where the authors have preserved dozens of more stories and interviews. The Bitter End John Sides 2022-09-20 What an intensely divisive election portends for American politics The year 2020 was a tumultuous time in American politics. It brought a global pandemic, protests for racial justice, and a razor-thin presidential election outcome. It culminated in an attack on the U.S. Capitol that attempted to deny Joe Biden's victory. *The Bitter End* explores the long-term trends and short-term shocks that shaped this dramatic year and what these changes could mean for the future. John Sides, Chris Tausanovitch, and Lynn Vavreck demonstrate that Trump's presidency intensified the partisan politics of the previous decades and the identity politics of the 2016 election. Presidential elections have become calcified, with less chance of big swings in either party's favor. Republicans remained loyal to Trump and kept the election close, despite Trump's many scandals, a recession, and the pandemic. But in a narrowly divided electorate even small changes can have big consequences. The pandemic was a case in point: when Trump pushed to reopen the country even as infections mounted, support for Biden increased. The authors explain that, paradoxically, even as Biden's win came at a time of heightened party loyalty, there remained room for shifts that shaped the election's outcome. Ultimately, the events of 2020 showed that instead of the country coming together to face national challenges—the pandemic, George Floyd's murder, and the Capitol riot—these challenges only reinforced divisions. Expertly chronicling the tensions of an election that came to an explosive finish, *The Bitter End* presents a detailed account of a year of crises and the dangerous direction in which the country is headed.

Plagued Simon Benson 2022-08-16 This is the inside story of Australia's two years of hell, when the country was besieged by crisis after crisis, and a rolling series of challenges and setbacks. Much of what took place behind the scenes will astonish the public. *Plagued* reveals how the critical decisions were actually

made, decisions that will forever change the nation's place in the world. In early 2020, Covid-19 breached Australian shores, triggering twin crises: health and economic. The nation had not endured trials of this scale and impact since the Spanish flu and the Great Depression. Simon Benson and Geoff Chambers – two of Australia's top political journalists – were granted exclusive access to the crucial machinations of government at the country's highest levels, not just within the corridors of power but also behind doors normally sealed. They delve into the depths of power and the cabinet room to reveal how decisions that would change the course of Australian history were actually made, but which did not prevent the federal government's crushing defeat in the 2022 election. Plagued chronicles a period of upheaval punctuated by the pandemic, natural disasters and political scandals within a world becoming more precarious with the rise of autocracy. It is a story of profound political intrigue, one in which Australia, its politicians, public servants and institutions were tested like in no other period in modern memory.

Works Righteousness Anna L. Peterson 2020 "Works Righteousness is the first full-length study of the place of practice in ethical theory. It is a critique of the idealism of dominant approaches, an analysis of alternative models in which practice plays a more significant role, and an argument for taking practice seriously both in broad questions about ethical theory and in concrete case studies. The book's main argument is that what people actually do should be central to ethical theory. Rather than assuming that pre-established moral ideas guide action, ethicists should acknowledge and explore the ways that practices generate values and the mutual shaping between ideas and actions. This argument challenges dominant philosophical and religious theories that assume that ideas are what really matter"--

Asian Tourism Sustainability Ann Selvaranee Balasingam 2022-02-22 This book brings together a collection of chapters that investigate sustainable tourism development in different Asian contexts; from stakeholders' perspectives, existing issues in the market, as well as the impacts of COVID-19 on tourism. It highlights the importance of tourism sustainability in Asia. Specifically, this book examines these themes by examples related to Asian tourism such as; social-cultural impact of sustainable growth, environmental constraints and policies, community engagement, moral limits of the market, stakeholders' participation in tourism development, the hindered interaction between foreign tourists and local community, impact of the pandemic and proposed ways forward. This edited volume substantiates this by using evidence of quantitative, qualitative and mixed methods approaches aligned with empirical data to show sustainable efforts and impacts. This book is of interest to researchers and practitioners as it offers timely understandings of sustainable tourism from multiple perspectives within the Asian context.

The Roads to Congress 2020 Sean D. Foreman 2021-11-20 This book analyzes changes to campaigning and voting in the United States in 2020. The global pandemic caused by COVID-19 upended traditional campaign strategies, posed

unprecedented challenges to candidates, and possessed the potential to fundamentally alter how campaigns think about running for office. At the same time, the Trump administration's divisive handling of twin crises stemming from the pandemic and rising racial tensions loomed over congressional races as the most disruptive election cycle in living memory. The ramifications of the 2020 congressional elections for the direction of public policy in America—and perhaps for American democracy itself—cannot be overstated. The Roads to Congress 2020 examines key House and Senate campaigns, candidates, and controversies in the 2020 election to reveal what accounts for the outcomes and point the way to America's political future.

Change and Continuity in the 2020 Elections John H. Aldrich 2022 This book analyzes and explains the voting behavior in the most recent election, setting the results in the context of larger trends and patterns in elections studies and discussing its importance and impact. Readers will gain a better understanding of the 2020 election and its implications for the future of American politics.

Importing Care, Faithful Service Stephen M. Cherry 2022-06-17 Drawing on rich ethnographic and survey data collected over a four-year period, Cherry's study explores the role Catholicism plays in shaping the professional and community lives of foreign-born Filipino and Indian American nurses. Their stories provide unique insights into the often-unseen roles race, religion, and gender play in the daily lives of new immigrants employed in American healthcare. Seeing nursing as a religious calling, they care for their patients with a sense of divine purpose but must also confront the cultural tensions and disconnects between how they were raised and trained in another country and the legal separation of church and state. How they cope with and engage these tensions plays an important role in not only shaping how they see themselves as Catholic nurses, but their place in the new American story.

New Challenges and Opportunities in European-Asian Relations Bibek Chand 2021-05-20 This book highlights the emerging bidirectional interactions between Europe—primarily the EU—and Asia in the fields of political economy, development, environmental policy, security, diplomacy, and inter-institutional relations within the context of two recent global trends: the rise of China and the growing withdrawal of the U.S. from multilateral commitments. The volume incorporates nine different aspects and dimensions of Asian-European relations. In recent decades, Asia has (re-)gained rising importance on the world stage, which also entails closer interconnections with Europe. In an age of receding American global leadership and reduced commitments to its European allies, the EU and its member states have increasingly become more open to seeking and considering new partnerships. The rising economic prowess of Asia has made it of particular interest for European states. The book's focus lies on potential challenges and opportunities in the bidirectional interactions between European and Asian states and institutions.

The Cultural Politics of COVID-19 John Nguyet Erni 2022-08-22 COVID-19 isn't

simply a viral pathogen nor is it, strictly speaking, the trigger of a global pandemic. Since the outbreak began in late-2019, an outpouring of clinical and scientific research, together with an array of public health initiatives, has sought to understand, mitigate, or even eradicate the virus. This book represents a snapshot of critical responses by researchers from 10 countries and 4 continents, in a collective effort to explore how Cultural Studies can contribute to our struggle to persevere in a "no normal" horizon, with no clear end in sight. Together, the essays address important questions at the intersection of culture, power, politics, and public health: What are the possible outlines for the panic-pandemic complex? How has the pandemic been endowed with meanings and affective registers, often at the tipping points where existing social relations and medical understanding were being rapidly displaced by new ones? How can societies discover ways of living with, through, and against COVID that do not simply reproduce existing hierarchies and power relations? The 30 essays comprising this collection, along with the editors' introduction, explore the formative period of the COVID pandemic, from mid-2020 to mid-2021. They are grouped into three sections – 'Racializations,' 'Media, Data, and Fragments of the Popular,' and 'Un/knowing the Pandemic' – themes that animate, but do not exhaust, the complex cultural and political life of COVID-19 with respect to identity, technology, and epistemology. No doubt, readers will chart their own pathway as the pandemic continues to rage on, based on their own unique circumstances. This book provides critical-intellectual guideposts for the way forward – toward an uncertain future, without guarantees. The chapters in this book were originally published as a special issue of the journal, *Cultural Studies*.

Metaphors of Coronavirus Jonathan Charteris-Black "In this timely, wide-ranging and inspiring book, Jonathan Charteris-Black provides detailed and critical insights into the key roles played by metaphor and metonymy in framing the debate around the Covid-19 pandemic. He shows how, through their strong appeal to emotion, metaphors and metonyms form part of an overt moral coercion which reduces the agency of those living through the pandemic. This book deepens our understanding of the ways in which the use of metaphor and metonymy can be used to shape behaviour, providing important insights into the collective experience of the pandemic. The chapter on metonymy is particularly illuminating as it highlights the different ways in which thought and behaviour during the Pandemic have been influenced by this highly subtle and nuanced form of communication which has been employed both in verbal format and through the use of images."--Jeannette Littlemore, Professor of English Language and Applied Linguistics, University of Birmingham, UK "This is a highly engaging, personal and lucid analysis of the figurative language used in the COVID-19 pandemic to 'make sense' of its threat to society and of the chances to counter it. Using both corpus-based and experimental survey methods, Charteris-Black expertly analyses key metaphors, metonymies and allegories about the virus, its worldwide spread and its medical management and relates them to fundamental parameters of moral judgement, leading to

fascinating new insights." -Andreas Musolff, Professor of Intercultural Communication, University of East Anglia, UK This book explores the metaphors used in public and media communication to ask how language shapes our moral reasoning about the global coronavirus crisis. The author offers insights into the metaphors, metonyms, allegories and symbols of the global crisis and examines how they have contributed to policy formation and communication. Combining metaphor theory with moral foundations theory, he places metaphors in their historical contexts, and then critically questions why certain tropes might be used in particular situations to persuade and convince an audience. The book takes an integrated approach, involving ideas from cognitive linguistics, history, social psychology and literature to produce a multi-layered and thematically rich interpretation of the language of the pandemic and its social and political consequences. It will be relevant to readers with a background in these areas, as well as anyone with a general interest in the language used to make sense of this global event. Jonathan Charteris-Black is Professor of Linguistics at the University of the West of England, UK. His research interests include metaphor, rhetoric and political discourse

Corruption and Illiberal Politics in the Trump Era Donna M. Goldstein 2022-09-23

This book explores the nexus of corruption, late capitalism, and illiberal politics in the Trump era. Through deep, contextualized analysis and careful critique, it offers valuable perspectives on how corruption is defined and understood in the current historical moment. The book asks: Is today's corruption something new, or is it a continuation of prior patterns of illiberalism? Chapters in this collection consider how corruption is practiced, mobilized, or invoked in a range of cases, each of which is embedded within larger concerns about what citizenship, social belonging, honesty, and justice mean in the United States today. The authors examine a constellation of unscrupulous actors and questionable actions, with topics ranging from sex scandals and shady real estate deals to the Trump administration's response to the COVID-19 pandemic. Several essays directly address the increasingly violent rhetoric and the deliberately anti-democratic policies that have flourished during the Trump era. The book draws on anthropological insights and comparative analysis to place the policies and practices of Trump and his supporters in a wider global context. Corruption and Illiberal Politics in the Trump Era will be of great interest to readers from anthropology, sociology, political science, discourse studies, media studies, linguistics, and American studies.

The Green Book Great Britain. Treasury 2003 This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users.

Empires of Ideas William C. Kirby 2022-07-05 The modern university was born

in Germany. In the twentieth century, the United States leapfrogged Germany to become the global leader in higher education. Will China challenge its position in the twenty-first? Today American institutions dominate nearly every major ranking of global universities. Yet in historical terms, America's preeminence is relatively new, and there is no reason to assume that US schools will continue to lead the world a century from now. Indeed, America's supremacy in higher education is under great stress, particularly at its public universities. At the same time Chinese universities are on the ascent. Thirty years ago, Chinese institutions were reopening after the catastrophe of the Cultural Revolution; today they are some of the most innovative educational centers in the world. Will China threaten American primacy? *Empires of Ideas* looks to the past two hundred years for answers, chronicling two revolutions in higher education: the birth of the research university and its integration with the liberal education model. William C. Kirby examines the successes of leading universities—The University of Berlin and the Free University of Berlin in Germany; Harvard, Duke, and the University of California, Berkeley, in the United States—to determine how they rose to prominence and what threats they currently face. Kirby draws illuminating comparisons to the trajectories of three Chinese contenders: Tsinghua University, Nanjing University, and the University of Hong Kong, which aim to be world-class institutions that can compete with the best the United States and Europe have to offer. But Chinese institutions also face obstacles. Kirby analyzes the challenges that Chinese academic leaders must confront: reinvesting in undergraduate teaching, developing new models of funding, and navigating a political system that may undermine a true commitment to free inquiry and academic excellence.

COVID-19 and Social Protection Steven Ratuva 2022-01-07 This book provides a comparative analysis of how communities have developed people-based resilience in response to the global impact of COVID-19. The crisis of the capitalist economy due to border closure, downturn in business, loss of jobs and large-scale destruction of people's well-being has worsened poverty, and inequality worsened the situation of the already marginalized. At the same time, it has provided the opportunity for indigenous and marginalized communities to innovatively strengthen their social and solidarity economies to respond the unprecedented calamity in a self-empowering and sustainable way. The book

explores some of the ways in which local communities have mobilized their cultural resources to strengthen their social solidarity and mitigating mechanisms against the continuing global calamity. It looks at how different communities approach social protection as a way of sustaining their well-being outside the parameters of the ailing market economy and how some of these can provide valuable lessons for strengthening resilience for the future.

Covid-19 and the Global Political Economy Tim Di Muzio 2022-09-26 Covid-19 and the Global Political Economy investigates and explores how far and in what ways the Covid-19 pandemic is challenging, restructuring, and perhaps remaking aspects of the global political economy. Since the 1970s, neoliberal capitalism has been the guiding principle of global development: fiscal discipline, privatisations, deregulation, the liberalisation of trade and investment regimes, and lower corporate and wealth taxation. But, after Covid-19, will these trends continue, particularly when states are continuing to struggle with overcoming the pandemic and violating one of neoliberalism's key principles: balanced budgets? The pandemic has exposed the fragility of the global political economy, and it can be argued that the intensification of global trade, tourism, and finance over the past 30 years has facilitated the spread of infectious diseases such as Covid-19. Therefore, economies in lockdown, jittery markets, and massive government spending have sparked interest in potentially re-evaluating certain features of the global political economy. This volume brings together leading and upcoming critical scholars in international relations and international political economy to provide novel, timely, and innovative research on how the Covid-19 pandemic is impacting (and will continue to impact) the global economy in important dimensions, including state fiscal policy, monetary policy, the accumulation of debt, health and social reproduction, and the future of austerity and the fate of neoliberalism. This book will be of great interest to students, scholars, and experts in international relations and international political economy, as well as history, anthropology, political science, sociology, cultural studies, economics, development studies, and human geography.

FINAL BATTLE David Horowitz 2022-10-04 "Democrats have conducted a sustained assault on the spirit of compromise that binds the union together, and set the nation on the path to a one-party state." "Nothing less than a handbook for the salvation of the United States of America."—DENNIS PRAGER "Exposes the outrages perpetrated by the Biden administration and the Democratic Left."—DINESH D'SOUZA "An ominous warning about what the future may hold if the present course is not reversed."—PETER SCHWEIZER **FINAL BATTLE** exposes the real threat that Democrats pose to freedom. The rise of socialism and critical race theory, coupled with threats to the Electoral College and Senate, an independent judiciary, and the integrity of the electoral system, now threaten to destroy the traditions that bring Americans together — the heart of our democracy. Attacks on these quintessentially American customs codified by the Founding Fathers undermine the possibility of bipartisan solutions to common problems like viral pandemics and civil disorders. Americans now

speak in different and antagonistic political languages, and the two parties are so polarized that the American way of life itself is at risk. In his devastating exposé of the Democrats' nefarious goals, New York Times bestselling author David Horowitz reveals the hallmarks of their strategies, including: The double standard in justice: Antifa and BLM versus January 6 Citizenship as disposable: granting noncitizens privileges like voting, welfare, and healthcare So-called "cancel culture" and collusion in the deplatforming of conservative voices "Empires and states rise and fall while everybody is watching. Although the watchers may be surprised when the actual collapse occurs, with the hindsight provided by the end itself, everybody can see how it fell." Read FINAL BATTLE before it's too late!

Sexual Abuse and Education in Japan Robert O'Mochain 2022-09-09 Bringing together two voices, practice and theory, in a collaboration that emerges from lived experience and structured reflection upon that experience, Ueno and O'Mochain show how entrenched discursive forces exert immense influence in Japanese society and how they might be most effectively challenged. With a psychosocial framework that draws insights from feminism, sociology, international studies, and political psychology, the authors pinpoint the motivations of the nativist right and reflect on the change of conditions that is necessary to end cultures of impunity for perpetrators of sexual abuse in Japan. Evaluating the value of the #MeToo model of activism, the authors offer insights that will encourage victims to come out of the shadows, pursue justice, and help transform Japan's sense of identity both at home and abroad. Ueno, a female

Japanese educator and O'Mochain, a non-Japanese male academic, examine the nature of sexual abuse problems both in educational contexts and in society at large through the use of surveys, interviews, and engagement with an eclectic range of academic literature. They identify the groups within society who offer the least support for women who pursue justice against perpetrators of sexual abuse. They also ask if far-right ideological extremists are fixated with proving that so called "comfort women" are higaisha-buru or "fake victims." Japan would have much to gain on the international stage were it to fully acknowledge historical crimes of sexual violence, yet it continues to refuse to do so. Ueno and O'Mochain shed light on this puzzling refusal through recourse to the concepts of 'international status anxiety' and of 'male hysteria.' An insightful read for scholars of Japanese society, especially those concerned by its treatment of women.
